

PURE COD-LIVER OIL,

Manufactured on the Sea-Shore, by HAZARD & CASWELL, from Fresh and Selected Livers.

The universal demand for Cod-Liver Oil that can be depended upon as strictly pure and scientifically prepared, having been long felt by the Medical Profession we were induced to undertake its manufacture at the Fishing Stations, where the fish are brought to land every few hours, and the Livers consequently are in great perfection.

This Oil is manufactured by us on the sea-shore, with the greatest care, from fresh, healthy Livers, of the Cod only, without the aid of any chemicals, by the simplest process and lowest temperature by which the Oil can be separated from the cells of the Livers. It is nearly de-

void of color, odor, and flavor—having a bland, fish-like, and, to most persons, not unpleasant taste. It is so sweet and pure that it can be retained by the stomach when other kinds fail, and patients soon become fond of it.

The secret of making good Cod-Liver Oil lies in the proper application of the proper degree of heat; too much or too little will seriously injure the quality. Great attention to cleanliness is absolutely necessary to produce sweet Cod-Liver Oil. The rancid Oil found in the market is the make of manufacturers who are careless about these matters.

Prof. Parker, of New York, says: "I have tried almost every other manufacturer's Oil, and give yours the decided preference Prof. Hays, State Assayer of Massachusetts, after a full analysis of it, says: "It is the best for foreign or domestic use."

After years of experimenting, the Medical Profession of Europe and America, who have studied the effects of different Cod Liver Oils, have unanimously decided the light straw-colored Cod-Liver Oil to be far superior to any of the brown Oils.

The Three Best Tonics of the Pharmacopœia: **IRON—PHOSPHORUS—CALISAYA.**

CASWELL, HAZARD & Co. also call the attention of the Profession to their preparation of the above estimable Tonics, as combined in their elegant and palatable **Ferro-Phosphorated Elixir of Calisaya Bark**, a combination of the Pyrophosphate of Iron and Calisaya never before attained, in which the nauseous inkiness of the Iron and astringency of the Calisaya are overcome, without any injury to their active tonic principles, and blended into a beautiful Amber-colored Cordial, delicious to the taste and acceptable to the most delicate stomach. This preparation is made directly from the **ROYAL CALISAYA BARK**, not from ITS ALKALOIDS OR THEIR SALTS—being unlike other preparations called "Elixir of Calisaya and Iron," which are simply an Elixir of Quinine and Iron. Our Elixir can be depended upon as being a true Elixir of Calisaya Bark with Iron. Each dessert-spoonful contains seven and a half grains Royal Calisaya Bark, and two grains Pyrophosphate of Iron.

Ferro-Phosphorated Elixir of Calisaya Bark with Strychnia.—This preparation contains one grain of Strychnia added to each pint of our Ferro-Phosphorated Elixir of Calisaya Bark, greatly intensifying its tonic effect.

Ferro-Phosphorated Elixir of Calisaya with Bismuth, containing eight grains Ammonio-Citrate of Bismuth in each table-spoonful of the Ferro-Phosphorated Elixir of Calisaya Bark.

CASWELL, HAZARD & CO., CHEMISTS AND DRUGGISTS, New York.

ROYAL COLLEGE PHYSICIANS AND SURGEONS,

IN AFFILIATION WITH

Queen's University, Kingston.

Faculty:

- J. R. DICKSON, M.D., M.R.C.P., Lon., M.R.C.S. and F.R.C.S., Edin; (Medical Superintendent, Rockwood Asylum), Prof. of Clinical Surgery, and President of the Faculty.
FIFE FOWLER, M.D., L.R.C.S., Edin., Prof. of Materia Medica and Registrar of the Faculty.
HORATIO YATES, M.D., Prof. of the Principles and Practice of Medicine, and Clinical Medicine.
MICHAEL LAVELL, M.D., Prof. of Obstetrics and Diseases of Women and Children.
MICHAEL SULLIVAN, M.D., Prof. of Surgery and Surgical Anatomy.
ALFRED S. OLIVER, M.D., Prof. of Institutes of Medicine and Sanitary Science.
N. F. DUPUIS, M.A., F.B.S., Edin., Prof. of Chemistry, and Practical Chemistry and Botany.
THOMAS R. DUPUIS, M.D., Prof. of Anatomy.
KENNETH N. FENWICK, M.A., M.D., M.R.C.S., Eng., Prof. of Medical Jurisprudence.
D. P. LYNCH and JAMES McARTHUR, Associate Demonstrators of Anatomy.

The next winter Session begins on the 1st Wednesday of October, 1877. Students attending this College may obtain either the degree of M.D., or the License of the College. Certificates of attendance are recognized by the London and Edinburgh Colleges. The College building, which is being newly fitted up, is commodious and convenient. Unequalled facilities are presented for the study of Practical Anatomy, and great advantages are afforded for Clinical instruction at the General Hospital, and Hotel Dieu. Further information can be had on application to the Registrar.

FIFE FOWLER, M.D., L.R.C.S., Edin.

Awarded the only Medal and Special Diploma for Improved Pharmacopœia, Medicinal, and Mechanical Plasters, in Rubber Combination, over all Foreign and American Competitors, at Centennial Exhibition.

SEABURY & JOHNSON,

MANUFACTURERS OF

Official, Medicinal, Spread, Porous, Silk, Mustard, Muslin Tracing Cloth, Kid, Corn, Bunion, and Court

PLASTERS.

Office, 21 Platt St., New York. Factory Brooklyn.

Direct producers of every conceivable Plaster used in Surgery and Pharmacy, of the most approved and improved character.

Special Formulas made to order.

Every article guaranteed to be of strict Pharmacopœia strength, and incorporated with the most reliable Extracts and Drugs.

Belladonna Plaster.—We incorporate the Official Alcoholic Extract only. Recent analysis, fairly conducted by competent chemists, emphatically condemns the inspissated Extract as a mild and unstable product, representing but one half or less than one half of the strength of the U. S. P. Alcoholic Extract of Belladonna. The following result, published in the *American Journal of Pharmacy*, in April, 1876, page 145, is furnished for your consideration, which indicates the following percentage of Atropia in the respective Extracts:—

Alcoholic Extract Belladonna, U. S. P.	2,571
Allen's English Extract	1,411
Herring's " "	1,179

The practitioner, as well as ourselves, has but one choice.

Rubber Adhesive Plaster is applied without heat or moisture. Very flexible, conforms instantly to the skin, is perfectly water-proof, contains no irritating property. Has no equal in counter-extension. Can be had on twilled linen. Adhesion is greatly increased by having it in porous form.

Mustard Plaster. An improvement over best French makers. Is spread on flexible muslin instead of paper.

Blister Plaster. Always reliable. Is more active than the Cerate. Is not impaired by age.

Capsicum Plaster. The best rubefacient known—mild, continuous, and stimulating. We do not incorporate the oleo-resin. We use the crude drug in sufficient quantity. Does not blister.

JUDGES REPORT (Condensed); Originality: The successful application of Rubber as a base for all Medicinal and Mechanical Plasters. **Reliability:** And general excellence of Manufactures.

The trade supplied by all Wholesale Druggists in Canada.

* Students attending the Botanical class can also without additional fee attend Lectures on Zoology.
