War News.

Messages Received Previous to 9 A. M.

ITALIAN SUCCESSES. ROME, Aug. 22. More than 13,000 Austro-Hungarian prisoners have been captured by the Italians in their offensive on the

sonzo front, the Italian war department announced to-day. The Italians have also taken 30 guns. General Cadorna reports the Italians have gained new successes along the whole battle line. North of Gorizia operations are proceeding regularly. To the south the struggle is localizing, especially on the Carso front.

Another British Attack. British Front in France and Belgium, Aug. 22.—The British began another operation northeast of Ypres at dawn to-day on the battle-scarred ground between Langemarck and

shells was falling. Then when it suddenly ceased a squadron of airplanes flew in advance of the assault troops forming the first line and using their machine guns on the Austrians at short range. Many prisoners were made deaf by the violence of the detonations. They had believed their positions quite impregnable.

Another British Attack. British Front in France and Belgium, Aug. 22.—The British began another operation northeast of Ypres at dawn to-day on the battle-scarred ground between Langemarck and

Frezenberg. No details are yet available from this sector which was the scene of some heavy fighting last Thursday, in the assault by the British. Meanwhile the conflict continues about Lens, though apparently greatly diminished in intensity, with the Canadians still holding the Germans off from the positions which they had gained in the western part of the city yesterday and at the same time clinging tenaciously to the numerous new posts in the German line on the northwestern section. Piers hard to hand fighting continued late into the night, especially in the northwest portion which lies between the Germans and Hill 70. The Germans continued to fling heavy counter attacks against the Canadians and the battle surged back and forth. This morning the advantage rested with the British, and nowhere had the Germans been able to reach lines from which the Canadians began their offensive yesterday morning. It now appears from statements of German prisoners that the German counter attack at dawn yesterday, which by a strange coincidence began at the same hour as the Canadian, was a preliminary to a general counter attack which had as its object the recovery of Hill 70, the possession of which is necessary if the Germans are to continue their hold on Lens.

FRENCH GAINS. PARIS, Aug. 22. The battle of Verdun has not yet ceased and on the left bank of the Meuse the French troops have captured several points including the village of Regneville. On the right bank the French have occupied Samedieux and carried a system of fortified trenches, which links this place up with Hill 244. The official report from the French war office, announcing the successes, says that all German counter attacks have been repulsed.

CANADIAN GAINS. LONDON, Aug. 22. Two thousand yards of German positions west and northwest of Lens have been captured by Canadian forces in a drive started early to-day, says the British official communication issued this evening. Heavy fighting is still going on in the region of the coal city with the Canadians having the upper hand. Three counter attacks by the Germans met with repulse.

GOOD PROGRESS AND PRISONERS. LONDON, Aug. 22. (Via Reuter's Ottawa Agency.)—Reuter's correspondent at the British Headquarters in France, telegraphed to-day: The Canadian troops around Lens launched another attack converging on the western environments of the town at half-past four this morning. The dawn broke with a thick haze. When the infantry went over the top, they saw masses of shadowy grey figures advancing towards them. It was actually a fact that the Germans had planned an attack to be delivered at the identical moment as our men and what is probably one of the most desperate hand-to-hand battles of the war ensued. In the words of an eye-witness the Germans fought like cornered rats. In the shell-torn wire-encumbered zone of No Man's Land, this struggle raged, bomb and bayonet being the principal weapons. Gradually the Canadians beat back the Huns, and about 15 minutes after the clash came the enemy were making their last stand upon the parapet at their trenches. Then they retreated as rapidly as possible into the ruins of Lens and almost immediately a furious machine gun fire began to rattle forth. Along the northern part of the Canadian attack from the direction of Cite St. Emille, good progress was made. Strict orders had been given that the advance was not to be pushed beyond given limits. In the centre and southern portion, the attack was fiercely resisted and the latest news is that fighting is still in progress. A good many prisoners, of whom large proportions are wounded have been brought in.

