The prize was first offered in 1860, and every year since then it has been the fondest hope of Canada's horsemen to capture it. James White, of Milton, had the henor of winning the plate the first year, with Don Juan, and he Hamilton also won it three times in the next their supper regarding the prospective eight years, two of the victories being secured in successive years.

## Our Sovereign Brand Suits FOR PARTICULAR MEN.

#### Here's an Innovation

In Ready-to-Wear Clothing-our "concave" shoulder and close-fitting collar. In a large percentage of the ready-made clothing sold today, there's usually no padding at all, and when there is padding used to give the broad-shoulder effect, it is so poorly put in that it soon loses its shape, and the shoulder sags and gives the coat a worn-out look after a few weeks' wear.

## We Have Perfected

A "concave" shoulder which gives that broad, fashionable effect, and does away with the superfluous padding. THIS IS DONE in the modeling of the haircloth and canvas with a reasonable amount of wadding so worked and modeled by hand labor that it will retain its shape, and therefore make the shoulders and collar retain their new tailor-made appearance.
