

...WORLD'S...
CONGRESS OF STENOGRAPHERS

The World's Congress of Stenographers held at Chicago, July, 1893, was the most important gathering of stenographers ever held at any time or place. Every student, teacher, amanuensis, reporter or other person interested in stenography, should have a copy of the report of the proceedings. A complete report has been issued by THE NATIONAL STENOGRAPHER CO., Chicago., Ill. It contains every paper read there, with portrait and sketch of the life of the author of each as well as the discussions on the different papers, resolutions passed, etc. It is safe to say that there is no other publication in existence that contains so much general information on shorthand and typewriting as this report. It is handsomely bound in blue silk cloth, with gold stamped title, and sells in that form for \$1.25. It may be had in paper binding for 75 cents.
