WOODS' FAIR.

DEATH FROM ASSAULT

The Doctors Say It Caused Death of A
Wm. Hayden.

Collingwood, June 9.—The death of William Hayden, bicycle manufacturer, of this town, who died at the hospital Sunday morning, is said to be due to a brutal assault. The doctor in attendance claims that death was caused by broken ribs pressing against his heart, and that this was caused by an injury or assault. The police are making an investigation.

Lactated Food. IS BABY'S BEST FRIEND.

In the Hot Weather It Saves
Babies' Lives.

Lactated Food is a perfect substitute for healthy breast milk; it is the only safe and life-giving food for little ones in summer. Lactated Food is cooked scientifically and partially predigested; it contains no cane sugar, therefore cannot produce irritation of the stomach or bowels. Lactated Food is a concentrated form of nourishment, tolerated by the weakest child. Give it to your baby in health and happiness and prevents diarrhea, dysentery and cholera infantum. Lactated Food is baby's best friend. Try a tin at once, dear mother, if your child is not thriving. Druggists everywhere.

Clothes sometimes make a man fight shy of his tailor.

IMPURETIES IN THE BLOOD.—When the action of the kidneys becomes impaired, impurities in the blood are almost sure to follow, and general derangement of the system ensues. Farnes's Vegetable Pills will regulate the kidneys, so that they will maintain healthy action and prevent the complications which certainly come when the drainage of these delicate organs. As a restorative these Pills are in the first rank.

Theoretical stage employes have 60 local unions and more than 4,000 members.

Needs it in business, in the study, in the household, irritability, weakness, lack of strength—the blue feeling—why they just tell you that you lack nerve. Yet use Farnes's? My! What an appetite you'll get. How quickly the color will return to your cheeks, how buoyant you will feel! Work of course you'll work for you will enjoy it. That is, if you will use Farnes's. It gives nerve strength, muscular endurance and invigorates the brain splendidly. Sold by all druggists and medicine dealers.

The renovated White House at Washington has over 32 miles of wire.

PAIN IS A PUNISHMENT.—Pain is a protest of nature against neglect of the bodily health, against carelessness regarding the physical condition. It steals in at the first opportunity and takes up its abode in a man, and it is sometimes difficult to eject it. Dr. Thomas' Electric Oil will drive it out in short order. Pain cannot stay where it is used, but immediately flees away.

Western Man-Hunt.

Glasgow, Mont., June 9.—Jack Williams, a deputy sheriff and prison guard, shot by George Pierce, one of four escaped prisoners Saturday night is dead. A posse has not found any of the men. All available men in the vicinity have been organized for a hunt for the men.

Tired when you go to bed, tired when you get up, tired all the time. Why? Your blood is impure. Take Ayer's Sarsaparilla and be quickly cured. If the bowels are constipated, take Ayer's Pills.

ASLEEP FIVE MONTHS

Strange Physical Phenomena Possesses Greek Girl.

Paris, June 9.—Marie Dasakali, a 17-year-old Greek girl, who has slept for five months, despite all the efforts of doctors to arouse her, is to be brought to Paris from Athens for treatment. She awoke every five or six days for a few seconds, and then relapsed into lethargy. She eats hardly anything, sleeps with her eyes open, and hears nothing.

MONSTER CUNARDERS

Contracts for Building Two Magnificent Liners.

New York, June 9.—The Sun has the following from London: A dispatch from Glasgow to the Glasgow Telegraph Company says contracts for the construction of the two new monster Cunard liners, which are to be subsidized by the Government, have been placed, one with a Clydebank and another with a Newcastle firm. The original design for these boats has been changed. The beam has been increased, and the displacement at 35,000 tons. The horsepower is placed at 70,000, which, it is estimated, will give a speed of 16 knots an hour. The original estimated speed for these boats was 25 knots an hour.

COAL UNDER WATER

British Naval Experiments Have Been Successful.

London, June 9.—The coal bill of the Royal Navy is £2,000,000 a year. Experiments are now being made with coal which has been immersed in water. The results show that it has higher evaporative qualities and longer life than coal fresh from the pits.

HOUSEHOLD PACKAGES DYES.

The latest and most improved dye in the world. Have no equal for strength, simplicity, penetration or fastness. In thirty minutes they make suits, dresses, blouses, ribbons, etc., like new. All colors, at Cairncross & Lawrence's, 216 Dundas street; H. J. Childs, 632 Dundas street; T. H. James, Wortley Road.

