

Our Automatic Swing and Hammock Chair

WHICH has had a very large sale for three years past, is the same Chair we use in our Lawn Outfit. This cut shows Chair as used when suspended from limb of tree. Can also be suspended on verandah or ceiling by using two hooks.

Reclining Camp Chair.

IN the above cut is shown our new Reclining Camp Chair, being different in construction and design from anything yet made. It can be adjusted to as comfortable a position as any reclining chair made. No camp or lawn is complete without one or more of these Chairs. Folds very compactly. Weight, 12 pounds.

Lawn Outfit.

THE above cut is a correct representation of our new Lawn Outfit with stand, and canopy six feet long, with stripe awning duck, being large enough to afford sufficient shade without trees. When set up can be easily moved about the lawn by one person. This outfit is very neat and attractive, and is a great improvement to the appearance of any lawn.
