I am not so sure, although it is a matter for future discussion and debate, that Devco would necessarily have been able to effect what the hon. member suggests it might have, but conditions in Devco are improving because of the increased prospects for the use of coal. It may be that the member is correct. In any event, I want to assure him again that he has my co-operation in making available to him the kind of

information he wants and, indeed, to all members of the House. I share his concern for the rehabilitation and eventual modernization of this very historic and necessary steel mill.

The Acting Speaker (Mr. McCain): The motion to adjourn the House is now deemed to have been adopted. Accordingly, this House stands adjourned until tomorrow at two o'clock p.m.

Motion agreed to and the House adjourned at 10.21 p.m.
