It is said that all signs of discontent have disappeared from the province of Rio Grande de Sol, Brazil, and that quietness reigns.

The Supreme Court has decided to adjourn to January 10th, when Mr. Blake will resume the argument in the case of C. P. R. v. Conmee.

correspondent of the New York Engineering and Mining Journal pertinently remarks that bills of the size, say 5 by 3 inches would be more convenient, be more in proportion and would certainly look better. "There is," he adds, "altogether too much printing on the front and back of most of them, and the designs of some, especially those on the backs of the bills are not artistic and are meaningless. A shorter bill would be more convenient in every way than the present long bill. It could be kept flat in a pocket book of a handy size, would not be subjected to so much folding and would also cost less to manufacture." In concluding he asks why should not a shorter bill represent the same value as the present too long bill? There is much in this to commend itself to the contemplation of those under whose Managing Director. | control matters of this kind usually come.
