COURSE.

Paine's Celery Com- pound.

Cures and Gives You New Life When Everything Else Fails.

IT IS THE POPULAR MEDICINE IN THE HOMES OF THE WEALTHY AND THOSE IN HUMBLER CIRCUM- STANCES.

BEWARE OF SUBSTITUTES AND IMITATIONS.

Are you ailing, rundown, or suffering from some dangerous disease? If you are, allow us with candour and an honest interest in your welfare, to direct your attention to Paine's Celery Compound, the medicine that "makes sick people well."

The wonderful record of cures wrought for sick and diseased people in our Dominion is the best and strongest proof of the health-restoring virtues of Paine's Celery Compound. It has cured the most desperate and obstinate cases of disease even after sufferers were pronounced incurable.

The use of one bottle of Paine's Celery Compound will, in all cases banish the doubts of the unbeliever. The testing of one bottle will prove to all sufferers there are virtues in the wondrous medicine possessed by no other remedy—virtues that banish suffering and misery.

The immense popularity of Paine's Celery Compound has induced unscrupulous people to put up vile and worthless imitations of the great health-restorer. Dishonest dealers for the sake of large profits resort to substituting and recommending the "something just as good." At all times beware of imitations and substitutes. See that the name PAINE'S and the Stock of Celery appear on each bottle.

Read the strong testimony of Mr. G. W. Parks, of Inglesville, N. S., cured by Paine's Celery Compound after failures with other medicines:

"While at sea I was taken sick, which compelled me to abandon my work and seek home and rest. I consulted the doctors who pronounced it slow fever or typhoid. I suffered severely from night sweats, and from cold chills during the day. Added to this, I was extremely nervous, which weakened me and reduced my flesh until I was a mere skeleton. This continued until last winter, when my wife and friends began to despair of my recovery, as the medicines I took produced no good, and I was growing worse. Through the influence of Rev. C. M. Tyler, I was induced to give Paine's Celery Compound a trial. I can truly say it worked wonders. The first bottle gave me great relief, and five bottles completely cured me."

"Remember," said the good man, "that there are sermons in stones." "Not in those you run against with your bike," retorted the cynic, and the argument was necessarily at an end.

Deafness is curable! Sufferers from impaired hearing will be glad to know that their affliction is probably not due to any organic defect in the ear, but results probably from a thickening of the lining of the middle ear caused by catarrhal inflammation. Hundreds of perfect recoveries as a result of the inhalation of Catarrhazone are reported, and on the highest authority we recommend this treatment to our readers. Catarrhazone quickly restores lost hearing, and its efficacy is placed beyond dispute by the case of Mr. Foxall, of St. Thomas, who recovered perfect hearing by using Catarrhazone, after years of deafness. Price \$1. At druggists or by mail from Polca & Co., Kingston, Ont.

Sold by J. E. Richards.

Crimsonbeak—There's a man who has done some good work on the links. Yeast—He doesn't look like a golf player. "He's not. He manufactures sausages."

Children Cry for CASTORIA

"And when I proposed to her she turned all the colors of the rainbow at once." "How can you make such a ridiculous assertion?" "All the colors at once, if you have not forgotten your high school lessons, you ought to know make white."

An impossible thing to find is a plaster equal to the D. & L. Menthol, which is being imitated. Get the genuine. For side aches, backaches, stitches, nothing equals it. Made by Davis & Lawrence Co., Ltd.

Parson—I hope you little boys respect your father and obey your mother? Boy—Rather! She can lick father, the can.

CASTORIA For Infants and Children.

Small illustration of a baby and a bottle of Castoria.

ORDERED TO SOUTH AFRICA

Halifax and Bermuda Are Both Drawn Upon This Time.

Capt. Duffus of Halifax Will Command These Five Hundred Especially Selected Artillerymen—Boers Were Successful in Getting Away With Two British Guns at Brakenlaagte—A Canadian Drowned in the Tugela River.

