AN ALL-TIME ALL-STAR TEAM

There was no great argument about second base. The vote here was almost unanimous. From the days of Ross Barnes, a great hitter and a good second baseman, on through 1917, the game has known many stars. But for all-around ability the game has known but one Eddie Collins.

THE OLD GUARD.

Back in the early stages there were such men as Ross Barnes, Fred Dunlop, Pfeffer and others who ranked high. Then came Bobby Lowe, Claude Richey—and then Napoleon Lajoie, one of the greatest of them all.

After Lajoie came Johnny Evers, the remarkable Trojan—and then came Collins.

In the last fifteen years the three great second basemen have been Lajoie, Evers and Collins.

Of these Lajoie was the greater hitter and the most graceful workman. Of these Evers was the greater fighter and the more eternally mentally alert.

But for batting and base running, fielding skill, speed and the entire combination, Collins was voted on top.

Collins wasn't the slashing hitter that Lajoie was, although Eddie's average is high—far above 300 for an extended span. But Collins was faster on his feet than Lajoie; was, therefore, able to cover more ground. He was also a much better base runner.

Evers gave Collins a great battle as a ground cover, in any fielding way, but Johnny was too far behind his rival at bat.

Collins, through ten years, has averaged .340. Evers, through fourteen years, has averaged .270.

Collins, as a hit maker, base stealer and run getter, has a big bulk over Evers, who has achieved most of his fame as a smart, alert athlete, always in the thick of the firing with his head up.

FROM THE PAST.

The batting record of Ross Barnes ranges above Collins. But oldtimers admit that Collins was his superior in every other way.

Other oldtimers will tell you that Pfeffer could field with Collins. But as a batsman he was far below the Philadelphia and Chicago star.

Collins' value lies in his all-around worth—his fine batting, his great base running, his brilliant fielding and his quick thinking. His great resources were shown in the last world series, when he fielded in faultless style, and then proceeded to bat around .450 against a group of star left-handers. This makes three world series engagements where Collins has batted well above .400.

WEECHMAN'S APPEAL SETS NEW RECORD ON BALL FINANCE

\$60,000 Paid for Alexander and Killifer Makes Other Prices Look Small.

SPEAKER BROUGHT \$50,000

Way Back in 1911 First Big Price Was Paid for Player.

It is said that President Weechman gave in the neighborhood of \$60,000 for Bill Killifer and Grover Alexander. If these figures are correct this is the record deal of baseball.

Back about 1911 the baseball world was started when the New York Nationals paid \$11,000 for Rube Marquard, pitcher of the St. Louis Cardinals.

The next year the Pittsburgh club paid, according to authentic reports, \$25,000 for pitcher, Art Nehf, for pitcher Marty O'Toole and the Marquard deal was so far eclipsed that it soon was forgotten.

Early in the year 1915 Charley Comiskey of the White Sox slipped over a deal that more than doubled the O'Toole affair when he went down to Philadelphia and purchased Eddie Collins from Connie Mack for \$50,000 with a reported bonus of \$15,000 to Collins for signing the contract. This price never was authoritatively stated by Comiskey, but from several sources it was learned that the figures were correct.

The following spring, 1916, the Eddie Collins deal was duplicated, according to unofficial figures, when the Cleveland club forked over \$50,000 for the services of Tris Speaker.

If Weechman has \$60,000 for Alexander and Killifer, in addition to Fenner and Dillhoefer, valued at the same price, it breaks all records for value paid for ball players.

SARNIA, Dec. 21.—The senior O.H.A. squad will go to Detroit for games on Monday and Tuesday nights against the fast Detroit team. The locals are in good shape and expect to give a big account of themselves at the City of the Straits. Montgomery is working well and the rest of the boys look like hockey stars.

NEW MINOR CLAUSE

Purpose is to Hold Players Even Though League May Suspend—Valid During War Only.

The new war-time reservation clause in minor league contracts, as adopted by a committee named at Louisville, to draft it, has been announced by Secretary Farrell. The purpose of the clause is to protect claim to players, even though the league fails to complete its scheduled season. The wording follows:

"The player agrees to abide by the reservation clause in this contract in the event that the club or league which the club is a part is forced to suspend operations on account of war conditions."

This clause is void unless the club and the league plays at least one-half of its originally adopted scheduled playing season.

It is further stated that the clause is binding only during the period of the war, and the further announcement has been made that it will not be necessary for minor league clubs to tender contracts to players in the "National Army" in order to retain title to their services.

This Pair Cost in Neighborhood of \$60 000

WILLIAM KILLIFER & GROVER ALEXANDER.

Quaker City fanatics are fairly frothing at the mouth at the disposal of the Phillies star battery. Pitcher Grover Alexander and Catcher Bill Killifer have been sold to the Chicago Cubs for a consideration believed to be in the neighborhood of \$60,000. Alexander, a right-handed pitcher, was the ground that he had done much to make himself worth a good part of that amount. He said that the Phillies paid \$700 for him.

U.S. TO SEND GRAIN TO FINLAND WHERE STARVATION STALKS

40,000 Tons Already Arranged For by Way of Sweden.

WASHINGTON, Dec. 21.—Permission for the shipment of about 40,000 tons of corn and oats to Finland, by way of Sweden, has been granted by the food administration and the war trade board, upon evidence that thousands of Finns are starving.

An agent of the war trade board will be sent into Finland from Sweden to investigate conditions and make certain that Germany will not benefit by the American shipments. Dr. Kaarl E. Rignatiz, special commissioner of Finland, already has arranged for transportation, which will require about ten ships. He will get the oats and corn as rapidly as the cargoes can be loaded.

In negotiating for the export permits, Dr. Rignatiz told the American officials his people were in a pitiable plight. A July frost killed their crops last summer and the situation in Russia has made it impossible for them to import food from that country, on which they ordinarily depended for half their supply. Twelve million dollars had been paid for food in Russia which never was delivered. Dr. Rignatiz says, because starving Russians looted the trains before they could reach the Finnish border.

The chairman of the Halifax relief committee has received \$1,343.75 in donations from Seaforth. The town also donated \$500.

The Ogilvie Milling Company of Montreal has disposed of its large flour mill, elevator and co-operative business here to the Rob-Roy Cereal Company, which has large business interests in the west. It is the latter company's intention to embark in the manufacture of flour and will take possession as soon as the present stock can be cleared out.

MAY BE A MURDER.

SARNIA, Dec. 21.—The Fort Huron police are working on what may be a murder mystery. The left hand and forearm of a woman were found among some refuse in the yard of the garage department.

The authorities state that from appearances the arm was severed by a sharp instrument not more than two weeks ago. A search was made along the railway tracks, as it was thought someone might have been run over, but no clue was discovered. The arm is that of a well-developed woman. The surety and police are busy trying to solve the puzzle of how it got in the garbage.
