Centre of Cobalt Mines, Limited

We are forming a Syndicate to take over one of the best located mining properties in the Cobalt Camp, situated in the midst of producing mines, adjoining the famous CROWN RESERVE AND NIPIS- SING, with rock formation identical.

On this property, the Coleman-Michigan-Cobalt, we have two working shafts down to 30 and 80 feet respectively. The No. 1 shaft is within a few rods of where CROWN RESERVE are now, we are ad- vanced, taking out high-grade ore, and engineers declare approximately 30 feet of crosscutting is all re- quired to prove up this vein at depth on our property.

The No. 2 shaft, now at 80 feet, was put down close to the Nipissing boundary line at a point where two veins cross each other. Both of these veins are stripped and trenced clear across our property, and Engineer Ward declares here again only a limited amount of underground work is required to open up a large ore body. The amount of development work already done on what is to be known as the CENTRE OF COBALT MINES, LIMITED, together with buildings, mining equipment, etc., on hand is worth more than \$10,000 to the company.

This is a Big Asset

As it brings this property closer to the PRODUCING STAGE. This work also shows to exist on the prop- erty a system of veins which but few of the big mines of Cobalt can show, and convinces us we are within the ore zone which traverses Crown Reserve, Kerr Lake, La Rose, Drummond, Nipissing and other shipping mines in close proximity to the

Centre of Cobalt Mines, Limited

We are offering for public subscription \$100 Syndicate Memberships at \$100 each, and each member- ship will receive 1,400 shares, fully paid up and non-assessable stock after allotment in the above-named Company, to be incorporated under the Ontario Companies Act with a capital of \$600,000, divided into 2,400,000 shares, par value \$5c. With memberships subscribed the Treasury will contain \$10,000 in cash and \$51,000 shares of stock, in our opinion more than sufficient to make this property a PRODUCING MINE.

Soon after incorporation this Company will be listed on Toronto and Montreal Exchanges, and an active market may be looked for, as the opportunities the Cobalt Camp affords at present are more remote from a money-making viewpoint than for years past.

This is an Opportunity Not to be Missed

In order to safeguard the interests of all who take advantage of this exceptional opportunity, we guarantee to return all remittances if fifty per cent. of the offering is not subscribed and paid for, reserving the right, however, of returning all over-subscriptions and of making allotments in the order received. This assures success to all concerned, on account of this property's well and favorable location, and the figure at which the shares are offered. We believe the subscriptions will be taken rapidly, and would advise you to act at once if you wish to secure shares at this low starting price.

\$100 Buys 1,400 Shares \$500 Buys 7,000 Shares

Full information, including Algate's Revised Map of the producing area of the Cobalt Camp, which shows a total production of \$86,000,000 worth of ore taken out, and dividends paid to the extent of over \$45,000,000 inside of a radius of less than four square miles, of which this property is in the very centre, together with full particulars showing the exact location of this property, will be furnished free on request. Call, write or wire subscriptions immediately to

Cobalt Dividends

At present market price and rate of dividend	
Nipissing yields	17 per cent.
La Rose paid 10 per cent. regular and 2 1/2 per cent. bonus last year. The yield is over	20 per cent.
Conings yields over	20 per cent.
Crown Reserve, over	16 per cent.
Kerr Lake, nearly	30 per cent.
McKinley-Darragh, over	20 per cent.
and extra bonus distribution.	
Tretheway yields over	25 per cent.

For fuller information, address

J. L. Mitchell & Co.

McKINNON BUILDING TORONTO.

Note: Cobalt dividends last year were greater than dividends paid by combined Chartered Banks. 135fr

UNINFLUENCED BY NEW YORK

Cobalt stocks remain almost uninfluenced by the New York stock market, and for that matter, the Toronto stock market. There are reasons for this, and we have previously given them. Some selling of mining shares may have been induced in sympathy with the weakness on the above markets, but not sufficient to make any real impression on prices. We think it will be profitable to take advantage of any reactions to pick up Great Northern and Peterson Lake. We shall be pleased to receive any subscriptions for Northern Gold Ref. Limited, at \$5 a share.
