CONTRACTORS ARE COMPLAINING BECAUSE BULK TENDER ACCEPTED

It Is Said the Individua Tenders for Alexandra School Were \$400 Lower.

SCHOOL TRUSTEES **EXPLAIN SITUATION**

Experience in the Past With Individual Contractors Did Not Work Out Satisfactorily.

There is trouble brewing over the awarding of the tenders for the Alexandra school on Colborne street.

The contract was given to Hyatt Bros. for about \$44,000, some weeks ago. That firm put in a bulk tender, and it was the lowest of such bids. It is now stated that individual tenders would bring the price down \$400 and possibly more.

This fact is admitted by members of the board of education and also by

City Architect Nutter.
"There is no doubt that the bulk tender of Hyatt Bros. was the lowest bulk tender," said Mr. Nutter. "It also true that individual tenders, the lowest in each case, would have brought the price down perhaps \$400 or \$500. I tabulated the tenders, but I did not make any recommendation. That was for the board to decide, and they accepted the offer of Hyatt

not the lowest, if the individual tenders are considered," said Dr. A. J. Wyckoff, chairman of No. 2 committee. "We had something more to consider than the mere question of price We have had work done in the pas that was not up to our requirements and we did not care to have the same experience repeated. When we looked at the proposition from every standpoint, we came to the conclusion that the citizens' money would be invested to the best advantage by awarding the contract as it was awarded. worth considerable money to have the contract in one man's hands. We have had some experience in the other line.

One contractor claims that he was work, while others claim that they

It is probable that something will be said on the subject at the next meeting of the board on the subject.

M'CLARY CO. OFFER

Propose That It Be Raised From \$150.000 to \$200.000— Expanding Industry.

At the special council meeting Monday night, among other things to be considered will be the McClary assess-

Although the fixed assessment of the it is understood that the company will voluntarily suggest that an increase of one-third in their assessment be made for the next few years. The present assessment is \$150,000, so that this in British Columbia, 37,266,000; in will add \$50,000 to the city's assess- Nova Scotia, 25,821,000; in Alberta, assessment is \$150,000, 50 the city's assess- Nova Scotia, 25,821,000, in Saskatchewan, 18,659,clude school taxes, on which the company pay on their full assessment this will mean quite an increase to the city's revenue.
