Track Record for Province Lowered - Crops in Good Condition.

Winnipeg, July 7.—The North Winnipeg Conservatives to-night nominated Dr. Nelson as candidate for the legislature.

At Portage la Prairie races to-day Cone, a Brandon mare, lowered the track record for the mile to 2:16.

Senator George A. Cox, of Toronto, his brother, Mr. A. A. Cox, of Peterboro, and Major H. M. Peckett, of the Queen's Own Rifles, Toronto, are here, en route to the Pacific coast.

The crop report of the Northern Pacific railway for the week ending to-day shows grain along the company's lines to be in splendid condition, and the weather conditions ideal.

A Brandon despatch says: "The only new development to-day in the Lane murder investigation was the arrival of the police officer of a man who said he had had a vision of the murdered woman."

The importance of the volksraad's action, if the Diggers' News' article is correct, can scarcely be over-estimated, as it means a compromise which will do much to obviate a clash between Great Britain and the Transvaal.

The Daily Mail announces this morning that Brevet Colonel Robert Baden-Powell, commanding the "Princess of Wales" Guards, Captain Lord Edward Cecil, of the Grenadiers, and Lieut. the Hon. Algernon Hanbury Tracy, of the Royal Horse Guards, who according to a semi-official statement in the Times yesterday have been ordered to proceed to South Africa, to organize the regular British and local forces at various points on the frontier, will sail for Capetown to-day on the steamers Gorkha and Dunotter Castle.

The subject of the despatch of these officers was brought up in the house by the hon. member for the Cape of Good Hope, Mr. Campbell-Bannerman, who read the following extract from the Times: "The commander-in-chief has been engaged in completing the organization of a larger force, which it will be necessary to despatch should the negotiations with the Transvaal fail. It is in the Times," he continued, "which is apparently a new declaration of opposition (opposition cheers)."

Mr. Balfour replied: "I do not think there is any new declaration of policy in the paragraph, but I conceive that the war office would be extraordinarily wanting in its most ordinary and obvious duties if it were not prepared for any emergency, however undesirable and however unlikely, that could possibly arise."

Mr. Henry Labouchere, radical member for Northampton, asked whether the officers going to South Africa were going into Cape Colony and Natal to organize the police and local forces, and if so whether it was with the consent of the colonial authorities there.

Mr. Balfour: "I do not know." Commander George Richard Bethel, Conservative member for the Holderness division of Yorkshire—"Would the right honorable gentleman say in what circumstances the spy would be employed, and against whom of the Queen?"

Mr. Balfour: "My honorable friend is quite as competent to employ a spy as I am, and it will require a prophet to answer for circumstances which may arise."

In the house of Lords to-day the secretary of state for war, the Marquis of Lansdowne, introduced a bill which is regarded as the thin edge of a wedge of conscription and as likely to render the government unpopular. The bill, which is entitled the "militia bill," is intended to simplify the existing conscription act now practically suspended in favor of volunteer enlistment. In his speech introducing the measure, Lord Lansdowne carefully explained the reasons why the government only wanted it read the first time, as there was no intention to pass it, and he repeated the same explanation in the second reading.

Personally, he said, he did not favor conscription, but he thought it advisable that such a bill should be in readiness if wanted, and that the country should realize how it stands with regard to this question.

Already the liberal papers are attacking the government and asking what need there is of such a measure unless conscription is needed, and in regard to the fact that recruiting is dwindling, the bill will be regarded with great suspicion.

BIG DEAL CONSUMMATED. Alaska Hydraulic Claims Secured by London and Boston Capitalists.

Seattle, July 6.—Negotiations whereby 540 acres of rich American Yukon placer ground passed into the hands of Boston and London capitalists were concluded yesterday.

George T. Hall, of Seattle, and associates, who owned the property, receive \$240,000, one-third cash. Mr. Hall was the principal owner.

The sale was negotiated by Dr. C. S. Longstreet, of New York city, a brother of the famous deceased Confederate general, James Longstreet. He and Hall have been considering the transaction for several months.

