London, July 20.-The casualty lists received to-night at the War Office indicate that a party of South African Constabulary was ambushed near Petrusburg, July 16, that two members of the party were killed, one was dangerously wounded and 17 are missing and are believed to have been taken prisoners by the Boers.

Dr. Jameson's health has not been fully restored; still, he is fairly well, and Mr. Rhodes never was more vigorous and alert.

GETTING BACK TO WORK. London, July 21.—The mining interests in South Africa, according to well-informed men like Alfred Beit, are slowly improving. Johannesburg is filling up as rapidly as makes many hesitate, who would perhaps raily around a greater leader.

There is a more hopeful feeling among South Africans than among military men respecting the situation. The captured correspondence between Mr. Reitz and Mr. Steyn has convinced the mine owners that the Boer ammunition is nearly exhausted, and that guerilla operations cannot be maintained when about 500, Boers are accounted for every week as killed, wounded or prisoners.

makes many hesitate, who would perhaps raily around a greater leader.

Nevertheless, the present situation cannot last long. The Liberal party, as at present constituted, must soon go to pleces. The Imperialist wing of the party, when it is reorganized, will draw recruits to an unknown extent from both Liberal-Unionists and Conservatives.

They are also encouraged by the signs of thoroness with which the Orange River Colony and the Eastern Transvaal have been cleared, and by the evidence that the Boers remaining in the Dutch districts of Cape Colony are Cape rebels, who can be brought to trial and punished for depredations.

KRUGER STILL TALKS.

Paris, July 21.—A despatch from Amsterdam contains an interview with Mr. Knucer on the letter of former Secretary of State Reltz of the Transvaal to Mr. Steyn. Mr. Kruger says it is a one-sided document selected by Lord Kitchener out of many others that were captured. Lightkeeper Young éarly this morning saw a steamer sail vessel on fire about seven miles southeast of Green Island. He reported to the fire tug Menominee, and that boat went out to the scene, but the fire went out and the boat sank before it could be reached. There is no knowledge here as to what boat it was. It is evident that all on board were lost, as no report from the French steamship Laos, which arrived here from Yokohama on July 7, with several cases of the bubonic plague aboard, has died of the disease at the quarantine station. The others afflicted with the disease are progressing favorably. It is proposed to flood the steamship and drown the rats.