Within three and one-half years \$2 trusts have been formed, having an aggregate capital of \$4,318,000,648.

GREAT MEDICINE.—Toni, one of the pioneers of French Canada, lost a hand and wore an iron hook as substitute. He was in the habit of boxing the ears of refractory Indians with his iron hand, and they have remarked that it was "great medicine." Dr. Thomas' Electric Oil is great medicine. It takes hold of the system. The devotees of erotic literature are not gratified so much by the lines of type as by the flushed play of their faces between the lines.

Mr. Gibson said the Government was not to be held responsible for the way these companies carried on business. When the present act was framed, the Government had made it as efficient as possible. These societies were meant to encourage thrift, but doubtless some of them had been allowed to degenerate. He laid much of the blame upon the misapprehension that they were depositing money in a savings bank when in reality they were becoming shareholders under a complicated agreement.

Mr. Downey's motion was carried.

Mr. Harcourt introduced his bill to set aside certain wild lands belonging to the crown for the benefit of Toronto University and for other purposes.

On motion of Mr. Conmee Mr. Cameron's bill respecting the town of Itat Portage referred back to committee, and an arbitration proviso inserted.

Mr. Conmee's bill respecting the town of Port Arthur was reported.

Minor amendments were made to Mr. Gibson's bill respecting local works and improvements.

The following bills were given third readings:

To amend the loan corporations act—Mr. Gibson.

To amend the Ontario insurance act—Mr. Gibson.

Respecting the town of Saint Ste. Marie—Mr. Conmee.

Respecting the Lambton Central Electric Railway—Mr. Pettipiece.

Respecting the Petrolia Rapid Railway—Mr. Harcourt.

Respecting the Midland Terminal Railway Company—Mr. Tudhope.

Before the House adjourned the Premier rose to make a statement.

He said that the business of the session this week, but the public accounts committee would possibly delay the closing of the House.

He suggested that the House might adjourn on Tuesday the advisability of sitting in the morning.

Mr. Whitney replied that he was strongly convinced that morning sittings were not necessary. He thought that the House might get through this week if there was a session on Saturday.

The position the Government would take on the commissioners' report, would, however, largely determine that. Mr. Whitney also asked the Government to agree to print the evidence taken at the investigation.

The Premier said that it would cost considerable to print it, and the Government had not decided whether they were warranted in going to such expense.

Mr. St. John said that the people, the ultimate tribunal, wanted the evidence, and it should certainly be printed.

Mr. Gibson remarked that probably the report would never be looked at by the public, thus sharing the fate of the reports of the temperance commission, the assessment commission, and others.

The House adjourned at 5:20.

MAY PRODUCE THIS WEEK.

Mr. Macdormid has given notice that he will inquire on Wednesday: 1. Is any member of the family of Sir John A. Macdonald in the employment of the Province of Ontario, and in the receipt of moneys directly or indirectly from the funds of the province? 2. If so, what the names of the members of the family of the said Sir John A. Macdonald are? 3. What is the appointment of each? 4. What is the salary of each? 5. What sums of money have been received by John A. Macdonald, K. C., M. G., or been paid to him by or through the province in respect of services rendered by him to the province, as arbitrator, referee, commissioner, or otherwise, in any matter, since the first day of January, 1897?

Mr. St. John will inquire: Did the royal commission appointed to audit the accounts of the treasury of the Province of Ontario, examine and audit the books of the crown lands department? If not, why not?

Mr. St. John will also ask if Amelius Irving, K. C., made a report to the Government on the investigation of connection with the North Grey election, and, if so, what the result was, and the fact Mr. Irving received?

Mr. Lucas will ask on Wednesday if the ballots, papers, etc., in connection with the North Grey election have been burned yet.

Another motion by Mr. St. John is for return, showing the total area of crown lands under timber license; the names of those in arrears for license; the number of sales made of burned limits since 1891, and value; the date of the transfer of the Capreol limit to Chevr brothers, and the amount received from it; the number of logs cut in the province since 1891.

ECZEMA, NO CURE, NO PAY.

