Restored To Health By "Fruit-a-tives

MDE. ROCHON Rochon, P.Q. March 2nd, 1915.

"I have received the most wonderful benefit from taking 'Fruit-a-tives'. I suffered for years from Rheumatism and change of life, and I took every remedy obtainable, without any good results. I heard of 'Fruit-a-tives' and gave it a trial and it was the only medicine that really did me good. Now I am entirely well; the Rheumatism has disappeared and the terrible pains in my body are all gone. I am exceedingly grateful to 'Fruit-a-tives' for such relief, and I hope that others who suffer from such distressing diseases will try 'Fruit-a-tives' and get well''. MADAME ISAIE ROCHON.

The marvellous work that 'Fruit-atives' is doing, in overcoming disease and healing the sick, is winning the admiration of thousands and thousands. 50c. a box, 6 for \$2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

THE FOREIGNER AND PROHIBI-

The attitude of the foreigners of Saskatchewan and Manitoba towards prohibition will be welcome news to many of your readers.

Rev. R. G. Scott of Saskatchewan tells us that when all the bars had been closed, the Government opened twenty-three liquor stores for those who thought they could not do without alcohol. Provision had been made that these stores could be closed or others opened, according to the wish of the people, at the Municipal elections in November. The entire Province had been divided into liquor districts. Voting took place in seven districts, in three of which liquor stores had already been established, and in four other districts an attempt was made to open new stores. In ev ery district the result was decisively favor of total abstinence. In the three districts where Government stores had been in operation, they were a wiped out by a vote of about two and a half to one. In the four district where an effort was being made open stores all the attempts failed b a vote of about the same relative pro

Particular interest had been at tached to our district, as the popula tion was largely foreigners. The pre ence of large colonies of Galacian Germans and Hungarians was though to be a strong force to overcome These people had always been accus tomed to use liquor whenever the had the opportunity. Every wedding and every holiday was celebrated with plenty of liquor. Few were abstain ers and none too poor to procure i There was almost no organization, s that what temperance work was done was in most cases by individuals, bu the result was very encouraging.

A foreigner told me that he had a ways been a drinker and that if vote had been taken when the bar were first closed there would hav been many liquor stores open. How ever he thought the people had found out in four months that they got along very well without it and had more money than they ever had before. He said that few wanted the stores opened now.

A young Frenchman who has a family and is a good worker said to me: "The bar got me a good many times. I spent a lot of money and lost a lot of time. I am glad the bar is gone and we don't want the thing back again." In the rural municipality of Fish Creek where the population is almost entirely Galacian, it was thought the people would vote strongly for a liquor store, but it went dry by more than two to one. Wakaw village, where we have a very mixed population went dry by 47 to 16. What has been done in such a district, can surely be done in any place in Canada.

Coming to Manitoba, we find the foreigners quite as hostile to the liquor traffic. In Winnipeg alone there were five Ruthenian, three Scandanavian, and three Icelandic papers that would not even print a liquor advertisement. Perhaps that will take some of the conceit out of us, and let us see that the foreigner has more brains than we gave him credit for. Let us wake

up and press forward. H. ARNOTT, M.B., M.C.P.S.

GILLETT'S LYE EATS DIRT

A certain doctor, who is, on his own frank admission, "the uglies man in four counties," has a sense of humor, which enables him to enjoy many real and unconscious reflections upon his facial deficiencies.

Once, after he had arived too late to succor a poor woman who had been killed in a factory, the local newspaper published an ambiguous account of the care, which the doctor, with grim appreciation, preserved.

Having first described how the woman come by her injuries the paragraph went on to say:-

"Strong hopes were entertained of saving her life until the doctor arrived but these hopes unfortunately proved ill founded, for the moment he showed his face within the door the poor woman fell back with a gasp and ex-

New Brunswick is mov- And if you see a person whole country, but by laws varying in character, adapted to local conditions and in accord with local opinion. On no other system, it is quite a prohibitory law, the only point in clear, could the Dominion have been founded. It is well that this important shall take effect in the usual way, or Simply stated, would be this: fact should be borne in mind, not only by the Provincial authorities who are empowered to enact and administer Provincial laws, but also by the Dominion authorities, when they are called upon to deal with questions that have both Dominion and Provincial sides. Such a question, one can

easily see, is that of the prohibition of the liquor traffic. This is one of the subjects concerning which the fathers of Confederation were not able to see clearly ahead. The constitution, as they prepared it, left the question in a state of confuslitigation, and contributed much profit to the numerous members of the legal profession who from time to time were called upon to advise as to what the law really meant. The con-Provincial Legislatures the exclusive power to make laws respecting "shop, saloon, tavern, auctioneer and other licenses, in order to the raising of a revenue for Provincial, local or for some time that the Provinces could under this section, by refusing to grant licenses, stop the liquor traffic entirely. But another part of the constitution (sec. 91) gave to the Dominion Parliament the exclusive power to make laws for "the regulation of trade and commerce." After long years of litigation the decisions of the Judicial Committee of the Privy Councould enact prohibition so far as that sale of liquor at retail was concerned. but that the manufacture and importation of liquor and the sale of it to parties beyond the Province, were matters of trade and commerce, which erally or in any portion of the country, was declared. Thus the Scott
