The future of this camp was assured by eminent engineers before the government consented to build the railroad.

Elk Lake is producing ore equal to anything found in the Cobalt district. The property is owned by the Beaver Consolidated, will run from four to eight thousand ounces per ton.

Working under extreme disadvantages, 10 miles from a railroad, a number of pioneer companies, on the verge of success, were compelled to suspend operations for lack of funds. With a railroad at their door, pay ore in sight, and the property well located, these properties should quickly develop into paying mines.

I have for sale several properties adjacent to the railroad, and surrounding the Donaldson's mine, with machinery and tools, which can now be purchased on very reasonable terms. These prices will be advanced after the entrance of the railroad.

Further particulars apply

ROOM 12, 56 KING STREET WEST.

Another demoralized day on New York Exchange, and perfect steadiness and quiet at the Standard Mining Market. Canadian investors with small capital are beginning to learn that New York speculation is not to their advantage or profit. Buy outright a good mining security, and you have something to look after.

at for your money. **PETERSON**
