**Into the Discard Go
Wasteful Designs**

If you analyzed the public's unbounded enthusiasm for the CHRYSLER SIX you'd find that it included a decided feeling of relief. They are overjoyed to find that at last brilliant performance—more brilliant than they have ever before experienced—can be had without penalties and annoyances. That's why the CHRYSLER SIX has invaded so many price fields. It is not a question solely of economy, although the CHRYSLER SIX gets its results with an economy of means that makes one marvel. It is not solely the car's power, speed and agility, although they give even the most experienced a genuine thrill. It is the idea that here at last are all these things plus riding qualities and ease of handling and parking that make all conventional designs seem absurdly cumbersome, unwieldy and wasteful. Once you experience it, you will be as great a CHRYSLER enthusiast as anyone.

Economy

is rarely effected by buying the cheapest article. OUR COKE is SUPERIOR to imported Coke because it is made from HIGH GRADE PENNSYLVANIA COAL, producing COKE of the highest standard, practically free from sulphur. Coke made from low-grade high-sulphur coals is necessarily inferior to our coke. One of our customers has recently used imported coke, with the result that the furnace linings were damaged by clinkering, and our OUR COKE IS AGAIN BEING USED with the usual good results. Before buying coke pay us a call, and let us demonstrate the superiority of OUR COKE for domestic and industrial use.
