A HINT TO FARMERS.—We learn from United States' papers, that our enterprising neighbours, not satisfied with supplying Great Britain with flour, Indian meal, wheat, &c., are giving their vessels deck loads of live stock, which bring remunerating prices in England. Is it not a matter of surprise that the farmers of New Brunswick do not ship in the fall of the year, (when our vessels cannot carry deck loads of deals to Great Britain,) deck loads of sheep, geese, poultry, when they can do so at a trifling expense, by erecting a frame work on a ship's deck. A vessel of 800 tons register would carry in this way 500 sheep, and in like manner geese and poultry. We observe by our English papers, that the prices of this description of stock, would amply repay the shipper. For instance, a good spring lamb here is worth 7s. 6d. sterling—in England, after a week's feed on shore this lamb would be worth from 30s. to 35s. sterling; the freight could not cost more than 7s. 6d., yielding a profit of at least 15s. sterling. Geese that cost here from 3s. to 4s. 6d. sterling, per pair, are worth 2s. in England, and fowls in like proportion; a chicken that costs 9d. here is worth from 2s. 6d. to 3s. in England. Let some of our farmers make the experiment, call it by what name they please, "New Brunswick notions"—if they choose.

The Hibernia brought out sixty-two passengers, seven of whom landed at Halifax. They were Assistant Commissary General Goldsmith, Capt. Stewart, Capt. McLachlan, Messrs. John Prockleband, H. Winterbottom, Muerdew, and W. B. Shannon.

Mr. Goldsmith, it will be remembered, left this City for Hong Kong some years since, and returned to England recently in ill health. His numerous friends in these Provinces will gladly welcome him on his return. We understand he has been appointed to the charge of the Commissariat Department in Newfoundland.—[Courier.]
