**LOCAL INTELLIGENCE.**

Friday, August 4.

**NEW RIFLE COMPANY.**—A meeting for the formation of a second company of Rifle Volunteers was held last night in Smith's Hall. From thirty to forty were present. Captain Lang took the chair, and explained that he was not there to take a prominent part in the movement, being to a certain extent outside of it. He said the movement was not at all hostile to the present company but with the intent to increase the volunteer force, and create a healthy feeling of rivalry between the two companies. Ensign Elliott added a few remarks, followed by Mr. J. R. Stewart, who suggested the formation of a committee to obtain names, and volunteered to give his services. The chairman said the oath of allegiance need offer no obstacle, as any volunteer could retire at 14 days' notice. Several other gentlemen spoke in favor of the movement, after which a roll was drawn up to which a dozen signatures were at once obtained. A committee consisting of Messrs. Robertson Stewart, Lewis, and Ewing, was then appointed, with power to add to their number, to obtain names, and the meeting adjourned till Tuesday evening next. We hope the movement will meet with a cordial response from the public.

**SUPREME COURT.—Dawson v. G. B. Wright.** Action for promissory note for \$200, with interest; Mr. McCreight, instructed by Mr. Copland, for plaintiff; no defence. Judgment for plaintiff. *E. G. Alston v. Quong Sing, et al.*—This was an action for writ of ejectment brought by Mr. Alston, as agent for the Bishop of Columbia, against sundry Chinamen who had squatted on his lands near Fort Bay, and had refused either to pay rent or move off. Defendants had been allowed the use of the land for six months for nothing, with the understanding that they should at the expiration of that time move back on a new piece of land. The Celestials had made a very snug place of it, having built a house, cultivated a nice garden, raised a number of good hogs, 150 chickens, and burned a quantity of charcoal. The writ was granted, "John" not putting in an appearance till about five minutes too late. The Chinamen were ejected by the Sheriff yesterday afternoon.

**LICENSING COURT.**—The Monthly Petty Licensing session was held in the Police Court yesterday, A. F. Pemberton, Esq. and Mayor Harris on the Bench. The following retail liquor licenses were granted: David Hart, Yates street; Phillip Hall, Fort street; (arrests to be paid up) Philip Smith, Pany Saloon; Glover & Sager, Island Hotel; the Royal Exchange license was transferred from Dogberry & Glover to W. M. Gibbs; the following were refused: Peter Lind, South Beach, and H. Henley, to be changed from town to country.

**FROM MELAKALAH.**—The Mission schooner *Carolina*, Captain Rodlin, arrived from Melakalah last evening, having been 22 days on the way. She brings a cargo of furs, skins and oil. All is quiet and prosperous at the Mission settlement. The Indians have a large extent of land under crop this season, and most of the houses have little gardens in front. Mr. Cunningham is at Naas river forming a new settlement. A carpenter, named Bill Graham, is building a small schooner at Naas. The *Carolina* saw the *Labouchere* at Fort Simpson.

**ACCIDENT.**—While a party of men were endeavoring to raise a large boiler which is lying on a barge at James Bay Bridge, part of the tackle gave way and the boiler came down on the thumb of a man named Stratton, and completely severed it from the hand. Dr. Dickson was at once called in and replaced the mutilated member, stitching it on as carefully as possible, and it is hoped it may be re-unioned to the hand.

**THE HEATED TERM.**—The thermometer stood at 92° under a verandah on the west side of Government street yesterday, while one exposed to the sun for a few minutes rose to 110°. At Saanich for several days past it has stood at 86° in the shade. Last summer, however, showed a much greater heat in that locality, the thermometer standing at 95°.

**TRIAL TRIP.**—Captain Irving's new steamer *Onward* having received all her machinery on board took a short trial trip round the harbor yesterday afternoon, which resulted to the satisfaction of the owner. She will sail for New Westminster this afternoon, and will replace the *Reliance* on the Yale route.

**THE LATE STRAMBOD COLLISION.**—Chief Justice Cameron, in reply to a motion made before him yesterday, will in a few days appoint assessors in the case of the *Fideliter* vs. the *Alexandra*. The case will be brought on in the Admiralty Court in a short time.

**MECHANIC'S INSTITUTE.**—The Managing Committee of the Mechanic's Institute have appointed Mr. J. W. Weeks assistant hon. secretary during the absence of Mr. E. G. Alston in England.

**THE GOLDSTREAM QUARTZ CRUSHING CO.** was wound up yesterday, and the money in hand paid over to the shareholders.

**H. M. S. SUTLEY** was cruising in the Straits yesterday, with His Excellency Governor Kennedy and some of his family on board.

**GOING UP.**—The new stern-wheel steamer *Onward* sailed for New Westminster last night at 7 o'clock, carrying up Captain

Irving and family. The boat not having been inspected, Capt. Irving declined to take any passengers, as by doing so he would incur the liability of a fine of \$500. The *Onward* will be furnished at New Westminster, and will be the finest and strongest stern-wheeler on the river, the builders of both boat and machinery having spared no pains or expense in the construction of their respective portions of the work. The steamer will cost when completed nearly \$30,000.

**SIWASH SHOOTING.**—Mr. J. W. Trahey was charged in the Police Court yesterday with shooting at and wounding an Indian. It appeared from Mr. Trahey's statement that a number of Siwashees had been annoying his Chinaman, and finally chased him up to the house with sticks. On Mrs. Trahey going out to remonstrate with them, they used offensive language and frightened her into the house again. Mr. Trahey happened to come home at this moment, seized a loaded shot gun and went out, when the Indians ran off. He fired after them, intending to frighten them from returning, and went back to the house; but was afterwards astonished to learn that one of the Indians had received several grains of shot in his back. The Siwash was in attendance, and seemed none the worse for his mishap. Mr. Trahey having stated that he was obliged to go to Yale on the steamer *Onward*, the Magistrate adjourned the case for a week, requiring Mr. Trahey to give bonds himself in \$500, also two sureties in \$250 each, for his appearance at court.

**SECOND VOLUNTEER COMPANY.**—The movement to organize a second company of the Victoria Volunteers is meeting with the most marked success. Yesterday evening thirty-six names had been placed on the list, including several of our most prominent citizens. Several of our American residents have also placed their names on the muster-roll, as it is understood that there will be nothing in the oath of allegiance which will clash in the slightest degree with their fealty to their own flag. At the present rate of progress the ranks of the new company will be filled in a few days. A meeting of the members is called, by advertisement this morning, for Wednesday next. The roll now lies for signature at the office of Messrs. Adamson & Hurd.

**AN IMPORTANT DECISION.**—His Honor Chief Justice Cameron gave an important decision in the Supreme Court yesterday, which will affect the transactions of all Joint Stock companies. At last Assizes, the Alberni Copper Company sued Mr. Gastineau, one of the stockholders, for two calls, and obtained a verdict. Yesterday Mr. McCreight, instructed by Messrs. Peacock & Green, asked leave to enter a non-suit on the ground that no personal notice of the calls being made had been given. His Honor decided that personal notice of the notice of call was required by the law, and ordered a non-suit to be entered. Mr. Cary, instructed by Mr. Copland, appeared for the Company.

**THE BROAD STREET ROBBERY.**—H. Gardiner was brought up on remand yesterday charged with robbing Madams Maitre, the French green-grocer on Broad street. The Magistrate said as any observation from him on the case might probably defeat the ends of justice he would only say that he did not consider the evidence sufficient to send the case up for trial, and he would therefore discharge the prisoner. Gardiner accordingly thanked the Magistrate and left the Court.

**ARRIVAL FROM ENGLAND.**—The A. J. 14 years fine clipper ship *Philomela*, Captain Archer, 632 tons register, arrived in Esquimalt harbor yesterday from London, having made a fine passage from the Downs of 129 days. She brings two passengers, a valuable miscellaneous cargo of about 1400 tons weight and admeasurement goods, including a quantity of Government stores, and comes consigned to Messrs. Anderson & Co., of this city. The *Philomela* is a new ship, built at Workington, on the Solway Frith. She is said to be a splendid sailing, nothing she met with on the voyage being able to compete with her. She draws nineteen feet of water, and will consequently have to be lightened before she can enter this harbor. Her memorandum and freight list will be found in the proper column.

**THE VANCOUVER TIMES.**—From a notice appearing in our advertising columns, it will be seen that the *Vancouver Times* and *Evening Express*, with the printing establishment on Yates street, has passed into the hands of Mr. William Lang Mitchell, late a partner in our firm. A long experience in the different branches of journalism, active business habits, combined with ability and sound judgment, are requisites that will enable Mr. Mitchell to enter upon his present sphere of labor with every prospect of rendering our evening contemporary a credit to himself and a permanent and valuable public institution. We heartily wish our *confreres* every success.

**WRONG.**—Some thoughtless person yesterday set a report afloat soon after the arrival of the *Philomela*, that the Ann Adamson and *Cyclone* had both foundered among icebergs off Cape Horn. Capt. Archer desired us to give the report a most emphatic denial, as he not only heard or saw nothing of the two ships in question, but fully expected to find that they had reached their destination long before the arrival of his ship. They have probably been detained by continuation of baffling head winds.

**MOVING TO THE SOUND.**—The steam engine, boilers, and machinery of the James Bay bridge saw-mill, have been shipped on board the schooner *Brandt*, and will be carried across the Sound to-morrow to Seattle, where they will be placed in a new sash and door factory, about to be carried on by S. B. Abbott, formerly of this city, and three or four other residents at that port.

**SINGLE WICKET.**—We learn that five of the New Westminster cricketers purpose challenging five of the Victoria players to a match at single wicket, with a view if possible to retrieve their lost laurels.

**THUNDER STORM.**—Early yesterday morning a few heavy peals of thunder were heard, accompanied by vivid flashes of lightning. The storm seems to have had the effect of purifying and cooling the air.

