

**Chiropractor.**

**THE TORONTO CORRESPONDENT TAKEN TO TASK.**  
 Evening Telegram.  
 The space devoted to the paper re News of Toronto and (submitted by the Toronto Correspondent), in May 8th (submitted by the Toronto Correspondent) devoted a paragraph in his attempt of a humorous attack on the chiropractors of the Province of Ontario. He is very desirous to know how many are in your midst; also how many have taken on to himself the capacity of judge in assuming the length of an individual under a particular mode of healers. He has made statements, so naturally, which are led to believe he possesses the power. I wish to have this rectified in your paper, that the public may know and choose for themselves. It is ever the purpose of the chiropractor, regarding health and his particular mode of healing same, to tell the whole truth and nothing but the truth, and nothing to hide, so that the public may see reflected as the public may see. It is not my purpose to start a controversy and can re the value of chiropractic, and will only reply to the article if attacked. Special Correspondent is not a very obedient reader of your daily, as it is that he would have known of the existence of a Chiropractor among the people. Also he never heard of Chiropractors before coming to Toronto, and now under his pen he comes out with the people of Newfoundland. Chiropractic is not, if the chiropractor before committing himself, would visit some of the leading Chiropractors of Toronto, or may some of the Editors of the Toronto Evening Telegram could furnish him with the information concerning the Philosophy of Chiropractic, of which he knows nothing. For the information of the public, Chiropractors do not treat or hammer the spine. No such order takes place as one is led to believe by reading the correspondence writing. Chiropractic consists of adjusting by hand the articulations of the spine, relieving pressure on nerves, and to their individual organs and the human body. There is no pressure used or a hammer or mallet, nor in no sense is hammer applied in any shape to the spine. If there is it is not Chiropractic. There is nothing in a chiropractic treatment to injure as it is applied to the infant and aged alike. Special Correspondent draws a conclusion based on his opinion upon the fact that with tuberculosis died after a visit by a Chiropractor in a half hour whereas it would take a regular man a hundred times as long. He goes on to mention speed on the part of the Chiropractor. (Maybe the same in a local). The only person I can draw is, this self-judge passes his opinion to us. The patient would have lived if a regular medical man had been in attendance. Now in contrast to this I want to draw the attention of the public to what happened to a couple of patients of the regular medical man. Maybe there was a little of the correspondent so glibly refers to the case of the Chiropractor used in the case. Given serum; two women dragged after treatment. One collapsed on street other in doctor's office. Chief Coroner conducts inquiry. "Two women died suddenly during afternoon shortly after being treated. A statement of a regular medical man on the street about 50 yards from the office of Dr. J. H. McCollin, 1553 Dundas Street west, while Dr. McCollin Bond of 212 Sackville St. is the doctor's office. Dr. McCollin who had several other patients during the same treatment, was assisted by Dr. E. E. Faed, 1087 Dundas Street. (Telegram, Jan. 19, 1922). This is the Toronto Telegram. The correspondent would be able to pick the length of life of those patients if a Chiropractor had been in attendance. It is not my purpose to draw lines in public, or resort to anything alluring, but to give to the public the truth and nothing but the truth as it is their right. The Association of Chiropractors of the Province of Alberta, of which I am a member, have received permits to practice. In conclusion I will quote from the "Toronto Telegram" which is a proof against all argument, which cannot fail to keep a man from practicing ignorance! That principle of condemnation before investigation.  
 Yours truly,  
 W. H. MacPHERSON,  
 1553 Dundas Ave., May 10, 1922.  
**His Punishment.**  
 (who has gone into the past, and finds William, stealing biscuits): "Now, what do you mean by this? You know that the law punishes those who steal once, and did not punish those who steal twice."  
 "Father, You stole mother's money, but remember, I was punished for that. I got the sentence, and am serving it."

# The Out-of-door Season is Here!

## Are you prepared for warmer weather?
