**MONTREAL.**

# Mercantile Summary.

At six o'clock, on Wednesday morning, says the *Observer* of the 16th, many hearts were rejoiced by hearing the bell of the Coaticook cotton mills calling the employees to work again.

The declared exports to the United States for the quarter ending September the 30th, 1884, from the Consular district of Sherbrooke, amounted to \$199,078, which included over 8,000,000 feet of sawn lumber.

The deposits in the Postal Savings Banks of Canada during September amounted to \$499,366, and the withdrawals to \$441,709. The balance at the credit of all depositors on the 30th September was \$13,684,045.

It is a sign of the times in the American cotton trade that the proprietors of the well-known Wamsutta woollen mills, at Fall River, have asked for an extension from their creditors. The firm is embarrassed on account of dull trade.

TEN self-binding grain-harvesters were brought into the settlement of Edmonton this season, and there were two there before. The machines, it appears, cost \$360 at Calgary, and \$70 freight from Calgary in, a total of \$430. They have facilitated harvesting operations greatly.

THE *Kingston News* states that during the present navigation season nearly 20,000 tons of Canadian iron ore were shipped from that port to Fairhaven and Cleveland. This is about the same amount as last year. Fifty vessels were brought into commission in carrying the above quantity.

THE daily output of the Vancouver Coal Company, says a British Columbia journal, has now reached over 600 tons, and adds the *Times*, with the assistance of the steam engine placed under ground at the Esplanade shaft, the management anticipate within a very short period to raise the output to over 1,000 tons per diem.

FAIR success has attended the growth of Nova Scotian potatoes in English soil. Two years ago, says the *Canadian Gazette*, a large firm of potato salesmen imported a small lot of Burbank potatoes from Nova Scotia. These have been tried by several growers with good results. One crop is at the rate of 15 tons per acre, and the tubers are said to be handsome and free from disease.

THE Pullman Palace Car Co. declares a dividend of 2 per cent. for the quarter, payable November 15. At the annual meeting the financial statement showed: Assets, \$26,169,382; liabilities (including \$15,924,800 of capital stock), \$18,635,670; surplus, invested in assets of company, \$7,533,712; earnings, profits and rentals during year, \$4,456,457; operating expenses, maintenance, rentals, dividends, etc., \$3,263,963; surplus for year, \$1,192,694.
