### **WOODROW WILSON ON** CONTROLLING TRUSTS Salvation Army Will Send Many Out

### Discusses Plank in Progressive Platform and Scores the Steel Company.

Minneapolis, Sept. 18 .- How the United Steel Corporation incidentally States would benefit by the plank in the Progressive party platform proposing regulation of trusts by a federal commission, was argued by Governor Woodrow Wilson in his speeches as he passed from Sioux City, Ia., to Minneapolis and St. Paul today.

It was at Sioux Falls, S. D., that the Democratic nominee first drew attention to the origin of the Progressive plank for handling the trust problem.

"The method now proposed of regulating the trusts was suggested in the inquiry by the House of Representatives into the steel trust, and it was suggested by Mr. Gary and Mr. George W. Perkins," he said. "They have thought this thing out. It may be, for all I know, that they honestly think that is the way to safeguard the business of this country, but whatever they think, this they know, that it will save the United States Steel Corporation from the necessity of doing its business better than its competitors. "For if you will look into the statistics of the United States Steel Corporation, you will find that wherever it has competitors, the amount of the product which it controls is decreasing; in other words, Democratic nominee first drew attention it controls is decreasing; in other words, that it is less officient than its competitors, and its control of product is increas-ing only in those branches of the business whereby purchase and otherwise they

which will suit these gentlemen perfectly.
"They don't want competitors in the market for labor, because new competitors will mean new wage scales, and these are the very men and almost the only men who have successfully opposed union labor in the United States, and shut it out of their shops and bribed it to be content to be shut out by all sorts of benevolent organizations."

[Canadian Press.]

Vancouver, B. C., Sept. 18. - Col migration work of the Salvation Army, received a cable today from General Bramwell Booth, London, stating that the army would start at once to float the "widow scheme."

Col. Lamb says there are 117,000 widows and 200,000 other persons in the old country from whose ranks it is proposed to draw immigrants to Canada. Women who wish to come to this country will be relieved of the care of their children while they are getting started. Col. Lamb thinks that many of them will marry again in this country. He is enthusiastic regarding the whole scheme.
