Caldwell's Case.

London, Feb. 17.—The report that Robert Caldwell, the American who gained considerable notoriety during the recent hearing in London of the Druce case, has been committed to an asylum in the United States came as a surprise here. It is understood that a representative of the British Home Office will make an independent investigation of the alleged commitment in New York. If this agent is satisfied of the genuineness of Caldwell's insanity the extradition proceedings against him on a charge of perjury will be stopped, otherwise steps will be taken to have the ruling of the court set aside.

ISLAND'S VOICE
IN COMPLAINT
MINERS CAUGHT
BY DOWN-TORRENT

Little Province's Grievances Again Ventilated in House of Commons

IMMIGRATION IS DISCUSSED
STRONG HOPE OF RESCUE

Mr. Pringle Proposes Series of Amendments to Banking Act

Gangway Where Men Are Confined Filled for Distance of 350 Feet

Ottawa, Feb. 17.—Private members' day in the house was taken up with the grievance of Prince Edward Island in the matter of railway facilities, the need of extending the rail delivery to the municipalities adjacent to Montreal, the utilizing of the services of the technical knowledge on public works, and the old story of immigration.

Mr. Wilson, of Lennox, and Addison gave a long disquisition on the need of better inspection and selection of immigrants, moving an amendment to that effect, and argued that the United States did those things much better than we did.

A characteristic complaint from Prince Edward Island was voiced by Alexander Martin, of Queen's, who moved for all papers in possession of the government respecting the construction of branch railway lines in that province. The railway reports, which showed that large sums of money were paid in the island in railway construction, were not correct. What was needed by the people of that province was that the original comprehensive scheme before confederation of equipping the island with branch railways should be carried out, and this could be done without a very large expense. The industry of the government was confined to the time of a general election, when there was much activity in regard to surveys; then when the fight was lost or won, there was nothing done further. Confederation had done nothing for Prince Edward Island in comparison with what had been done for the other provinces. This was due to the neglect of the government in the matter of railway development.

Mr. Graham argued that from 1879 to 1894 there had been expended for construction of railways in the island \$340,650. From 1896 to 1907 the present government had spent \$3,550,000. He could assure the members from that province that a full investigation of the need of railway lines would be made, and if possible would be met. The talk on Mr. Cockshott's resolution going away with assisted immigration, which was first moved on July 15th, was resumed by Mr. Wilson. He strongly objected to the policy of the government in bringing Douko, Douko and such classes. He had a strong suspicion that the North Atlantic Trading company was still the power behind. Mr. Wilson wanted a much stricter method of inspection. He moved an amendment providing a more careful selection of immigrants from which immigrants should be sought, and a more rigid inspection and the abolition of the bonus system. This was seconded by Mr. Elain. Mr. Cash moved the adjournment of the debate, and the house adjourned at 11:30 p. m.

R. A. Pringle, M. P. for Cornwall, will propose to the house a motion calling for amendments to the bank act:

1. To provide for government inspection of banks.

2. To provide more stringent regulations as to circulation.

3. To make provisions as to percentage of capital and reserve that may be loaned to any borrower.

4. To make provisions as to percentage that a bank may loan to its connected directors.

5. To limit the amount of interest or discount that banks may contract for.

6. To revise the powers of the bankers' association.

Mr. Pringle will also ask for the appointment of a royal commission to investigate the whole banking situation in Canada.

FOR DOMINION FAIR.
Ottawa, Feb. 17.—A deputation representing the city council and the central Canada Exhibition association, accompanied by the city members, who waited on the government today to ask for a grant for a Dominion fair here in 1909, was informed that it is the turn of another province, but she retains his claims unchanged. Ottawa might stand in good chance of securing it.

BRITISH PREMIER
MAY LEAVE OFFICE

Sir Henry Does Not Recover Health—Not Likely to Become Peer

London, Feb. 17.—Rumors were numerous tonight in the lobbies of the House of Commons of the imminent translation of Sir Henry Campbell-Bannerman to the peerage from the premiership.

Inquiries in the best informed quarters, however, indicate that the premier's position has not changed since the latter part of January, when it was said that he would give his attention to only the more important matters of state. Sir Henry is still far from regaining his robust health, and before long, unless he becomes stronger, some definite course must be taken. It is understood, however, that no decision is likely to be taken before Easter, when, if he still finds the duties of the premiership too great a tax, he will resign his position in favor of Herbert H. Asquith, and retain his seat in the Commons, rather than accept a peerage, thus following Gladstone's example.

Toronto Unemployed.
Toronto, Feb. 17.—Three hundred unemployed marched to the city hall this morning and asked for work. They claimed that the labor bureau established by the city has not worked out properly, and that while regular men are given steady employment, men who are registered at the labor bureau are ignored. There were 2,500 men registered at the bureau waiting work. No promise of work was given.

Young Hargis' Defence.
Lexington, Ky., Feb. 17.—In the defence of H. H. Hargis, who is expected to be indicted soon for the murder of his father, Judge James Hargis, the expenses will be paid out of the \$50,000 which is the boy's share of a large estate. Counsel for young Hargis will claim self-defence, that his father choked him and knocked out a tooth of his teeth before the son fired.

