After the Premier had explained the purport of the Bill, Mr. Kent expressed the opinion that the second reading should be deferred. He said that he was disappointed with the Bill, as the measure seemed to offer no solution of this vexed question of local government. He felt that the subject had not received the serious consideration that such a subject deserved and for this reason asked that the matter stand over.

The Bills respecting the Naturalization of Aliens was read a second time. This Bill deals with the status of British subjects. It is a copy of an Imperial Act and meant to carry out locally the principle that in case an alien is naturalized in any part of the Empire he will be a British subject here.

Mr. Kent felt that this Bill was a most desirable piece of legislation, and said that this measure was a highly commendable one.

Mr. O'Driscoll Replies

TO THE CITY COMMISSIONERS. Dear Mr. Editor,-Pardon my in truding once more on your space to set myself right in connection with the water pipe order. I asked for a statement of figures wherein the Chairman stated my price was \$2,220. 00 too high. I contended my price was only \$565.33 higher. Instead of answering my request for a state-ment you will notice some evasive answer was given. Another thing developed to my surprise, the Chairman admitted that Hazel & Whipple and Longley would be paid for their services, whether the services whether the pipes were bought from them or otherwise. I was given to understand I should have a chance to figure, and one member said to me, "I suppose we will have to give Mr. Longley something for his trouble, a couple hundred or so," but he did not think they would exact anything. That, I said, is none of my affair. Don't you think, Mr. Editor, the gen-tleman referred to should have said in justice to me they were committed to Mr. Longley for the purchase of the pipes instead of allowing me to keep telegraphing back and forth for two weeks, and each time saying Your prices are too high." Will the council deny they were going to buy through Mr. Longley at \$23.20 after his first offer of \$22.70 had been with drawn, with the statement that freights had advanced?