Hall, having arranged to handle the property, came out last December, and has put by more or less time on the deal ever since.

The land lies immediately back of Eagle City, the new American mining camp. It was once, Hall thinks, a part of the Yukon river bed. Near it are two creeks, American and Buff, each carrying sufficient water for hydraulic development, the process the purchasers will employ in working the ground.

The new owners may not do much development work this year, but it is their intention to have \$75,000 worth of machinery and other mining appliances on the ground by next spring.

Before undertaking the sale Mr. Hall satisfied himself that he had a rich piece of placer ground. He had a survey made, and personally prospected all of the tract, with the result that he claims the dirt will average 100 lbs. of gold per acre. While it will take a year or more of money and years to "work out" the ground, Hall's estimate is that the entire tract contains about \$88,000,000 worth of gold dust. The Boston syndicate will handle 220 acres and the London operators 320.

All cases of work or lame back, back-ache, rheumatism, will find relief by wearing one of Carter's Steam Heat and Belladonna Backache Plasters. Price, 25 cents. Try them.

WASHINGTON. July 6.—Ambassador Choate and Lord Salisbury are almost deadlocked over the modus vivendi fixing the Alaskan boundary. Neither will accept the provisional line proposed by the other. The Canadians demand the inclusion of the Porcupine country, and the Americans the projection of the boundary line Northwestward to the 59th parallel, which would place Kluckwan.

London, July 7.—The officials at the foreign office were today shown an Associated Press despatch from Washington, saying there was almost a deadlock over the modus vivendi fixing the Alaskan boundary. The officials confirmed the contents of the despatch, acknowledged the situation grave, and said that the present outlook was more unsatisfactory than at any time since February.

WORRYING THE FRENCH. Bait Act of Newfoundland Too Strictly Enforced for Their Comfort.

St. John's, Nfld., July 8.—The French bait canoes are being indignantly over the enforcement of the colonial bait act by the cruiser Ina and the fleet of patrol boats. This is principally from the fact that the bait canoes are so far below the average and now present appearances the season must prove disastrous to both outfitter and fisherman, efforts to smuggle bait being frustrated through the vigilance of the cruiser.

A POINTER FROM KOOTENAY.

Mr. Semlin Could Carry On Without Either of His Vancouver Colleagues.

Special to the Colonist. Nelson, July 7.—Advices received here from members of the legislature representing Interior constituencies are in effect that they will have no more nonsense from Vancouver members of the Semlin government; that if the two members from Vancouver cannot get along without squabbling over matters that are purely local to Vancouver, and that in no way affect the remainder of the province, then they will both have to go. The Semlin party is strong enough without either of them, and strong enough to run the government without an appeal to the people.

BRAVE YOUNG SPANIARDS. Won Admirer of Insurgent Force For Defence of Garrison—Captain Slain For Attempted Surrender.

Manila, July 6.—The Spanish commissioners who went to Tarrac for a conference with Aguinaldo regarding the surrender of the Spanish prisoners in the hands of the Filipinos returned last night. Chairman Del Rio of the commission said that the release of all prisoners had been practically agreed upon, but that it was necessary to consult the Spanish government before the agreement could be ratified. He declined to give the terms of the agreement or say whether the captain contemplated a ransom. He asserted, however, that Aguinaldo has already issued a decree for the release of civilian officials and the sick soldiers by the night train.

The heroes of the long defence of Baler where the Spanish soldiers resisted an eight months siege for more than a year, were a picturesque band. Lieutenant Martin, the only surviving officer, marched them through the streets. They wore a white flag, and their uniforms were mere boys in faded blue cotton uniforms and red shirts. They are bare-footed.

They tell a remarkable story. It appeared to surrender, but the soldiers refused. Finally some months ago the epidemic of cholera broke out. The appointed, Martin killed him with his own sword. Their food supply gave out entirely a week ago, and they surrendered. It is expected that there will be enough caught to ship one boat-load a day.