Halifax, Nov. 5.—Orders were received from the War Office yesterday to despatch to South Africa five hundred especially selected Royal Artillerymen serving in this garrison, without delay. Capt. Duffus, a Haligonian, will command.

An officer, who interviewed by your correspondent, said: "We will take with us six of the latest and most improved type of Maxims, and, of course, we will be well equipped with other arms."

Capt. Duffus will be in command. A number of artillerymen will arrive here Wednesday from Bermuda on the steamer Beta. The men to be taken from Halifax will also be selected.

The recent reverses in South Africa, together with the little trouble at the War Office relative to the dismissal of Buller and other matters, are not looked upon in too favorable a light. The recent reverses attending British arms in Africa has been the means of intensifying the feeling against the War Office, and the Imperial authorities will take prompt means to bring the war with the Boers to a speedy termination as possible."

Boers Took the Guns. Pretoria, Nov. 4.—It is now known that the Boers got away with the two guns captured from Col. Benson's column in the recent engagement near Brakenlaagte, Eastern Transvaal.

Buller's Hellogram. London, Nov. 5.—The Daily Express, on the authority of Dr. Miller Maguire, a famous military expert, gives what it alleges to be the authentic version of the hellogram sent by General Buller to General White during the siege of Ladysmith:

"I have failed. Unable to try again without siege operations, taking a month. Can you hold out so long? If not, I suggest your firing away as much ammunition as possible, and finally making the best terms. If you have anything alternative to suggest, I can remain where I am long as you like."

Further despatches were exchanged," says The Daily Express, and learning that Sir George White was to hold out, General Buller settled down to prepare to force the Tugela."

Dr. Maguire, through whose hands half of the officers of the British army have passed for duty, professes to have acquired the information without seeking for it some months ago.

Cape Town's Christmas Gifts. Cape Town, Nov. 5.—Cape Town is going to remember the guards in the blockhouse. The whole community is preparing Christmas comforts, and at the present time the movement promises well.

Some idea of the work before the committee in Cape Town will be gathered from the fact that it only one shilling be spent upon each soldier in the field, something like £12-500 will have to be raised during the next two months. Cape Town is going to do its best.

A committee of ladies have been at work for some time, and every week they forward thousands of pounds of necessities, in the shape of bars of soap, plugs of tobacco, packets of cigarettes, pins, needles, cotton, thread, buttons, tape, laces, towels, socks, shirts, and a score of other useful things that a soldier needs.

Netherlands Accept. London, Nov. 5.—At yesterday's session of the South African Compensation Commission, Major-General Sir John Ardagh, the representative of the Government, announced that the Netherlands had accepted Great Britain's terms for the settlement of the claims of Dutch subjects for damages as the result of their expulsion from South Africa.

Drowned in the Tugela. Ottawa, Nov. 5.—The following cable has been received at the Militia Department: Please inform Emily Howell of 111 Jerome avenue, Westmount, Montreal, that Trooper Charles Howell, Imperial Light Horse, was accidentally drowned in the Tugela River on Oct. 17. (Signed) Casualty Department, Cape Town.

EVEN ANXIETY FOR FUTURE. Sir Michael Hicks-Beach Makes an Important Announcement at Bristol.

London, Nov. 5.—What is regarded as an important announcement, preparing the people of Great Britain for new taxes and fresh loans, was made last night by the Chancellor of the Exchequer, Sir Michael Hicks-Beach, in a speech at Bristol.

After alluding to the "enormous increase in the ordinary expenditures" of the Government, he reviewed the war taxes, and said that the ever-increasing demand of the National Exchequer gave reasons for careful thought, and even anxiety for the future.

"The cost of the war in South Africa is enormous," said Sir Michael. "It still drags on. It may be, when next year comes, that I may have to ask the people of this country to bear even greater burdens and to make even greater sacrifices."

Sir Michael Hicks-Beach announced that the Government was communicating with the authorities in South Africa with a view to a change of the situation of the concentration camps, and to an amelioration of their conditions.

Real Danger Ahead. London, Nov. 5.—John Morley, M.

