

## REGISTRATION.

1. Students entering the Faculty for the first time, whether freshmen or those admitted to advanced standing, register at the office of the University Registrar, on a fixed date each year.
2. Other students, not having prerequisite conditions, may also register at the University Registrar's office between fixed dates each year.
3. Students not registered as above must register in the Engineering Building, on fixed dates each year. Students included in (2) may register at this time and place, instead of at the University Registrar's office, if they desire.
4. Late registration is permitted, up to a fixed date, on payment of a fee of \$5.00 or \$10.00, depending upon the degree of lateness.
5. Changes in registration are not permitted after a fixed date each year.
6. The "fixed dates" referred to in (1) to (5) are set each year, and depend upon the date of the opening of the University session. They are published in the University Calendar and the Faculty Announcement.
7. In October of each year, instructors are requested to advise the University Registrar of any irregularities in their class lists. These are dealt with by the Registrar in conference with the Department concerned.
8. The registration of students ordered to attend supplemental schools is provisional only, until they have successfully completed their work in such schools. If such students fail in the supplemental schools, their registrations are revised in accordance with the prerequisite rules.
