Arrivat of the hibernia. SEVEN DAYS LATER FROM EUROPE. MONEY MARKET.

h in 1

the last packet, has gone rapidly on, and from 87, at which they then stood, we have en them advance to 693. The rate allowed by the discount brokers for the use of money at call, is now only 3 per cent, and the discount of first class paper may be easily efficied at from 31 to 31 Weekly Messenger. percent. Up to yesterday the minimum rate of the Bank of England had still been inaintained at 5 per cent., at which price of course no applications were made at that (stablishment, Under these circomstances its reserve went on increasing. and the expedient was resorted to, of lend-ing money on consols at such low rate as was current in the stock market, a measure which has of course contributed to the recent rise in the funds. At the Court held yesnetday the minimum rate of dis-count was reduced to 4 per cent., and this count was reduced to 4 per cent, and this whe is used us of where a special step may bring a few applicants. The of uncertainty ! an age of barren speculation and private bankers, however, as I have mon inadom conjecture; the whole world is a mere tioned had already adopted a lower scale, mass of hopes and fears, and expectations, and and it is impossible therefore that it can lave much effect.

TAXES IN ENGLAND.

The vital question in Great Britain, just now, so far as the Government is concerned, appears to be, how shall money be raised, enough to meet the, wants of the present and future. It seems to be agreed that the power of taxation is exhausted, or nearly, in regard to all known and habitual subjects mport; and ingenuity is taxed (not Times, in which the exigency of the occa-sion is laid bare with an unflinching hand. "The great secret of judicious taxation

sion is laid bare with an unflinchin "The great secret of judicious is to lay it on without hampering the strain hings between the moral vision of the great of the muscle and the play of lumbs. Half Public, and the future theatre of human action. a century of rather severe experiments has served to enlighten us on this point. Reieving as much as possible the industry of the country, the materials of trade, and the prime necessaries of life, we have trans-forred the burden to the broad shoulders of property. Luxury a eanwhile we have leff under its wholesome and profitable incums wholesome and profitable incum-The labourer can just exist withoracces. The labourer can just exist with-out either direct or evident contribution to the national fund; bit if he aspires to his-glass of ale and his pipe, or his wife to her coffee or ten. they nay no his wife to her coffee or ice, they pay no inconsiderable quota to the Treasury. Eschewing the insual division of taxes into direct or, insirect, we have indicated three subjects of taxation. 1. The raw materials of life or manufacture. 2. Luxuries and comforts. 3. Property. The first of these we have rencunced altogether. No one out of Bedlam would propose again to enhance the food of millions or clog the operations of trade

of our working classes is not such as to war-

PROSPERITY OF CANADA. One exception to this condition of our afforded by the state of Cineda, Upper and Lower, which unexpect

ealy, but most fortunately, have become prosperous and rich,-first, under the timber MONEY MARKET. The aspect of commercial and monetary matters remains utaltered. Never was a m restriking instance presented of reaction is shewn in our present condition, as con-pred with our state in October last. A period of anxiety and confusion, such as had never before been seen, has been suc-ceded by a prolonged deadness no less remarkable and unprecedented. Gold still entinues to flow in, for we have suspenden-all our foreign purclases, and money. The consequences, day becomes ease a fresh no one in trade has courage. The future; start. All are deater of the temptation, there is therefore and for accommodation, of low manimum for the temptation, there is therefore in westment. Hence, there in consols, which was reported by the last packet, has gone rapidly on, and them 82, which they then along, we have the suddenly to Dr. Frankin, tell, my ment the tast to the of the consola, which we then along which the had to tally forgotten Canda trum 82, at which they then along, we have the states to be coded by Great the mother country to Dr. Frankin, tell, my ment the tast to the consola, which was reported by the last packet, has gone rapidy on, and tor, ran back suddenly to Dr. Franklin, tell-ing him that he had totally forgotten Can'da amongst the states to be coded by Great Britain, "Why, why, so I have, indeed," exclaimed the Doctor: " well, never mind, let if go, for what it is worth."-Bell's

HURON SIGNAL.