P., speaking yesterday at Forfar, Scotland, asserted that the ordinary annual expenditure of the British Government had increased £28,000,000 during the last ten years, or, including the suspension of the sinking fund, £32,000,000. He declared that there was a real danger ahead of the country.

CURES BY CHRISTIAN SCIENCE.

Scores of Witnesses Testified There in Lewis Manslaughter Case.

Toronto, Nov. 5.—The trial of James H. Lewis, the street railway conductor, and Christian Scientist, charged with the manslaughter of his six-year-old boy Roy, occupied the whole of yesterday in the Criminal Assizes, and will be continued this morning with the address of counsel and Chief Justice Falconbridge's charge to the jury.

About a score of witnesses were examined yesterday on behalf of the defence, all of whom said they had undergone Christian Science treatment and had been cured. The accused testified of his own cure of catarrh and la grippe, and W. W. Vickers, his counsel, explained at some length the new faith. The case is full of interest to those who profess the Christian Science faith, and who are present in large numbers.

Chief Justice Falconbridge, at the opening of the court yesterday morning, announced that he had decided that it was impossible to have a case without a statement that the prisoner would not apparently admit. An English tribunal, whose judgment he was bound to follow, had held that medicine was a necessary of life. The trial must go on, he said, until the jury had determined on the innocence or guilt of the prisoner Lewis.

Mr. Vickers secured special permission from the court and reviewed the line of defence to the jury. The text of his address was that Christian Science was a system of religion that combines a system of healing.

Mr. Guthrie, the Crown prosecutor formally objected to the admission of evidence relating to the Christian Science faith. His Lordship overruled the objection, and the prisoner was called as the first witness for the defence.

Lewis claimed that he had been personally cured of a chronic catarrh and la grippe by Christian Science treatment. His son Roy had been previously cured once before when he was very weak with a contagious disease by a demonstrator. He believed Christian Science rendered adisease not "maliciously dangerous."

Australia and the Navy. Sydney, Nov. 5.—Mr. Wise, the Attorney-General, after addressing a gathering of yachtsmen yesterday, said the New South Wales Government had repeatedly informed the Admiralty that the colony was able to provide 10,000 skilled seamen for service anywhere. This information he added, was ignored, for some reason best known to the officials. Mr. Wise suggested that the three warships which were lying in reserve at Sydney should be manned by skeleton crews, the complements being filled by volunteers for training purposes. The suggestion is much commented on by the press, and is generally approved.

His Spine Broken. Underwood, Ont., Nov. 5.—Late Saturday night while coming home from Paisley, Robert Foster, a farmer living on the seventh concession of Bruce had an runaway in which he received injuries which terminated fatally. While coming down a small hill the team became unmanageable, and by some means the tongue dropped out of the neckyoke, catching in the road, tilting the wagon up and throwing Foster out some distance. He was found some time later, and Dr. Hilker of Underwood found on examination that his spine was broken. He died Sunday morning. Deceased was unmarried.

Manslaughter Charged. Toronto, Nov. 5.—Acting under instructions from Crown Attorney Curry, Detective Blaine yesterday swore to information charging Superintendent James Gunn of the Toronto Railway Company and Motorman Herbert C. Bauer, 102 Birch avenue, with manslaughter in connection with the death of James Cornelius Duggan, the tailor, who was run over by a street-bound car at Church and Gould streets on Saturday night, Oct. 19, and died in St. Michael's Hospital on Oct. 23.

The King's New Title. London, Nov. 5.—King Edward, at a meeting of the Privy Council yesterday, signed the proclamation giving him his new title, as follows: "Edward the Seventh, by the Grace of God, of the United Kingdom of Great Britain and Ireland and of the British Dominions Beyond the Sea, King, Defender of the Faith and Emperor of India."

Thirteen Lancers Killed. Simla, Nov. 4.—A detachment of the 2nd Bengal Lancers, who were escorting a surveying party, were attacked yesterday by Mahsuds and thirteen of the Lancers killed. Some of the Mahsuds were captured.

