"My Back Is So Bad"

To Treat.

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, rouse, indigestion, sourness, burning, gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomuch and not as some believe to a lack of digestive juices. The delicate stomuch lining is irritated, digestion is delayed and food sours, causing the disagreeable symptoms which every stomach sufferer knows so well.

Artificial digestants are not produced in

ach sufferer knows so well.

Artificial digestants are not needed in such cases and may do real harm. Try laying aside all digestive aids and instead get from any druggist a few ounces of Bisurated Magnesia and take a teaspoonful in a quarter glass of water right after eating. This sweetens the stomach, prevents the formation of excess acid and there is no sourness, gas or pain. Bisurated Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and is the most efficient form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.—Advt.

Making Comparison.

Citizens interested in the situation have pointed out that the people, who must provide the \$160,000, have only the vague argument that the teachers, with the remainder of the salaried class, are underpaid. No specific cases have been laid before them, except what the

newspapers on their own intitiative have obtained.

This situation, they point out, contrasts sharply with the public utilities commission's policy. This body is considering the expenditure of \$100,000 on the property of the state of the s tation.

The Navy League of Canada

It is perfectly obvious that work of the Navy League of Canada, especially as it applies to our seamen, is not a commercial enterprise, but it is and must be the patriotic duty of far-sighted Canadians to see that Canadian boys are given the chance to become the trained seamen we need so urgently.

To-day is big with opportunity for the future, and the Navy League of Canada is organized to "carry on" -assured of your support for the Boy's Naval Brigades movement, and for the financing of the worl in the homes and institutions for our seamen and their dependents.

The estimates for the coming year show that \$500,000 must be raised by public subscription, and this is only possible by united effort and loyal co-operation in the way of generous contributions to this national cause.
