Total.....\$14,970,000 That is pretty good for a beginning!

Anxiety In Britain.

There is varied and reliable testimony that the people in the old land are having an anxious time. Dr. Guinness Rogers says: "Mr. Carnegie has recently said that a healthy optimism is the normal condition of the plucky Briton. A careful student of the press during the last few weeks may, however, reasonably doubt whether, if this be true, there has not been a very serious, not to say alarming, fall by the nation from its high he administrators of the law in a ountry less determined that justice estate." Edmund Robertson, K. C., hall prevail would have given up M. P., while disclaiming all party purhe task, because of its expense, long | pose, tells us that all must admit the efore the half of the large sum nam- grave national dangers of the present state of affairs and the desirability of ound refuge in the excuse that "it some change-of any change. "The as not worth the while." Not so, the severest criticism of the apparent apathy and inaction of the government came from their own men, and the official answers have not been reassuring." According to Sir Michael Hicks-Beach, during the month of October a series of equinoctial gales have blown heavily against the government. Mr. Wemyss Reid, in his review of the month (Nineteenth Century and After) adds to this: "More than once since I began to pen this chronicle I have had to mention squalls, and even storms of adverse public opinion, of Senator Dickey celebrated his nine which Lord Salisbury and his colleagues have been the victims. Not since the days of the Crimean war has there been anything that could be com-

pared with it." In England, where the people are closely packed together, this kind of Switchmen on Strike-Outsiders Brought in feeling can be felt much more intensely than among a widely scattered population like our own. The feeling has evidently made an impression upon men of all parties. It is a significant thing that a government with one of the largest majorities in modern times should inspire this feeling. The state of the opposition makes matters worse. The nation is baffled and tormented. The whole miserable business of the war has got upon the nerves of the people. They feel that they have been led into something they did not look nder 90, three (Senators Clemow, Gowan for, and that seems to have no end. It is difficult to deal with general uneasiness of this kind, but it must be recognized and carefully considered.

> whether or not a marriage by telephone is binding. Considering the time that most people out there are contented to stay married, the question of the method should not lie heavily on their consciences. Telephonic marriage, according to average over-the-border ideas of what surely ought to be a serious, well-considered, lasting mutual pledge, snhould be just as serviceable as any.

Evidences of Prosperity.

In the commercial circles of Canada there are unmistakable evidences of prosperity. Within the past year the circulation in our Canadian Banks has increased \$5,600,000, and public deposits have risen nearly \$40,000,000. The amount of our foreign trade for the fiscal year ending June 30, 1901, was \$377,725,600, or an increase of \$5,-000,000 over the previous year. The total increase over 1896 was \$146,000,000 which means that in the short space up a scheme which does not displease of five years, during which time the somebody is beyond the power of man.—Chicago Tribune. been enhanced 63 per cent. Such stahe much-talked-of reciprocal trade re- tistics are more significant when it is considered that during the last seven years our aggregate exports have exceeded our imports. It means that Canada is becoming more self-sustaintions: it means greater employment, which must be met by an increasing population. Still, taking the whole Dominion into consideration, labor is scarce and wages are relatively higher than before. Mercantile failures are

FIERCE BLAZE IN A THEATER

Whitney's Opera House Put Out of Business Temporarily.

Loss Estimated at \$10,000-Manager Altman Had to Crawl Out on Hands and Knees--Miss Ida Glenn's Experience.

Detroit, Nov. 22 .- Fire broke out in the basement of the Whitney Opera House on Griswold street, Michigan avenue and State street, at 11 o'clock yesterday morning. Three fire alarms were sent out one after another, and within a few minutes thousands of people crowded around. The occupants of the office part of the building were panic-stricken, and the elevators were overloaded with clerks and lawyers, who poured into the street in a steady stream of humanity. HOW IT STARTED.

The fire caught in the boiler room from a gas jet and a piece of paper, so Manager Charles A. Altman, of the theater, says. Frank Smith, assistant property man, who was upstairs in the theater, noticed the smoke first An alarm was immediately turned in. Manager Altman dashed into the boiler room directed to throw water on, go a hose, and was on the theater floor in a few seconds more, trying to tear up a carpet, and get at the fire In the meantime smoke poured into the theater to such an extent behind him that before he knew it he was in a cave of Egyptian darkness, and had to crawl on his hands and knees to the

Miss Ida Glenn, the heroine of Waicompany, Sleeps," had just gone on the stage to get her mail when the fire broke out. She noticed the smoke, but thought to heat the theater. When someone cried "Fire" she didn't faint. She is used to fires. In the play every night she saves herself from a London fire by walking with her baby across a London street on a telephone wire. She is a pretty, blonde woman, vivacious

"I just made a dash for my dressing room," she said, "and threw my things into the trunk, helter-skelter. They must be in awful shape by this time-" with a moue. "I dragged the trunk across the stage and out the stage entrance, and some boys helped me with it into Macdonald's store. went back and packed Miss Ash-braugh's things and dragged her trunk -it's an awful big one stage, too, and out into the alley. The now get home to their wives and fami- smoke was so thick by that time that

FLOODED WITH WATER. The fire department soon had about seven or eight lines of hose pouring water into the boiler-room, where the fire raged. It started in the ceiling of the boiler-room and got between boiler-room ceiling and the floor of the An Inquiry .- Uncle Hiram-I see the theater above. The blaze as a conse-

The theater floor was flooded with water, which poured out of the Griswold street entrance like a river. Water was flooded into the boilerroom three feet deep, but the fire raged between the floors and poured dense volumes of black smoke into the theater for fully half an hour. The theater may have to be redecorated on account of smoke damage. Theatrical managers think the theater can be placed in running order again

in two weeks' time. A month at the very utmost will be all that will be re-THE LOSERS.

