One day after a terrible spree he said to us: It's no use. I can't stop drinking.' Our hearts seemed to turn to stone, and we decided to try the Tasteless Samaria Prescription, which we had read about in the papers. We gave him the remedy, entirely without his knowledge, in his tea, coffee, or food regularly, according to directions, and he never knew he was taking it. One package removed all his desire for liquor, and he says it is now distasteful to hir His health and appetite are also wonde, ally improved, and no one would know him for the same man. palace is by a longer route than the ing exhausted nerves, purifying one followed in coming to the abbey. It leads through Parliament street, Trafalgar square the Strand. Fleet street, and the Thames embankment. On the day following the king and queen will take an even longer drive through London thoroughfares, that the millions may have an opportunity to see and cheer, and it is for these processions that such great sums are being paid for seats and windows.

In no other respect does the change that has come over England with the

passing years appear than in this of the prices paid for a view of the newcrowned king. The first of the Edwards was to be seen by subjects for half a farthing, the figure asked for a seat from which to view his coronation This was doubled in the progress. day of Edward II., and had again risen to half a penny at the accession market for the march of Richard II., price has gone up steadily; two pence pence for that of Henry VIII., six pence for that of Good Queen Bess, and even a shilling for James I. To see the present king seats are selling freely for from \$5 to \$40, while windows seating four or five persons bring about \$300 west end, but this figure seems somewhat improbable, even for this day

of prosperity and patriotism. It is this sort of thing, however, which raises so greatly the total cost of King Edward's coronation. Where the government spends £200,000, the public spends, at a conservative estimate, six times as much. The one item of windows and seats is tremendous. Decorations and souvenirs foot up to a surprising figure. while the sums expended by those who are so fortunate as to have places in the Abby will be all but fabulous. A peer's robe, for instance, costs anywhere from \$1,000 to \$2,500, and the ed that it will reach 80 degrees. average price of a coronet is \$1,500. Then ermine is an expensive fur-and

A CORONET FOR \$250,000. What some of the more wealthy individuals will do may be seen from the fact that Mrs. Bradley-Martin, of New York, is having made for her daughter, the Countess of Craven, coronet which is to cost \$250,000. "It is in view of the expenditures of well-todo individuals," said the lord treasurer the other day, "that I say the cost of little below £1,600,000."

The heaviest of the expenses to be met by the royal treasury is not that of the King's robes, strangely enough, but of furnishing the Abbey and decorating the government buildings. For this it has been estimated that some \$556,000 will be needed. The banquet will cost about \$126,000; the robes of the monarch \$120,000; the medals, \$20,-000; the items to be met by the lord great chamberlain and earl marshal, \$12,500 each; publication, \$15,000; for the police, \$5,000; for the heralds, \$1,to the doorkeepers, \$1,200; while the balance of about \$130,000 is put down as no more than a safe margin to cover "miscellanies."
