A Charitable Reminder.

Yesterday the Associated Charities were deploring the fact that but six dollars had come toward the transportation of the young Russian widow whose story appeared in The Morning Albertian a short time ago. As will be remembered this young woman, Eliza, both Welman by name, came with her boy to join her husband who had saved enough to pay for their passage to Canada. On her arrival she was met with the news that her husband had died a few weeks before.

Money as all went to bring his wife and child out. Mrs. Welman now craves all the funds for her old Russian home, her own desire being to take her baby back to her own mother, and to live again among her own folks. Seventy-five dollars are needed, and Mr. McKillop, who considers the case a most deserving one, is anxious for help in making up that amount.

Mrs. Bagnall of the Children's Aid is spending a holiday at the coast. She will be gone several weeks and before her return will visit the charities convention in Seattle.

Mrs. A. Murphy ("Jane's Canuck") and Miss Kathleen Murphy who were visitors with the W.C.P.C. at Banff, left that heavy spot yesterday on their return trip to Edmonton. Mrs. Murphy, though not her old self yet, has so far recovered her strength as to be able to enjoy to the fullest the delightful week-end spent in Banff. After a somewhat strenuous day on Saturday with its travelling, its sightseeing, and its grand ball, she yesterday walked to the Falls, and over many beautiful trails, returning only in time for lunch. The afternoon was spent on the terrace, the part of the trip to the falls and play of wits between this affable author and R. B. Bennett, resulting in much amusement for the rest of the party.

A photograph of Mrs. Murphy taken

in the large, new and airy ball room was also taken and will shortly be on view.

## BOARDING HOUSE FOR CHILDREN IS DISAPPROVED OF

Further investigation to be made.

The question of establishing a boarding house for children which was put forward by Rev. A. D. McDonald came up at the monthly meeting of the Children's Aid and after some discussion it was decided that further enquiries be made and a report sent in later. Deaconess

Lampard of the English church, was reported on the impression that such a home was not at present necessary, one point against it being the possibility of making the public less self-reliant, and more inclined to shirk their responsibilities.

Deaconess Moffat, on the other hand, favored the idea, while the new deaconess of the Baptist church would express no opinion being but a recent arrival in Calgary. Miss Woods, of the Knox Presbyterian church agreed with

the question of the W. C. T. U. Creche in Crescent Heights came up, the report from there showing that the average since its opening was one child per day. This is less than when the Creche was on the South Side, the average then being four children per day. The Creche Heights has no long been opened, and the summer weather being here may account for the small attendance.

The report contains figures for the month, the children being cared for being as follows:

No. cared for at shelter..... 55  
No. males..... 29  
No. females..... 26  
No. admitted..... 18  
No. placed in homes..... 6  
No. returned to parents..... 13  
No. died..... 1  
No. placed on probation..... 14  
No. juvenile court cases..... 14  
No. visits to home and other places..... 162  
The juvenile court was extra heavy this month, burglary and theft being among the serious offences.

Thanks were extended to Mrs. F. D. Beveridge for the entertainment given by her to the children at her country home. Mrs. Beveridge is well known in philanthropic work and especially in work affecting children.

MANY DEFECTIVE CHILDREN IN THE PROVINCE

When Dr. Scott was on his late tour of inspection over the province he made a special lookout for defective children in the various schools. Dr. Scott was much in no doubt in founding a school in the Montessori method for defective, but on his return stated that he had found only four. In con-

tradition to this statement comes the report of the month from the Children's Aid which says that besides the four defective children being cared for in the Shelter, there is one defective girl in a private home under the supervision of the society, which also has knowledge of 100 defectives throughout the province. It states also that representation is being made to the government for an institution for these little ones.

The report contains figures for the month, the children being cared for being as follows:
