THE NEST EGG MINE. . . . . . . . . . Excellent Reports of the Character of Ore flume is finished. and the Value of the Mine. The Nest Egg mine is chiefly owned at any time to recommend the property as a valuable prospect of great promise. We both of us deplore any misstatements made by designing parties injuring the value of this as a mining investment, and will at

sured.

all times be ready to correct any such state ments so far as our knowledge permits us. Very respectfully, FRANK C. LORING. SPOKANE, WASH., APRIL 1st., '96. Hon. J. M. Burke, Rossland, B.C. MY DEAR SIR:-In obedience to your re-quest, I visited on March 29th, the Nest Egg mine, Trail Creek mining district, lying about one mile south of Rossland. I found much snow upon the ground and therefore much show upon the ground and therefore was anable to examine the outcrop to any extent. I found the No. 1 shaft full of water, but was able to see the outcrop above the shaft for a distance of 50 feet and found it strong, heavy in iron, with a width of about 8 or 10 feet. Upon the dump of the shaft is about 15 tons of pyritite ore, ware heavy in jon and of the same nature very heavy in iron, and of the same nature as all of the ore in camp. No. 2 shaft I found 30 feet deep, with two excellent walls, and showing in the bottom 3 feet of ore, an average sample of which assayed \$27.00 gold; 4 3-10 per cent. copper. Taking into consideration the position of the mine, its relation to other valuable properties, the strength of the outcrop so far as I could see, and the value and ap-pearance of the ore upon the dump of No. I shaft and in No. 2 shaft, I take pleasure in stating that, in my opinion, the property has great value, and that it offers an excel-lent on portunity for mining investment the mine, its relation to other valuable The mine is easy of access, being crossed by the grade of the Trail Creek railway, therefore the cost of transportation will be slight. All of the conditions are favorable for cheap extraction of ore. Very respectfully, (Signed) GEO. T. CRANE. Letters from the superintendent of the Nest Egg mine, speak well of the showing as the work of sinking proceeds. It is believed by him and others that it will properties in the camp. mills here owned by Heslop Bros. were Mr. Pyke's immediate personal direc-burned to-day. Loss \$10,000; partly in- tion.