Your druggist will refund your money if PAZO OINTMENT fails to cure Ringworm, Itch, Old Sores, Pimples and Blackheads on the face, and all skin diseases, 50 cents. If you do not have it in stock send 50 cents in stamps to the Paris Medicine Co., St. Louis, Mo., and receive a box of Pazo Ointment and the celebrated Cold Cure.

A legion of small debts abroad and a legion of petty complaints at home—these two cause a man to grope toward self-destruction as a poisoned rat to water.

When Spring comes round, drink

Hires Rootbeer to give you vigor.

A package makes five gallons. W. P. F. Hires, Sole Agent, 25 St. Peter St., Montreal, Canada.

EARLY WIND-UP OF LEGISLATURE

But Little Business Left To Be Considered.

RAILWAYS AND ESTIMATES

The Principal Items—Loan Company Legislation—Gamey Report May Have Short Debate.

[Special to The Advertiser.]

Toronto, June 8.—The wind-up of the Legislature is in sight, judging from utterances dropped by the party leaders on the floor today. Saturday next was mentioned as a possible day for prorogation, but it is likely that this is an over-optimistic view which will scarcely be realized. The middle of the month, however, will probably witness the closing of the session. The only matters of importance awaiting discussion are the railway resolutions, the supplementary estimates and the report of the Gamey commission.

Before the orders of the day were reached Colonel Matheson said that a very serious charge was being investigated by the public accounts committee. The disclosures made as a result of the investigation prompted him to ask the House to pass the following resolution: "That the grant of timber limits on islands in the Georgian Bay to Messrs. Cane Bros. and the grant of timber limits in the Township of Capreol to Messrs. Chew Bros. and all matters in any way connected with the said limits and the consideration given therefore be referred to the committee on public accounts for investigation, and that Messrs. Thomas Chew, George Chew, John Chew and Edwin Leatherby or Edward Leatherby, of Midland, be summoned to appear before the committee on Wednesday next, at 10 a.m., with all books and papers relating to the said limits, including the books of the former firm of Chew Bros. relating to the limits in the Township of Capreol."

The Attorney-General opposed the passage of the resolution. The Cane matter, he said, had already been before the House. It had its genesis in the Government's desire to preserve the islands of the Georgian Bay in their wooded condition. Mr. Gibson did not think that an inquiry should be held at this late date. If one were held he did not suppose that an inquiry could be satisfactorily conducted under two or three weeks at the rate of progress the public accounts committee was making.

The Premier did not think it was in order to project an inquiry such as Col. Matheson proposed.

"Then you propose that there shall not be an inquiry?" Col. Matheson asked.

"If there is an inquiry I propose it shall be done in a regular and proper way. The honorable gentleman has no right to spring such a surprise without a moment's notice," answered Mr. Ross.

Colonel Matheson.—We did not know until Friday that we wanted these witnesses.

Mr. Ross.—The honorable gentleman is clear in his mind. He is contented to see the Province's business was concluded. The proposed investigation should be gone on with without opposition.

The Premier answered that he was prepared to stay in session for a week or a month longer, if he consented to Col. Matheson's motion being made today.

THE WHARF ACCIDENT.

The matter being thus disposed of, Mr. Crawford drew the attention of the Government to Saturday's occurrence at Lorne Park, when a wharf gave way and precipitated many women and children into the water, with the result that three were seriously injured, and others slightly injured. Mr. Crawford asked if there were no provisions for the inspection of wharves, so that such accidents might be averted.

The Premier answered that the inspection of wharves and docks was entirely within the province of the Dominion Government.

Some discussion took place in committee of the whole on Mr. Davis' bill respecting the town of Aurora. In the private bills committee the measure had been amended by providing for the payment of \$200 by the town of Aurora to the village of Markham, as solicitors' and other costs in proceedings taken by the latter against the former because of the removal of a shoe factory to Aurora on the granting of a bonus by the town.

In committee of the whole Mr. Davis moved that the \$200 be considered as satisfaction for the claims for damages which Markham might have against Aurora.

Mr. Richardson (East York) protested against this amendment, as depriving Markham of its right to seek reimbursement for the cost of the proceedings in connection with the removal of the shoe factory. He moved in amendment that the sum of \$1,000 be paid by Aurora in settlement of all claims for damages.

Mr. Whitney said that his sympathies were with Markham, but the village was asking the Legislature to do at a late date what it should have secured earlier by different means. Mr. Richardson's amendment was lost on division and Mr. Davis' amendment was carried.