POSITIONS MAINTAINED. LONDON, Aug. 22. The following is the official communication issued to-day: South and west of Lens the new positions captured by us yesterday morning on the outskirts of Lens have been maintained. Further progress has been made at certain points northwest and north of Lens, also. As a result of heavy fighting, in the course of which German counter attacks were repulsed by our rifle and machine gun fire or broken up by our artillery, some additional ground has been secured in advanced positions captured on the 15th. There has been great artillery activity during the night on both sides east and northeast of Ypres.

FRENCH HOLD FAST. PARIS, Aug. 22. The second day on the new battle of Verdun was taken up, as was expected by desperate efforts of the Germans. The long artillery preparation of the French, interrupted as it was by bad weather, had given the Germans time to mass reserves for counter attack. They had withdrawn their forces from their advanced lines which were too greatly exposed to the French artillery. Massing these men together with reserves around the extremities of the sector attacked between Avocourt and Bezonvaux in readiness for counter attack, the Germans had given the counter attacks were made in the evening. All of them were repulsed. The gains of the French were maintained entirely, further advances were made and large numbers of prisoners added to the previous total. It is known the Germans had five divisions of reserves in readiness for this battle and more than four hundred batteries. They began to weaken before the bombardment, and a great many of them surrendered. One complete platoon in charge of non-commissioned officers gave itself up in a group.

GERMAN COUNTER ATTACK REPULSED. PARIS, Aug. 22. The Germans made a violent counter attack last night on the Verdun front. West of the Meuse they penetrated the French lines at some points in their attempts to recapture the ground taken from them in the first French offensive, but the war office announces they were again driven out.

The Germans attacked east of the river also but were repulsed. The number of prisoners taken has reached 6,116.

CANADIAN GAINS. LONDON, Aug. 22. Two thousand yards of German positions west and northwest of Lens have been captured by Canadian forces in a drive started early to-day, says the British official communication issued this evening. Heavy fighting is still going on in the region of the coal city with the Canadians having the upper hand. Three counter attacks by the Germans met with repulse.

West of the Meuse they penetrated the French lines at some points in their attempts to recapture the ground taken from them in the first French offensive, but the war office announces they were again driven out.

Canadian troops. The skill, bravery and determination shown in the attack and maintaining the positions won against repeated heavy counter attacks were in all respects admirable." Congratulatory messages have also been received from the Commanders of the armies on the western front. General Byng in his message, after expressing his delight at the fine achievement of the Corps, says his old comrades have been much in his mind during the progress of the operations.

AIR RAID ON YORKSHIRE. LONDON, Aug. 22. An official announcement to-day says: Airships in numbers not definitely ascertained, appeared off the Yorkshire Coast last night. One of the raiders attacked the mouth of the Humber and was fired on by anti-aircraft guns. She dropped some bombs but made off to sea. The message so far reported is slight; one man was injured. An air raid warning was issued in London this morning. About one hour later the announcement "all clear" was made, indicating that the raiders had been driven off.

Ten German airplanes approached the English coast in the county of Kent to-day, the British War Office announces. Two of the raiding machines were brought down. Bombs were dropped at Dover and at Margate. Three persons were killed and two injured. The statement says the raiders were unable to penetrate far inland.

RUSSIAN OFFICIAL. PETROGRAD, To-day. The war office communication issued to-day says: In the direction of Ivinok there has been animated fusillades. More intense artillery bombardment on the part of the enemy took place in the region north of Lake Drisvaty. In the direction of Vladimir Volynsky and north of Zatur the Germans carried out gas attacks and endeavored to develop an offensive which was frustrated by our fire. On the Roumanian front, on the Pistriz in the region southeast of Krutche, the enemy launched several attacks which were repulsed by our infantry. Yesterday in the direction of Ocha the enemy undertook an energetic offensive south of the River Bioktund and along the Mount Alonous Range between the Slavic and Otman. Towards evening he succeeded in making a slight advance. Fighting for the possession of the factory at Stakleris continued during the whole of yesterday with varying success. In the direction of Fokshani and west of the Fokshani-Ajud railway the Roumanians beat off all German attacks. East of the railway by a series of counter attacks, the Roumanians drove the enemy from the trenches occupied by him on the previous day and the position was restored. On the Baltic Sea on Sunday several squadrons of enemy hydro-airplanes carried out three flights over the Oesel coast in the Gulf of Riga. Our airmen meeting the enemy forced him to retire. Our airmen carried out a flight over the Courland coast line where they dropped bombs on enemy military establishments.

