ISTANCES BY TELEPHONE.

Mayor Washburne made his bow to the New Yorks over the telephone, and Mayor Grant said to him: "New York sends her congratulations to Chicago on the completion of this wonderful line of speaking communication, which will undoubtedly bring the two great cities into closer commercial and fraternal union; and also comparables Chicago, and wishes her all post-arrow, with numerous slanting teeth, will

city.

The new line is a metallic circuit of No. 8 copper wire. The wire is nearly twice as heavy as that used for city lines — No. 12. The line runs through Easton, Harrisburg, Altoona, Pittsburg, Cleveland, To'edo and South Bend. Chicago will be able to talk with any of these intermediate points and with all other points east. The Chicago line will be open to the public tomorrow.

another day, for they may then be crumbled and powdered by the passing harrow with a small part of the labor which would be required to get rid of them a week or two later when they have grown a foot high.

Pithy Points.

It is difficult to name arbitrarily the corrow.

Its Cargo of Esquimaux. The schooner Evelina arrived in Boston harbor on the 14th inst. with fifty-seven Esquimaux, a pack of dogs, sleds and tents to form the typical Esquimaux village at the World's Fair.

This may be done by commencing Nova Scotia, by the Artic American Exhibit Company, and started on the expedition along the coast of Labrador on June 27. Wm. D. Vincent, the treasurer of the concern, and R. G. Taber, the secretary, had joint charge of the enterprise. J. G. Sornberger, of Harvard College, went along to assist in procuring the natural history collection, and Prof. W. M. Reed, also of Harvard, accompanied the expedition. collection, and Prof. W. M. Reed, also of Harvard, accompanied the expedition, to make surveys and take observations of the aurora lights in conjunction with the observations made at the Cambridge observatory.

Corn fodder if properly handled may very largely take the place of hay in feeding, thus permitting the sale of the other and more valuable money crop.

reservations made at the Cambridge observatory.

The voyage to Boston was made without accident or delay. The schr. cleared from Sheiburne, N. S., on Oct. 1st, with fifty-seven Esquimaux, men, women and children, twenty-four native dogs, one komatik or sled, ten kayaks or sealskin canoes, and a sealskin tent; besides there were eight barrels of green sealskins to be made into clothing and other articles, some deer skins and rabbit skins, a lot of dried fish and dried deer and seal meat for food, a mended as a means for reducing the pests.

And more valuable money crop.

As soon as the opportunity offers, lay the foundation for a good compost heap by cutting sods and putting them down to the depth of say six inches, making a base of such length and width as seems desirable. Then build upon this as time and material permit.

Pasturing the wheatfield has been recommended as a means for reducing the pests.

The Great Wonder of the Age Into clothing and other articles, some deer skins and rabbit skins, a lot of dried fish and dried deer and seal meat for food, a lot of stoves, lamps, and a number of barrels of seal oil and blubber to furnish fuel for them, three white bear skins and a lot of old whale and fish bones. There was a ton or more of old gravestones, a barrel and a box filled with human bones, and a lot of little images of Esquimaux, dogs, kayaks, and komatiks, beautifully carved out of walrus ivory by some of the smarter natives. Both of the Harvard men are richly laden with curious and valuable.

The Great Wonder of the Age
The Gr

Killed by Electricity.

Malden, Oct. 17.—James Keating a lineman of the Malden Electric Company, met with a fearful death here this afternoon, being killed by an electric current. He was at work on a pole, corner Summer and Clifton sts., repairing one of the main wires when the current was turned on and it. when the current was turned on and it passed through his system, killing him in stantly, leaving his body suspended from a net of wires. Three of his companions were on the ground near the pole, and one of them climbed the pole and cut the wire. An alarm was rung in, calling the fire department, and the members placed a ladder against the pole and lowered the body. Keating was 26 years old and his home was the fairest fruit. eating was 26 years old and his home was

Agricultural.

Cultivating the Orchard

The greater part of the advantage from plowing orchards is lost if the ground is New York, October 20.—Mayor Grant, in New York, and Mayor Wasburne, in Chicago, had a talk to-day by telephone. Until to-day the longest telephone circuit in the world was between Paris and Marseilles, which is a little over 500 miles The next longest was the New York and Buffalo circuit of 440 miles. But Chicago Buffalo circuit of 440 miles. But Chicago many purposes, besides destroying small is 1,000 miles from New York. The line is the extension of the American telephone and telegraph company's long distance telephone services, and it terminated here to day in a flower-bedecked and bunting garlanded room in the telephone building at 18 Cortland street, were a company of about 150 persons had assembled.

The circuit ended in an ordinary deals to be stroying small weeds. The loose earth acts as a mulch, keeping the soil cool and moist beneath it.

Every time the cultivator passes over it, the soil is exposed to the air, and more plant food is developed. It is the best way to provide plant food for the fruit, as put 150 persons had assembled.
The circuit ended in an ordinary desk ephone, and was connected with 40 revers. The guests sat around the room h these receivers to their ears, and heard ry word nassed over the theorems with the trees get the full benefit of sll there is.

The mellow surface required in a young every word passed over the thousand-mile orchard may be secured with least labo circuit.

Mayor Grant was introduced to the New York company in person by President Hudson, and then to Chicago audience over telephone.
Mayor Washburne made his bow to the wYorkers over the telephone and Mayor.

mercial and fraternal union; and also con-gratulates Chicago, and wishes her all pos-sible success in the great celebration of the leave the ground in excellent condition, and Mayor Washburne reciprocated the mayor's good wishes and felicitations.

Prof. Bell then talked with William H. Hubbard, who talked with Prof. Bell at the centennial exhibition in Philadelphia, before the Emperor of Brazil and a distinguished audience, when the telephone was a new thing. After this there were recitations spoken and heard between the two cities, and music was played over the circuit, and then every one had a few words with the Windy city. another day, for they may then be crumbled