FRIDAY, FEBRUARY 25, 1848. WHAT IS TO BE DONE?

am holier than thou !"

will be like Othello's occupation.

HURON DISTRICT.

THE spirit of prophecy, the gift of the Oracles, and even the evil genius of divination have all departed from the abodes of the children of men. Woe is unto us for we have been born in an age

gloomy forebodings, but there is no certainty .-The froth of wo ds and the conflict of theories are producing a great noise like the sound of many waters ; and yet amidst all thase theories and anticipations every man is just ready to make "a dead stop, and ask " Who will shew us any good ? O for the days of the Oracles !" Editors of the newspaper press, in the abundance of their officious good-naturedness, have en-denvored to leisen the horror of this universal suppease, by becoming Cabinet makers, and meaning anything like a pun) to devise or during the last ten or fifteen days they have, by find out new backs on which to lay the burden. We give here an extract from a long article in a late number of the London Times, in which the exigence of the constructing a Cabinet of men which will be exhibited in Moutreal in a few days ! Still, still. the gratuitous services of our friends the Editors,

have not removed the impenetrable mist that hings between the moral vision of the great It is admitted that Toryism has been unceremoniously kicked off the stage, and that the next act of the Drama is to be performed by the Huron. The whole surveyed lands of the Dis-Radicals ; but the question "What is to be done ?" is just as full of anxiety and uncertainty his mother "there are two a great fears in the house, ye're frighted that ye're gaun to dee, and I'm' curding to the situations and natural divisions of frighted ye're no gaun to dee." The Tories are the different localities. There are few of the

afraid the Radicals will do too much, and the townships square, as the Huron Tract itself is Radicals are afraid they will do too little ! As something like the form of an acute triangle our sympathies for the Tories are very strong, of which the Lake is the hypotheause, and North 33,341, the first figure should be a 5, namely we would willingly allay their fears, but alas we and South Easthope the apex or point. At this 53,341, being an actual increase of THIRTY-TWO ack ability for the task ; however, if they would point the leading road from Hamilton to Gode- THOUSAND NINE HUNDRED AND ELOUTY-SIX acres, take the will for the deed we will cheerfully throw rich enters and runs almost in a straight line, take the cull for the deal we will cheer any times the comparison of the comparison more readily on account of some whisperings therefore, the south boundary line of the town throughout the ranks of the vanquished, about ships of North Easthope, Ellice, Logan and organizing systematicly to thwart the rebellious Mitchell, McKillop, Hullet, and Coleborne, the

revolve around and under him?) Is me next is a triangle formed by the town line of Hibbert lege recognizing that institution as the property of the whole people of Upper Canada, became and their their to erest out defining between the south, and from Hamilton on the south and their their their to by degrading the aleast-these two roads meet in an acute angle at the junction of the townships of Goderich, Hulready degrades ondition of woman, and reduc-trady degrades ondition of woman, and reduclet and Tuckersmith, twelve miles from the town of Goderich. Tuckersmith contains 41,438 acres, of which 16,530 are unsold—its populaing himal existence. They will not decree that he hurried, hard-working man shall be taxed for tion 735. Goderich is a shapless block of land containing 53,856 acres, bounded on the north the liberty of chopping and clearing his own land, while the man of commerce or merchandize with by the river Maitland-on the east by Hullet and twenty times the capital, and twenty, times the Tuckersmith-on the south by the river Bayfield, profits of the industrious bushman shall be allowand on the west by Lake Huron. A The surface ed to escape scot-free. They will not decree is in some parts rather uneven, but it is in general good land; it is excellently supplied with pure springs and has a number of considerable streams that the Farmer of Huron, merely as a test of his "loyalty" and love of "British connexion," shall be compelled to transport his wheat to the unning through it-the quantiay of unsold land Montreal market at the rate of 6d. per bushel and there sell it for 3s. 6d , when for a freight of is 8,040 acres—the population is 2,801. All these townships which we have noticed, 2d. he can obtain four shillings per bushel in the market of Buffalo; or that he shall pay 8d. per except Colborne, lie upon the leading road to Hamilton: most of them have a Post Office, and yard for his Glasgow or Manchester shirting if he can purchase it in Detroit for 6d. And lastly

