ESCALATION**

Mr. T. C. Douglas (Nanaimo-Cowichan-The Islands): Mr. Speaker, I ask leave, seconded

[Mr. Marshall.]

by the hon. member for York South (Mr. Lewis), to move the adjournment of the House under Standing Order 26 for the purpose of discussing a specific and important matter requiring urgent consideration, namely, the announcement by the United States Secretary of Defence yesterday regarding the expansion of the ABM Safeguard system and the need for Parliament to consider the effects on the Canada-United States joint air defence NORAD program and more particularly, the nuclear testing on Amchitka Island, the increasing danger of continued escalation in nuclear armaments and the potential dangers to the people and environment in Canada.

Mr. Speaker: The hon. member for Nanaimo-Cowichan-The Islands has given due notice under the provisions of Standing Order 26 of his intention to request leave to move the adjournment of the House for the purpose of discussing the very important matter stated by him. In the interim the Chair has given close and detailed study to the circumstances outlined in his notice.

• (2:20 p.m.)

As the hon. member is aware, the Chair is bound to review all attendant circumstances, and more particularly whether there will be an opportunity to discuss the matter during other proceedings of the House. I refer hon. members particularly to paragraph 5 of Standing Order 26 which reads in part as follows:

In determining whether a matter should have urgent consideration, Mr. Speaker, shall have regard ...to the probability of the matter being brought before the House within reasonable time by other means.

It seems to me that there will be a number of such opportunities in the very near future. I suggest, therefore, that the Chair cannot put the hon. member's motion at this time.
