LIST OF THE SPIDERS, MYRIOPODS AND INSECTS OF LABRADOR.

BY A. S. PACKARD, PROVIDENCE, R. I.

A list of all the known species of terrestrial Arthropods of the Labrador coast may prove convenient as a starting point for future investigations. Hence I have, besides enumerating the species of other groups, revised the lists of Lepidoptera—Mr. Scudder kindly contributing the list of butterflies. For changes in the names of the Tortricidæ I am indebted to Prof. C. H. Fernald's excellent catalogue of the Tortricidæ of the United States.

ARACHNIDA.

The spiders which I collected at various points on the coast were sent to Prof. T. Thorell, of Upsala, for identification and description. Out of ten species collected, seven were new to science. Prof. Thorell's paper was published in the Proceedings of the Boston Society of Natural History, xvii., April 21, 1875.

- Epeira patagiata* (Clerck). Square Island, Strawberry Harbor.
" *Packardii* Thor. " " "
Tetragnatha extensa (Linn.) " " "
Linyphia Emertonii Thor. " " and near Dumplin Harbor.
Clubiona frigidula Thor. " " "
Gnaphosa brumalis Thor. Strawberry Harbor.
Lycosa Greenlandica Thor. " " "
" *furcifera* Thor. Square Island, and near Dumplin Harbor.
" *fuscata* Thor. Strawberry Harbor.
" *Labradorensis* Thor. Strawberry Harbor and Square Island.
Xysticus Labradorensis Keys. K. K. Zool. Bot. Ges. Wien., 479, 1887.
Ungava Bay (Turner).

MYRIOPODA.

- Julus* sp. Square Island.
