### COOD-NATURED CRUMBLERS.

Lewis Clark writes: "In your issue of Saturday last I saw a paragraph giving the price of water by metre. If the statement there made is corpect, I consider the water commissioners are charging householders too much for water. If they can afford to sell water at 15 cents per 1,000 gallons, can they explain why I have to pay \$1 15 per quarter and I only use about 400 gallons in that time? At that rate they must be making money; then what do they mean by asking the Council for \$30,000 more money? If you or the commissioners can explain this it will much oblige."

The reports on memorials and publications were dealt with, and it was decided that a missionary catechism be prepared for juvenile bands.

Mr. Whiston, of Halifax, asked permission to move the following resolution: Whereas alcoholic liquors in large quantities are being exported into heathen countries by professedly Christian nations, thus subverting missionary effort and plunging the natives of uncivilized countries into a state of degradation unknown before they came in contact with commerce and civilization; therefore, resolved, that we hereby acknowledge the sisterly greetings of the Ontario Woman's Christian Temperance Union, that we express our sympathy with them and assure our sisters of our hearty co-operation in their noble efforts to bring about the total prohibition of the liquor traffic. And further resolved, that this resolution be placed on our records, and appear in the press notices of this meeting."

Mrs. Young, of Markham, seconded the motion in a few stirring remarks, and on a standing vote the resolution was adopted.