Manager W. McGowen, of the "When London Sleeps" Company, reports no loss, except from smoke, to the company's scenery. Miss Ashbraugh, who does the

pared on the stage in what seemed to be a hysterical condition. She had been told that the theater had burned to the ground, and was overjoyed when she found that none of her effects were lost. Miss Glenn described her wrestle with the trunks. The theater men talked of the Kate Claxton fire in

Brooklyn, the Union Square fire in New York, and altogether it was quite a little drama in itself. The total loss, it is believed, cannot exceed \$10,000; insured for \$32,000. THE WHITNEY OPERA HOUSE

LOSSES. make the loss by the Whitney Opera House fire about \$13,000. The loss to Stephen Baldwin, the owner of the building, is estimated at \$12,000; the Whitney Opera House Company fixes its damage at between \$2,000 and \$3,000, and W. McGowen, business manager for James H. Wallack's attraction, "When London Sleeps," says that their

TRAGEDY AT NIAGARA FALLS

Young Man Accidentally Killed by past five months. Fellow-Student.

Hunter's Heart Torn Out-Cab Struck by Train-Marvelous Escape of Inmates.

A HUNTER'S HEART TORN OUT. Marshall, Mich., Nov. 21.-Willie Moore, aged 12, of Fredonia, was out with a hunting party, and while crossing a ditch on a log stumbled and fell. As he scrambled out he pulled the gun after him. The weapon was discharged, the contents striking him in the Detroit, Nov. 22.-Revised estimates breast and literally tearing his heart

> MANGLED TO DEATH. Middletown, N. Y., Nov. 21.-The badly mangled body of Alfred L. Clark, 70 years old, was found yesterday underneath the depot platform at Powells, three miles from this city. It is supposed Clark was killed by Erie train while crossing the tracks last night, and the body hurled over 50 feet, where it was found. Mr. Clark, who was at one time a prominent educational worker, possessed considerable property.

CHARLES TIFFANY INJURED. New York, Nov. 21 .- Charles L. Tiffany, president of Tiffany & Co., jewelers, has just met with a serious ac-cident at his country house at Irvington. Mr. Tiffany had placed a log of wood on the fire, and was stepping back from the fireplace, when he caught his foot, and was thrown heavily to the floor, striking on his side and severely injuring his hip. It is possible that he may never completely recover the use of his limbs.

MARVELOUS ESCAPE. Ottawa, Nov. 21.—A marvelous escape from instant death was experienced yesterday at the Chaudiere by five men, Peter Cantin, the driver of a cab, and four passengers. The cab was crossing the C. P. R. track on Broad street, when a freight train backed down and smashed it into kindling wood. Canton and three passengers were tossed on to a lumber pile, and Frank Charleson, the fourth passenger, was pinned in the wrecked cab. He was released and found alive, but much cut and injured. Cantin was hurt in the back, but the others escaped with slight bruises and cuts SHOT AND KILLED.

Niagara Falls, N. Y., Nov. 22 .- Jos. O'Shea, 21 years old, a student at Ni-agara University, was accidentally shot and killed by another student near the college grounds yesterday. A party of students were shooting at birds with a rifle, when O'Shea stepped in front of the rifle just as it was discharged. The rifle was in the hands of John Carraha, 26 years old. The is the purest and safest remedy for two men were bosom friends. They stomach troubles. came here about a month ago from Ireland to complete their studies for the ministry. THE OLD WAY

Of Treating Stomach Trouble and In digestion a Barbarous and Useless One.

We say the old way, but really it is the common and usual one at present time, and many dyspeptics, and physicians as well, consider the first step in attempting to cure indigestion is to diet, either by selecting certain food and rejecting others or to greatly diminish the quantity of food usually taken.

In other words, the starvation plan is by many supposed to be the first essential in the cure of weak digestion. The almost certain failure of the starvation cure for stomach trouble has been proven time and again, but still the usual advice, when dyspepsia makes its appearance, is a course of dieting.

All this is radically wrong. It is foolish and unscientific to recommend dieting or starvation to a person suffering from dyspepsia because indigestion itself starves every organ and every fibre in the body. What is needed is abundant nutrition, not less, and this means plenty

of wholesome, well-cooked food and

some natural digestive to assist the weak stomach to digest it.

This is exactly the purpose for which Stuart's Dyspepsia Tablets are adapted, and this is the way they cure the worst cases of stomach trouble. The patient eats plenty of whole-

some food, and Stuart's Dyspepsia Tablets digest it for him. And this is in accordance with na ture and common sense, because in this way the whole system is nourished and the overworked stomach rested, because the tablets will digest the food, whether the stomach works One of Stuart's Dyspepsia or not. Tablets will digest 1,800 grains meat, eggs and similar food.