RUSSIA EXCITED
OVER WAR IDEA
LIFEBOAT FROM
THE EMILY REED

Matter of Readiness for Contest With Turkey Comes Up in Duma

Mate and Two Seamen With Cook's Body Reach Neah Bay on Sunday Night

Shipwrecked Men Suffer Terribly Without Food or Water and Cook Succumbs

St. Petersburg, Feb. 17.—The alarmist reports of the possibility of hostilities between Russia and Turkey, which have permeated all strata of Russian society have now assumed the proportions of a veritable war scare, and the possibility of hostilities is devoting its biggest headlines. The situation is taken seriously, not only in military circles, but also by conservative politicians.

M. Guchokoff, the leader of the majority in the Duma, tonight announced his intention of raising at the next meeting of the national defense committee the question of the nation's readiness for war, which he believes is of most vital importance in view of the possibility of hostilities with parts of Europe. He also proposes to interpellate the minister of communications on the ability of the railroads, trans-Caspian, transport troops quickly to the south and southwestern frontiers.

M. Kovinski, the vice-commissioner, stated that the situation is grave, and takes issue sharply with a number of generals who appeared before the commission and stated that in their opinion the possibility of hostilities this year was excluded. The general staff continues to give the situation the most serious consideration.

Reports arriving from Siberia, however, state that for several months there has been an unbroken movement of Siberian troops to the southwest in the direction of trans-Caspian districts. Turkish troops from which points they could be most easily concentrated on the Turkish frontier. This advice to the Associated Press Sunday night when they steadily making for any eventualities.

A competent diplomatic opinion, however, takes a more optimistic view. The ambassador of France in St. Petersburg, when interviewed today, considered the possibility of hostilities being almost out of the question. They gave it as their opinion that the construction of the life-saving tug Cape Flattery in a long-rolling swell, and reached Neah bay where sympathizing residents who gave them food and shelter.

The revenue cutter Perry, which had been commissioned to remain at Neah bay to give assistance to shipping men when required, pending the construction of the life-saving tug station was at Seattle cooling when the news of the arrival of the survivors was received and proceeded yesterday to take the shipwrecked men on board and convey them to Seattle.

GET OUT OF CHINA
Celestial Empire Said to Be Preparing to Issue Mandate to Europeans

San Francisco, Feb. 17.—At a meeting in the Young Men's Christian association headquarters the Rev. N. G. Poon Chew, editor of the Chinese World, told his audience that China was raising an army of 1,000,000 to drive the European nations from the empire.

"But she will never be a menace to America," said the editor, "because among other things we have learned recently is that the United States is the only nation on earth with a conscience."

The journalist talked on "China's possibility and the church's responsibility," and he interspersed his address with epigrams and figures of true Chinese terseness.

"China," he continued, "is just awakening from her slumbers and she is getting ready to go to war. When she does, she will send Germany, France, Russia, England and other robbing and robbing nations home in a hurry. If Russia ever tries again to grab any Chinese territory we will fill her full of glory holes, just as Japan did. China is destined to be the greatest nation on earth."

SUNDAY CAMPAIGN
WAS TOO STRENUOUS

Winnipeg Police Commissioners Decide to Moderate the Pace

Winnipeg, Feb. 17.—The announcement that the police commission had decided to display more reason in the prosecution of Lord's Day act violations created much satisfaction throughout the city, especially among business men.

The police chief expressed relief. There was no rounds yesterday, and probably do nothing more in that direction until the more important cases now on the lists are disposed of. Some will be made tomorrow.

The commissioners' decision was in reference to a widespread feeling of dissatisfaction throughout the city over the methods of the police, who were acting under the police commission's instructions not to discriminate. The feeling became so acute that the Lord's Day Alliance thought it necessary to disavow responsibility for the crusade. Rev. W. M. Rochester issued a lengthy statement to that effect.

Lawyers Look to Pockets
Toronto, Feb. 17.—It is not likely that the proposed government resolution looking to a measure of law reform will be introduced in the legislature at once. The attorney-general has received a number of communications from the association of the province in opposition to the bill appears to be that it will cut down law costs.

Suicide's Funeral
Toronto, Feb. 17.—James J. Feehley, who shot himself after attempting to kill his wife, was buried in St. Michael's cemetery today. Roman Catholic clergyman refused to conduct a service, but there was no ceremony by the Canadian Order of Foresters. Neither Feehley's parents nor his widow would pay the cost of burial.

REDUCE TAX NEXT

Personal Property Probably Be By the Government

NO INVESTIGATION

Government Votes Rejection of Mr. H. H. Hargis

(From Tuesday)

An important announcement made at the sitting of yesterday by Hon. the Minister of Finance. This fact that the government considering a reduction of personal property tax and they will probably bring reducing it materially in answer to a questioner, stated that the consideration of the reduction of a portion of the municipalities but had preferable to remit it to the province.

The session was made up by Mr. Hawththornthwaite looking to a course into the situation of the municipalities. The preamble alleged that for the protection and miners were set at naught. Mr. Hawththornthwaite stated that at Coombs many hundred Americans knew nothing of English through their ignorance to the lives of the white miners. Mr. Hawththornthwaite brought Mr. McBride to his feet with the mines department, a under it. He referred to the coal mines and high hydroelectric rates, that there was no necessity for no specific ever been received by the miners in Coombs were so conditions that they had themselves of the right to examine. They had to leave this to the government premier's remarks were applause. Mr. Macdonald's opinion as to Mr. Hawththornthwaite's nor had he anything to see mines departments. He the best interests of the province by having an ever
