AMERICAN WOOLEN CO. Regular Preferred Dividend in Line With Expectations—Very Little Change in Conditions.

BOSTON—Directors of American Woolen Co. did the expected in ordering the regular quarterly dividend of \$1.75 on the preferred stock. Semi-official statements of such an intention were made about a month ago, when the stock dropped below 70.

As a matter of fact, Pres. A. G. Pierce in the 1924 annual report went out of his way to outline the probable attitude of directors toward the preferred stock in the light of a possible continuation of last year's depression in the industry. At that time he said: "Full payments have been maintained upon the preferred stock. This issue has never omitted a dividend since the organization of the company and this record, together with the wide distribution of stock, will always prompt directors to safeguard its position jealously."

There is nothing new in the affairs of the company. Whatever change may have occurred in recent weeks, however, has been for the better. That is to say, wool prices have rallied somewhat, and there is, possibly, a shade better tone to the goods markets. Manufacturing operations are still averaging well over 60 per cent. capacity.

Company is likely to show a modest operating profit the first half-year, but not sufficient to cover the preferred dividends. It is a peculiar fact that American Woolen almost invariably develops its earning power, in good or bad years, in the second six months and it will be interesting to see if precedent is followed this year.

(From Halifax Chronicle, June 8th.)

THE SITUATION.

The Boston News Bureau says:—The scramble for bonds and the fresh advance of the stock market in Italy has taken one step to stabilize her exchange, and it is to be hoped, may co-operate further in its problem with the Morgan firm. France is yet to take the courageous stand that Cailaux had been expected to espouse. Belgium has sent word of an early intention to adjust her affairs.

In business little new is discernible. The buying movement in pig iron has subsided as might have been expected at this time of year. But there is no price weakness in any direction and commodity prices as a whole showed a very substantial gain last week. Business appears to be taking a normal breathing spell.

MACK TRUCKS.

NEW YORK, June 3—Mack Trucks issued following statement: "When the March dividend was declared, it was understood that no consideration was given to the question either of an extra dividend or of stock dividend on common. Same absence of consideration is believed to have obtained at Tuesday's meeting. Energies of the management and organization and financial resources of Mack Trucks are fully absorbed in handling record business which has featured 1925 operations. Company's plants for some weeks have been operating at full capacity on sales booked during the first five months of year. Output is running more than 400 per cent ahead of 1924 period. Profits, as might be supposed, are expanding in keeping with marked increase in shipments. While margin of profit is somewhat less than in 1924, the great increase in production and shipments has produced earnings at the largest rate in history."

Destroying Dogs

COMPLAINT AGAINST THE METHOD EMPLOYED.

Editor Evening Telegram

Dear Sir:—This morning at 5.30 the residents of a certain section of the West End of the city were awakened by a loud report followed by the agonizing shrieking of a dog. After a little while, another shot and then silence. This was evidently a part of the campaign against dogs at large in the city, but might I suggest that some other method be found for destroying these dogs, which are a nuisance, other than that of sending a policeman (who is a very indifferent shot) around in the early hours of the morning to blaze at these dogs under the very windows of people's houses. Surely a more humane method could be adopted!

Yours truly, DISGUSTED.

P.S.—If shooting is the only way, I would suggest that some other weapon than a sealing gun be used. June 13th, 1925.

The Chance of a Lifetime

Fifty Dollars invested in German Government Bonds two years ago makes profit of Thirteen Hundred Dollars for St. John's man. Had this same man bought his bonds from our company and kept in touch with market prices, he could have sold same for Three Thousand Dollars a few months ago. German Government Bonds advanced in ten months to Three Thousand Dollars. This Bond is known as the 1914 to 1918 7 1/2 % We have Bonds of other issues that we consider having even greater possibilities, and would only be too pleased to explain to any interested people. Will be in St. John's for some time but will not be able to call on every one, but would suggest that any one interested in any foreign issues see WILLIAMSON & MACINTOSH, Imperial Hotel, St. John's.
