

8. The Journal of Agriculture and Horticulture of
the Province of Quebec.

11. Miscellaneous Publications

(Probably far from complete)

1921 - This organ of the Quebec Department of Agriculture, designed to promote better agriculture by the diffusion of knowledge amongst farmers and horticulturists, is published in two editions - English and French - each issued monthly. A certain portion of the material is common to the two editions but in the main the two are different. The English edition has been edited at Macdonald College from 1908 to the present and a large proportion of the matter contained in it has been contributed by the members of the staff of the Schools of Agriculture and Household Science.

1926 - Hodgins, S.R.S. - Our Neglect of the Light Essay
Dalhousie Rev. 3, 433-33.

1928 - Barton, H. - Rehabilitating the Countryside in Eastern Canada - Dalhousie Rev. 9, 93-9.

1930 - Brunt, H.D. - Why we Teach - Poultry Science, Proc. 22nd Annual Meeting (1930)

9. Contributions to the Agricultural Press

Members of the staff have made frequent contributions to other farm papers, such as the Family Herald and Weekly Star, the Ottawa Valley Journal, the Farmers' Advocate, Farm and Dairy, Grain Growers' Guide, etc..
