## HAMILTON EVENING TIMES, WEDNESDAY, JULY 4, 1894. 5 HOSPITAL AND REFUGE. THE FIRE LIMITS BY-LAW. AN INTERESTING REPORT Ladies. Please Remember n Providing Against Possible Lawsuits\_Building Report. The New Scale of Patients' Rates The Markets, Fire and Police Commit From the Council of the Discussed in Committee. ee meeting last evening lasted but a few minutes. Chairman McAndrew, Aldermen Strown, Nelligan and Frid were Board of Trade. MURRAY & CO. PLANS FOR THE REFUGE. present. The main object of the meet ing was to consider the steps to' be taken to render valid the amendments to the Building By-law, extending the fire limits north of the Grand Termik Railway. The Chairman read the City Solicitor's opinion on the matter. Mr. MacKelean held that if not more than eleven members, as was said to have been the case, were attending to the business of the Council at the time the amendments were passed the by-law might be overthrown. He also recom-mended that a short supplementary by-law be passed by the Council to render the amendments secure. The Chairman referred to the burn-ing of the high fince on Mr. Henry Gray's property, adjoining the Canada Cotton mill, on MacNab street north, and stated that when advised that the rebuilding of the fence would be a violation of the fire limit by-law Mr. Gray threat-ened to take legal proceedings to quash the by-law, on the ground of the lack of a quorum in the Council when it, was passed. The committee decided to recommend the passage of the supplementary by-law at the next meeting of the foundit. The Building Inspector's report for June showed that permits were granted for buildings valued at \$56,450, as granst \$57,675 in the corresponding month last year. During the , month 55 buildings and 3,450 feet of sever were inspected, 20 complaints attended to and 24 building permits issued. The report was appted. ng was to consider the steps to' be The Hospital and House of Refuge Committee met last night at taken to render valid the amendments to ANNUAL MEETING YESTERDAY. City Hall. Of the acuteness of the financial situation during 1893, and of the wide spread nature of the business depression the mercantile agency returns furnish unmistakeable evidence, the failures in unmistickeable evidence, the lattice in 1893 aggregating in number '16,757, and in liabilities \$557,778,697. These figures, both having regard to num-bers and amounts involved, far' exceed any previous figures of which we have of the years 1857, 1873 and 1878. with. On the subject of toll gates the re-port says: Your Council being of opinion that the time has arrived when the interests of the city demanded the abolition of toll-gates, have appointed a special committee to wait upon the County and City Councils, to urge up-on them some fair plan of action, to ac-quire by purchase or arbitration the toll roads leading to Hamilton. A special effort should be made to urge the On-tario Government to abolish toll-gates generally and provide good roads. If this object be attained it will be a grat boon to the farming community and will give a 'distinct stimulus to trade throughout the Province.