THE TORONTO BILL.

Toronto's bill passed the committee stage. Mr. Crawford explained that the clause relating to the agreement between the city and the gas company had been thrown out and he wanted it reinstated. The clause in question stipulated that the construction and repair fund of the company should not exceed a certain sum, and if it did the excess should be applied toward the reduction of gas.

Mr. Crawford, on the Attorney-General's suggestion, did not press for the reconsideration of the clause on the understanding that he would be given that opportunity when the bill came up for its third reading.

Mr. Downey again brought the subject of loan companies before the House by moving for an order for a return of all contracts or agreements issued by loan companies doing business in the Province under which weekly or monthly collections are made on shares or as deposits.

Mr. Gibson requested Mr. Downey to include forms of application and forms of stock certificates among the papers asked for in his motion.

Mr. Downey, in speaking to his motion, stated that if the time had not passed for the introduction of private bills he would have introduced a measure compelling loan and building com-

panies to state more definitely what was understood by the designation "terminal share." At present the term did not convey the proper idea. People were induced to pay in their money, and when the stress of circumstances their payments ceased, they lost all they had deposited. In such cases, concluded Mr. Downey, they should get back at least a portion of their money. The transaction in many cases was founded on false business principles, and was intended to lure the unwary and ignorant. Agents of these companies did not go to business men and even working men, but to women, servant girls and children. Mr. Downey instanced one company which guaranteed depositors 20 per cent on investment, while loaning its money at only 6 per cent. The fact that one corporation had gained over \$72,000 in three years through forfeiture of savings showed the necessity for immediate action by the Attorney-General. Drastic remedies should be applied to the grievance.

Dr. Nesbit contended that one abuse in the running of these companies was the extortionate amount they charged for expenses, an amount far beyond their honest earning power.

Mr. Foy said that many of the clients of these companies did business under a misapprehension that they were depositing money in a savings bank when in reality they were becoming shareholders under a complicated agreement.

WERE FORWARDED A STAGE.

Mr. Harcourt introduced his bill to set aside certain wild lands belonging to the crown for the benefit of Toronto University and for other purposes.

On motion of Mr. Conmee Mr. Cameron's bill respecting the town of Itat Portage referred back to committee, and an arbitration proviso inserted.

Mr. Conmee's bill respecting the town of Port Arthur was reported.

Minor amendments were made to Mr. Gibson's bill respecting local works and improvements.

The following bills were given third readings:

To amend the loan corporations act—Mr. Gibson.

To amend the Ontario insurance act—Mr. Gibson.

Respecting the town of Saint Ste. Marie—Mr. Conmee.

Respecting the Lambton Central Electric Railway—Mr. Pettipiece.

Respecting the Petrolia Rapid Railway—Mr. Harcourt.

Respecting the Midland Terminal Railway Company—Mr. Tudhope.

Before the House adjourned the Premier rose to make a statement.

He said that the business of the session this week, but the public accounts committee would possibly delay the closing of the House.

He suggested that the House might adjourn on Tuesday the advisability of sitting in the morning.

Mr. Whitney replied that he was strongly convinced that morning sittings were not necessary. He thought that the House might get through this week if there was a session on Saturday.

The position the Government would take on the commissioners' report, would, however, largely determine that. Mr. Whitney also asked the Government to agree to print the evidence taken at the investigation.

The Premier said that it would cost considerable to print it, and the Government had not decided whether they were warranted in going to such expense.

Mr. St. John said that the people, the ultimate tribunal, wanted the evidence, and it should certainly be printed.

Mr. Gibson remarked that probably the report would never be looked at by the public, thus sharing the fate of the reports of the temperance commission, the assessment commission, and others.

The House adjourned at 5:20.

WEAK AND UNDEVELOPED ENLARGED AND STRENGTHENED

Vigorous, Natural Conditions established and sustained. Complete, Rapid Development of Normal Functions and Strengthening of the System. Perfected by experience; endorsed by highest medical authorities. Full account of its system, with references, mailed, on receipt of 10c. Write to: E. D. La Hooke, Buffalo, N.Y. We especially solicit inquiry from men who have been weakened by overwork, or by excessive indulgence in the pleasures of the table.

Address: E. D. LA HOOKE, CO., BUFFALO, N.Y.
