**ABSOLUTELY WATERPROOF**

That's the kind of roof you get by using  
**EVER-LAS-TIC READY ROOFING, \$2.70 per roll.**  
EVER-LAS-TIC—because it lasts; there's no rubber in it. Rubber rots, you know that.  
READY—because each roll contains enough nails and cement to finish the job.  
ROOFING—because it's made to withstand sun, rain and wind.

**PARTICULARS:**  
Each roll contains 108 square feet; one roll will cover 10 square yards. Multiply the length of your roof by its width, divide by 100 and the answer will be the number of rolls required to cover your roof.