the Mail stage passes tri-weekly in each direc. tion. Grist and Saw Mills are also convenientis absolutely certain that the Radicals will not y situated along the road. We shall next notice shake heaven and earth with their zealous endeavours to establish Sectarian domination and those townships south of Goderich, which occupy the track lying between the London road and intolerance. They will not compel the various the Lake, the first of which is Stanley-it is a denominational sections of the Christian Church o support and acknowledge the supremacy of acres, of which 10,158 are unsold, it has 1031 dogmas subversive of their own conscientions opinions. In short they will not propagate the heart-burnings, bitterness, and bad feeling which are now the disgrace of the religious world, by menced, but it is a beautiful site for a town, and its present prosperity is a promising indica- upon the subject. giving to any bigot or bigots the shadow of ligis lative sanction for saying "stand thou aside for We have thus enumerated a few measures which would certainly be revolting to the feel ings of every honest man, and we think the very, very few of the 18th century Tories who

ertinaciously charged upon the Radicals .-It is a large township containing 63,690 acres ; proceeds equally divided among the five legatees; Alas ! alas ! for the popularity of the honourable Robert Baldwin, if the sap does not flow abunof which 38,077 are unsold-its population is but the three individuals composing the majority 595. The townships of Williams in the London had no right to vote that either the blankets or dantly from the maple trees next month, or if the spring frosts hart the fall wheat, or the dry ot destroy the next potato crop ! Or should the are patented to the Canada Company, and are exclusive property ? the first vote would be an pooms and bays of Quebec become blocked up ron Tract." Williams is the largest township by an over speculation in the pine trade, the character of the honourable Member for Kent

The District of Huron is situated between 43 and 44 degrees of northern latitude, and between Lake and the townships of Williams and 81 and 82 degrees western longitude from Green McGillivery. Its superficial extent is 64,0594 wich. It is bounded on the North by unsurveyacres, of which 53,4191 are unsold-its populaed wilderness, on the South by the London and Brock Districts, on the East by the Wellington tion is 241. The irregular forms and sizes o the townships of Huron do not arise entirely and Gore Districts, and on the West by Lake from the triangular shape of the District, but proposal, and no honest man would sanction or from the fact that the Company have used the trict, with the exception of the townships of leading roads and principal rivers, (with all their Ashfield and Wawonosh, are patented to the windings) as town-lines, which is after all a as ever. And as drunken Sandy Watt said to Canada Company, who have had them divided judicious arrangement. We shall notice the reinto townships of different sizes and forms ac maining townships in our next.

> ERRATUM. In our Statistics of last week the number o acres under cultivation in the District is stated equal to the right of any other single individual; since the year 1842 !

POLITICS FOR THE PEOPLE-NO. 4. KING'S COLLEGE.

