PROBLEMS OF THE FAIR SEX SOLVED BY CYNTHIA GREY

[Correspondents are requested to make their inquiries as brief as possible, and to write on one side of the paper only. It is impossible to give replies within a stated time, as all letters have to be answered in turn as they are received. No letters can be answered privately.]

A Foolish Girl. Dear Miss Grey, Wastenight my sister told me that she met a young man in the elevator in the building in which she is employed. It was the first time she saw the young man, and he went boldly up to her and asked her if she would have an tee cream soda. My sister accepted, and while talking the young man asked her for her telephone number. I think my sister did a foolish thing in accepting a soda, and a more foolish thing in giving.

Removing Stains from a Sink. Dear Miss Grey, Will you kindly tell the through your commn if there is any way of keeping a white enamelled slak from getting discolored? If so, what to use to clean it. CONSTANT READER A.—Grease will collect upon a white enamelled sink, but it can be removed by scrubbing it with washing sode and hot water. Kerosene applied with a brush or cloth will also take off the stains, after which the enamel must be washed in hot water and soap to remove traces of the oil. Gasoline will also clean the insides of enamelled or porcelain lined tubs and

Coat Styles

The cutaway coat is not only considered the ultra mode by Paris, but t has won the favor of the bestdressed women, because it has the long and graceful lines that are needed to attain fashion's silhouette this

There are dozens of cutaway styles, rom the quiet conservative two-button and moderate dip-back model, to the one that almost duplicates the coat of a man's evening dress suit. Some of these coats are quite short, others are very long—this variety so that women of all figures can have these coats in becoming styles.

When of wool poplin, eponge, Bedford cord, brocaded worsted or serge, the cutaway should be in a one, two or three button model, but when of Canton silk crepe, silk Matelasse, silk poplin or Bedford cord, it is most effective if simply fastened with a pair of link buttons, for then the coat may hang or drape quite softly.

Fads of Fashion

Virgin blue, sapphire and Dresden still hold supremacy. Sheerest possible bodices are seen on evening gowns. More closely to the head than ever clings the fashionable coiffure.

Silk stockings, with open work clocks, are the mode for evening. In needlework beads are used in

place of French knots. Fine veils of net and spotted tulle

are worn. novelty materials, striped ratine wool.

New sash draperies and waist belts of draped ribbon finishing in large and dishpan are used for their respective high, as you choose, but comfortable square buckles make an attractive work. Then why put on a dark, homely heels-rubber heels are exceptionally note on many of the new models.

For the spring suit, materials of rough weave are preferred. Suits of silk will be popular, especially those made of crepon, poplin, brocade and

tastic cock feather adorns the front.

Black slippers are rivalling the white ones. When patent leather slippers are worn they should have the colored heel and a flat knot in front to match.

Hamburg edgings and insertions are seen on some of the colored dresses for children, but the tendency is more oward tailored trimmings and outtons.
