

The *Waverly Poultry Magazine* is a new aspirant for public favor. It is monthly, price 50 cents per year, and is published at Waverly, Md.—Fred. A. James, Editor.

We have lots of good valuable matter awaiting its place in the columns of the C.B.J. We hope our friends will have a little patience and we will endeavor to get to their letters as fast as possible.

The convention notice of the Brant Bee-Keepers Association which we received on the 16th ult., was by some means overlooked. It was pushed into another pigeon hole than the one one devoted to that purpose.

THE PRODUCTION OF COMB HONEY.

Our friend W. Z. Hutchinson has got his little book out at last, and though we have not gone into it carefully as yet, a hurried perusal warrants us in saying that it is worth many, many times the price asked for it. We will look into it more fully another week. The price is 25 cents, prepaid postage. We can supply our Canadian friends, as we have a lot of them on hand ready to mail.

M. H. HUNT.

Bell Branch, March 11th, 1887.

BOSTON.

Honey is selling very well but prices are very low, and we are often obliged to shade our prices in order to make rates. We quote 1 lb. comb, 14 to 16 cents. 2 lb. comb, 12 to 14 cents. Extracted, 6 to 8 cents.

BLAKE & RIPLEY.

CHICAGO.

Since my last quotation honey has come forward very freely and from information now at hand it would appear that the Middle States will have all the Honey produced at home this season that can be marketed or consumed, and that we shall not be apt to draw upon the Eastern States as we did last year. Best grades of white comb to-day at thirteen cents. Extracted six cents. and beeswax 25 cents.

R. A. BURNETT.

NEW YORK.

Since Christmas the comb honey market has been very sluggish and sales slow, but has shown more activity the past week. Stock in dealer's hands is large and prices rule accordingly. We quote present prices as follows:—White comb, 1 lb. sections, 10 and 12c.; white comb, 2 lb. sections, 9 and 10c.; off grades, 1 and 2c. per lb. less; buckwheat, 1 lb. sections, 8 and 8½c.; buckwheat, 2 lb. sections, 7 and 7½c.; California extracted, 5 and 5½c.; buckwheat, 4 and 4½c.

MCCAUL & HILDRETH BROS.

HONEY OUTLOOK FOR SEASON OF '87.

The new comb honey coming in shows good quality. There was but little old comb held over, and consequently new arrivals sell well. Fancy white comb in 1 lb. sections, in paper boxes or glassed, commands 12 to 14c. and 2 lb. sections, glassed, 10 to 12c.; while lower grades of both sizes go at 8 to 11c. Dark pungent flavored Buckwheat Honey will probably be a good crop and go lower. The crop in N. Y., Pa. and Vt. is reported fair, while Ill., Iowa, Kas., Wis. and