Suicide by Shooting. Moose Jaw, N.W.T., Nov. 5.—Peter Law, a man about 25 years of age, committed suicide yesterday morning by shooting himself in the mouth. No reason can be given for the man's rash act.

Choked to Death. Montreal, Nov. 5.—Thomas Murray, a laborer, was choked to death by a piece of beef while taking dinner yesterday at his home, 38 Dominion avenue.

Shortly. London, Nov. 5.—It is announced that the Duke of Cornwall and York will shortly receive the title of Prince of Wales.

JOHN OF CROWSTADT.

This Famous Russian Priest Reported to Have Performed a Miracle.

St. Petersburg, Nov. 5.—The famous Russian priest, John of Crowstadt, is reported to have just performed a miracle.

A woman unable to move her limbs was carried to him. He fastened his eyes on her and bade her make the sign of the cross. After much effort she did so. He then ordered her to rise. This she did, but evidently in great pain.

After a few minutes the pain departed, it is averred, and at Father John's request she walked around him, supported by her friends, and on being told to go to pray and make the sign of the cross she moved without assistance.

According to the Russian newspapers—which give the name of the woman and the place where the alleged miracle occurred—thousands of persons witnessed all this, and all the woman's relatives and friends have sworn that to their knowledge the woman had been a helpless cripple for years.

Norwegian Steamer Aground. Halifax, N.S., Nov. 5.—The Norwegian steamer Kong Haakon struck on the rocks of Isle Madame, near Arichat, C.B., Sunday night, in a thick fog and remains there hard and fast. She will probably prove a total loss, as a storm is approaching. The steamer was laden with seals and was on her way from Cape Tormentine to Cardiff. The crew, after the steamer stranded, made every effort to get her off, but without success, and at daybreak yesterday the decks were under water. The Kong Haakon is owned in Norway, is of 1,478 tons and was formerly the British steamer Earnside. She carried no passengers.

Wreck on L. E. and D. R. Leamington, Ont., Nov. 5.—About 6 o'clock last evening a freight train on the L. E. and D.R.R. was pulling into the switch to let the eastbound express pass, and two tenders which were attached to the rear end, broke loose and remained on the main track, and came into collision with the express. The engineer and fireman on the eastbound train both jumped and their escape from instant death was miraculous, as the baggage car and tender plunged into the cab of the engine. Traffic was delayed several hours, but no person was injured in the wreck.

Fatal Railway Wreck. Wilmington, Del., Nov. 5.—A south-bound train on the Philadelphia, Wilmington and Baltimore Railroad, ran into a wreck train at Claymont, Del., six miles north of this city yesterday afternoon. James Middleton, of Philadelphia, fireman of the locomotive of the freight train, was instantly killed, and an Engineer and a Conductor were killed. Traffic was delayed several hours, but no person was injured in the wreck.

Raw, Flaming Eczema, Salt Rheum and Scald Head. The Dreadful Itching and Burning Promptly Relieved by the Disease Thoroughly Cured by Dr. Chase's Ointment.

Mrs. A. McKnight, Kirkwall, Wellington County, Ont., writes: "I feel it my duty to let you know what Dr. Chase's Ointment has done in a very bad case of eczema on our baby. We had tried any number of cures without any permanent relief, but from the hour we commenced using Dr. Chase's Ointment there was great relief, and the improvement continued, until there was complete cure. We think it the greatest of family Ointments."

Mrs. R. Stoddard, Delhi, Ont., writes: "I was troubled with psoriasis or chronic eczema for twelve years; used many remedies during that time, but got no relief. Doctored with four or five doctors, but found no cure. I decided to try a box of Dr. Chase's Ointment, and before using half of the box found great relief. I have used about three boxes, and am now completely cured, and have recommended it to many others. It is the best I have ever used, and it is worth its weight in gold."

There is nothing to be compared with Dr. Chase's Ointment as a cure for the most obstinate and torturing skin disease. Its cures are often truly marvellous. Write for a box, at all dealers, or Edmanson, Bates & Co., Toronto.
