nity of Papal Legate in Ireland on inal Archbishop of Armagh. The aujoyful appreciation by all classes of the most distinguished and it may be added one of the most patriotic representatives who have ever filled the See of St. Patrick. The appointment of the Legate to the Holy See has been made by the Supreme Pontiff in view of the National Synod of the Bishops of the country who will assemble next year. Assemblies of a similar nature have been held on many previous occasions and have always been regarded as events not only of spiritual but of historic im. portance. The approaching synod. which will appropriately mark the close of one and the opening of another century, will, no doubt, be fraught with a significance and an interest eventful as any that has preceded it, and is surely destined to leave the impress of its deliberations on the future history of the Irish Church.