It is pos soible that in the course of a few weeks, de. "As for luxuries, the present condition machinations of the destructive Radicals ! Or. northern boundary is the Government Lands.— perhaps a few days, a number of constituencies machinations of the destructive Radicals ! Or. Colborne lies upon the Lake shore north of in Upper Canada will again be called upon to us of Ireland, and we think that our blood runs Goderich, the Maitland river being the division exercise the elective franchise ; and as the weal between them. It is a small township some- or woe of the Province is deeply involved in the thing of a romboid figure, containing 34,339 Parliamentary proceedings of the ensuing session acres of which only 4,298 are unsold—it is in general a good soil and well watered. Its pre-rally should be made aware of the real nature sent population is 547, among whom are a num-ber of wealthy and intelligent farmers. Hullet the attention of our Legislature. We have no lies along the east or southeast side of Colboree. it contains 53,818 scres, 42,806 of which are un-conduct resulting from momentary impulse, or sold. A branch of the Maitland winds through from a kind of artificial excitement produced on t, it is but thinly inhabited, the population be- the very eve of an election. The elective fran ing only 264. McKillop lies on the east side of chise-is not private or individual property. It Hullet, is an oblong square, containing 52,841 has never been regarded as sug in any portion of acres, of which 42,022 are unsold, the number the British dominions. The highest authorities, from the eminent Judge Blackstone, downwards, land of secret organized factions ! Is the same but a little larger, its contents being 54,488 held by electors for the public wead, and though is good and is intersected by numerous streams, making merchandise of this sacred trust, yet the its population is 248. Ellice is next, it is of the laws against the bribery and corruption of voters

though the subsequent history of the institution too plainly shews that the impartial provision of the Charter were soon sacrificed on the shrine of dishonourable intrigue and sectarian aggran dizement, yet Mr. McDonald's Bill of last see dreamt that their claims upon the institution were superior to the claims of the Baptist and Secession Churches. Hence all shams and subterfuges about "vested rights" and High

Church supremacy are thrown aside, and the simple question before the public at present, is, Are the people willing that the revenue of their property shall be given for the exclusive purpose of advancing religious sectarianism (which is ized world,) or shall this revenue be expended in the moral and intellectual improvement of the entire pcople ? There is no mystery ; no sophisrich and well settled township containing 45,336 (ry : no complication of reasoning involved this question, it is certainly within the grasp of inhabitants. At the mouth of the river Bayfield is a village of the same name-it is but lately ciples of justice and atility, admits of bu one answer. We shall, however, reason a little

tion of its future success. On the south side of There seems to be an error of opinion through-Stanley is the township of Hay, it is thinly set-out the civilized world, regarding the right of There seems to be an error of opinion through-

Stantey is the township of riny, it is tainly set out the civilized world, regarding the figure of the having only 122 inhabitants--its superficial majorities ; this right is, in fact, nothing more measurement is 53,450 acres ; 45,391 of which in a multitude of instances, than the power reare yet to be sold. It is bounded on the south sulting from numbers. But no superiority of by Stephen, containing 55,444 acres and a popu-numbers can possibly possess any moral power of wood, and drawers of water, passed through lation of 276; the quantity of unsold land is 46,744 or authority to vote a 'man out of his own pro-Goderich this week on their way to the Govern-Radicals giving any countenance to such anti-quated absurdities. Still we are aware that all the evils, natural, commercial, physical, and moral, that may be in store for Canada, will be which stretches out between it and the lake .-- to vote that the blankets should be sold, and the yet decided on, but we should suppose it will be "Elgi ... or "Bruce."

District, and Bosanquet in the Western District the entire proceeds should become their own are patented to the Canada Company, and are included in what is commonly called the "Hu-ton Tract." Williams is the largest township in the Tract—it contains 74,598 acres, of which from animal force. Now, there is certainly a A life are unsold, it has 375 inhabitants-dis-tance from the town of London 16 or 18 miles. Bosanquet is a kind of tattered skirt of the Western District, that stretches rather imper-tinculty along the river Auxaables, between the Lake and the townships of Williams and the constraint of the approximation of the stretches rather in the stretches ratherathes rathe ity of the population ; but should they or their re

presentatives vote that they had a right to the whole income of the University, the vote would just be equal to a monopoly of the blankets ; hence no honest man would bring forward such a support it. Besides we feel pleasure in believing that a very large majority of those who were to be physically benefitted by it, would regard the proposal as a violent outrage upon their moral feelings. The University and its revenues be-long to the whole people of Upper Canada, and Courier.