**EXPLORATION OF KOKESAILAH RIVER.**—From Mr. Hector McPherson, who, with Mr. Robertson, has been prospecting for gold since June 1st, on Kokesailah river, Cowichan district, we learn the following particulars: The party ascended the river about 35 miles, prospecting all the way up, and finding color everywhere. At a distance of 35 miles they were discouraged from the appearance of the stream to sink a shaft in the high bank, which they did to the depth of 12 feet, finding several colors. They were obliged, however, through the water coming in and grub becoming scarce, to give up for the present. They intend, they say, to return at once with supplies and material for rigging a temporary pump. The country is very rough, with occasional flats, heavily timbered. On the 18th June the party ascended a mountain near the head waters of the river, after four and a-half hours hard climbing. It was named by the explorers Mount Waterloo. They discovered a remarkable lake in that vicinity, at an elevation of about 1000 feet above the river, and from which a fine stream descended in a series of beautiful waterfalls. The party intend to go up to the source of the river and prospect it thoroughly.

It is stated by a Montreal paper that ten Southern rebels have \$10,000,000 deposited in banks in that city.

The President receives about a dozen letters a day asking him to hang Jeff Davis.

"**SOZODONT**" is now attracting very considerable attention, and well it may. The article represented by this musical name is one of the best preparations for the teeth and gums that has ever been offered to the public. We have been familiar with its results for some years past, and have never known a case in which its use was not pleasing and highly satisfactory. It polishes the teeth, hardens the gums, and gives a wholesome tone to the mouth and breath. *—Providence Daily Press.*

**JEFF DAVIS IN HIS PRISON.**—A Fortress Monroe correspondent of the Philadelphia *Enquirer*, writing on the 5th June assures us that the arch traitor is still an inmate of that Fortress, notwithstanding reports to the contrary, and adds:—He has not stirred out of his casemate since the day he was first immured within its thick stone walls. Jeff is closely guarded; 26 armed men stand guard over him night and day; two soldiers with loaded and bayoneted muskets pace incessantly to and fro in his cell. These damned sentries walk in opposite directions to each other to and fro across the cell. The prisoner is always under the eyes of one of them. A commissioned officer, too, continually keeps watch and ward within the cell. Since the removal of the iron Jeff Davis takes his confinement more resignedly. He is socially disposed, and is ever opening conversations, which cannot be kept up, as the officers are not allowed to talk to him. There is neither chair nor table in his cell. No books or papers are allowed him, neither pen, ink, pencil or paper. There are exceptions in the way of books. Two volumes are allowed the prisoner, the Bible and the Book of Common Prayer.

Clement O. Clay bears his confinement with the same dignified philosophy as at its commencement. He occasionally expresses concern for Mrs. Clay. Clay is an inveterate smoker; tobacco is furnished him, and the most of his waking hours are occupied in puffing the soothing weed. His food is regular army rations, of which he partakes but sparingly. His cell is as barely furnished as that of his chief in crime. The only books permitted him are the Bible and Prayer Book. Writing materials and the newspapers are rigidly excluded.

The casemates where Jeff and Clay are confined possess one great advantage in the hot weather now upon us. They are delightfully cool in the hottest days of summer. *—Bulletin.*

**MR. LINCOLN'S PRIVATE FORTUNE.**—It was stated, a day or two since, by the *New York Tribune*, that Mr. Lincoln's executor and nearest friend, Judge Daniel Davis, of Illinois, after taking an account of the estate, had notified Mrs. Lincoln that she cannot afford to keep house on her means, but must board. The *New York Times* denies this statement, says Judge Davis had said nothing of the sort, and does not approve of the *Tribune's* way of providing a fund for Mrs. Lincoln. It says: "President Lincoln carried with him to Washington the simple manners and inexpensive habits of his former life. His manner of living at the White House was consistent with his character, unpretensions and frugal. Though he responded, as his heart prompted to appeals from the worthy but unfortunate, he did nothing for show or effect; and consequently, as in the case of Mr. Van Buren and Mr. Fillmore, out of his annual \$25,000, he saved, in the aggregate, nearly or quite \$50,000, which sum was, and remains invested in Government securities."

The battle of Kohn, fought between the Austrians and Prussians, was lost by the latter. Their king, immediately after his defeat, meeting with a Prussian soldier who had received a wound in his face, inquired, "In what behalf did you get that scar?" "In one," replied the soldier, "where you majesty paid the reckoning."

A very fat man having taken a seat in an omnibus, already crowded to the great annoyance of the passengers, several with partial breathing and muttering lips inquired who such a lump of flesh as the new comer could be. "I don't know," responded a wag, "but judging from the effect he produces, I should suppose him a member of the Press."

**COMMERCIAL.**

Sailed—The bark *Austerlind* passed down the Straits yesterday for Nanaimo for San Francisco. She carries 600 tons coal, and 20 passengers.

LOADING.—The bark *Knigt Bruce* commenced loading at Nanaimo on Thursday last, for San Francisco.