SPANISH RIOTING. BARCELONA, Spain, Aug. 22. (By Courier to the French Frontier.)—Violent rioting has been taking place in Barcelona and neighborhood since last month, when a general strike was proclaimed. Firing from the roofs of houses and from behind half closed shutters has been going on daily. A considerable number of persons have been killed and many more wounded, though no reliable figures were available.

Paris (Official).—The estimates of victims of the disorders throughout Spain show that there are 37 dead at Barcelona, 12 at Madrid, 328 at Bilbao, 4 at Nerva (?) and one elsewhere. The number of wounded is more difficult to estimate, but it is believed there are 100 injured in Madrid and a larger number in Barcelona.

DIVIDED ON POPE'S NOTE.

COPENHAGEN, Aug. 22. The German Chancellor, at the convening of the Reichstag main committee yesterday in Berlin, said the recent peace proposal of the Pope had been issued spontaneously and not at the wish of the Central Powers. The committee was informed by the Chancellor that the Pope's note would be answered only after the closest consideration by the Reichstag. The preliminary reports of the Reichstag committee indicate that the parties are divided regarding the Pope's note on the same lines as on the Reichstag's peace resolutions.

The Conservatives, National Liberals, and pan-German groups are declared to be reserred in their opinion, while the Socialists, Radicals and Centrists are said to approve of the Pope's action. Chancellor Michaelis informed the main committee that Germany would not reply to the papal peace note until she had consulted her allies. Dr. Michaelis added that in view of the fact that Germany had previously and positively indicated her readiness to enter peace negotiations, the Vatican's appeal, of course, is looked upon with sympathetic approval. Germany, however, could not again offer peace in the face of the summary rejection of her previous proposals and the continued declaration by the Entente that no peace is possible until the Central Powers are defeated and crushed. The Chancellor informed the committee that no steps would be taken towards peace without fully consulting the Reichstag. He then declared that the military situation on all fronts were exceptionally auspicious, and read a message received from general headquarters in which the U-boat campaign was given liberal credit for its effect in successfully warding off the Allies' offensive in Flanders.

ANOTHER LOAN TO BRITAIN. WASHINGTON, Aug. 22. A loan of \$50,000,000 was made to-day by the Government to Great Britain. This brings the total advances to the Allies up to \$1,966,400,000.

PARLIAMENT ADJOURNED. LONDON, Aug. 22. Parliament to-day took recess until Oct. 16. The time which has elapsed since the war statement of Premier Lloyd George has been occupied in clearing up several small measures of domestic legislation.

REDUCE CONVENTION MAJORITY. LONDON, Aug. 22. By the narrow majority of 3,000, in a vote representing nearly 2,500,000 workers, the British Labor Conference to-day decided to stand by its plan of sending delegates to the international Socialist Conference at Stockholm. The vote was attended by a turbulent scene. Part of the delegates sang socialist songs and others the patriotic "Keep the Home Fires Burning." Arthur Henderson who had resigned as member of the British war council on account of the question at issue, made a long defence of his action. The Socialist element proposed that all labor representatives should be instructed to withdraw from the Government, but the suggestion did not meet with sufficient support to come to a vote. George N. Barnes, who succeeded Mr. Henderson in the Cabinet, defended himself against attack, and said he proposed to continue to support the Government in what he believed would be a successful effort to establish freedom in the world. He belated Germany had all to gain, the others all to lose from the Stockholm Conference.

ZEPPELIN DESTROYED. LONDON, Aug. 22. British light naval forces destroyed a Zeppelin airship this morning off the Jutland-Denmark coast, says an official communication issued this morning. The communication adds there were no survivors from the crew of the airship.