if in the 600,000 of population, there is one Mormon or one Unitarian, his right is just and if it would be unjust in a single man to rob him of this right, it would be equally unjust, and far more dastardly, in 599,000 to deprive him of sorrow that admits not of consolation, it is it. For although the world seems to act upon the belief that iniquity is extenuated in propor-tion to the numbers who join in the perpetration of it, yet there is a wide moral distinction between the division of property and the division happiness of their parents.

of crime. In dividing one hundred pounds among one hundred persons, each man receives The following is the German mode of one-hundredth part of the aggregate sum, but the crime of robbery committed by drinking upon Sunday and holidays in coffee non-hundred men, produces exactly one hundred houses, &c. during divine service, are authoindividual robbers -- the association of numbers never can have the slightest influence in dimin never can have the significant could only be regarded as a very temporary set

At the last election, Mr. Gwynne stood forwhird as the Liberal Candidate, and as such f supported him ; he contested this County with Mr. Cayley-you were present during the contest-after such a contest, can you, or any one, contend that this County is "essentially and ntirely Conservative. Of a constituency of 710, three hundred and toenty-one voted for the Liberal Candidate, and 389 for the Conservative. tional, acknowledgment that King's College and its revenues are in reality the property of the people. A share of the income is there offered bear on them by the Commission brought to to the Roman Catholics and M. people. A share of the income is there offered to the Roman Catholics and Wesleyan Method-ists, and neither of these religious bodies ever gave their support from the expectation of obtaining places of emolument or honour, through the influence of Mr. Cayley, the supposed leader of what is styled the Conservative party, it is not now my intention to examine. The contest is itself a refutation of your re-

marks ; and as it is still so fresh in the m of all-or perhaps I should say of those who do not willfully forget it-I might have allowed your remark to have gone to the County without of advancing religious sectarianism (which is at this moment the withering curse of the civil-ized world,) or shall bis retenue be expended in during the election, I should regret to have it supposed for one instant that in that contest, I acted otherwise than from a firm conviction that Conservatism is behind, the age, and that a Liberal Government can alone keep pace with the wants and wishes of the people.

I remain, Sir, Your most obedient servant, JOHN GALT.

TO THE EDITOR OF THE HURON SIGNAL. GODERICH, 23rd Feb., 1848.

DEAR SIR,-Might I request the favour of your asertion of the enclosed, as you will perceive it

was called forth, in consequence of an article that appeared in the Haron Gazette. Mr. Gile

paper ; but as I am desirous that the inhabitants of April next. of the County should understand clearly the ground of my support, at the last election, of Mr. Guynne, I would feel obliged if you could fayou

it with a place in your columns, I remain, Dear Sit,

> Your most obedient servant, JOHN GALT.

To the Editor of the Huron Gazette

SIR,-In your paper of the 18th current, un-ter the article "Ourselves," you say-" If any proof were wanting of the County of Huro being essentially and entirely Conservative, it i to be found in the fact, that no gentleman po sessing other than Conservative principles eve yet dated to solicit the suffrages of the electors. To this statement I must give a positive denia My acquaintance with the County of Huron and its inhabitants is one of more years in standing John Salkeld. than yours' is of weeks, and has enabled me t

arrive at the conclusion that the great majority of the inhabitants are liberal in their sentiments if left to themselves, much more readily be in

rised to depart without paying what they have had. Such a regulation in England would have a most baneficial tendency in

INGRATITUDE-An ungrateful man is detiement of the question; for while such a wide difference of opinion exists upon the subject, there is a strong probability that every new Ad-ministration would claim the same power of as the common injurer of all those who

DIVERSION .- All innocent diversions, as far as they contribute to health, and do not justice. And we have no fears whatever but all interfere with the improvement of the talents God has given us, may be enjoyed; terminate upon the broad basis of equal rights but we should watch, lest we be deceived by a present pleasure to lose a greater.

Married.
