

LOVE MILITARY DISPLAY.

VIENNA, Sept. 30.—A former officer of the Austrian army was walking through a poor quarter of the city in full uniform, when a workman's councillor ordered him to remove his clanking spurs. An altercation ensued, leading to a suit by the officer for damages. The court gave him damages to the amount of 1,000 crowns, and told him he could wear the splendor of his former

estate when and where we would. The workman's councillor pleaded that he and his neighbors objected to such a reminder of the old-time authority of the military class.

Since the ratification of the treaty officers in the full uniform of the old army, with breast loads of medals and decorations, have become very much in evidence on the promenades. Many of them say their uniforms are the only decent clothes they have.

BIG WOOL SHIPMENTS.

Lethbridge, Sept. 25.—Shipments of wool through the Southern Alberta Wool Growers' Association this year far surpass those of last year, approximating one million four hundred and sixty thousand pounds. Last year only eight hundred thousand pounds of wool was shipped through the local association to the Canadian Co-operative Wool Growers' Association in Toronto.

MORE DETAILS IN RADIAL ESTIMATES GIVEN COMMISSION

Said Chief Engineer Gaby At Radial Investigation in Toronto.

DEALS WITH W. O. LINES

Witness Claimed Hydro Commission Was Trustee For the Municipalities.

TORONTO, Sept. 30.—In giving evidence before the royal commission on Ontario hydro radials today, Chief Engineer Gaby of the Ontario Hydro Commission, was examined particularly regarding the plans for the extensions in Western Ontario.

Replying to a question of Mr. Hellmuth, he said that the estimates now submitted regarding the Hamilton-Galt-Elmira lines were the same as those submitted to the Government, except that fuller details were given. It was the same scheme which was voted on by the municipalities interested. Fuller details, he said, would be ready next week, when Mr. Hellmuth promised, they would be gone into more definitely.

Mr. Gaby outlined the plans of the line between Toronto, Hamilton and St. Catharines. This line starting at Bay street, Toronto, is double-tracked for about a mile and from that point parallels the G. T. R. to Long Branch. This line, said Mr. Gaby, would run on the same grade as the Grand Trunk to Long Branch with no level crossings. Between Long Branch and Oakville it would have the same crossings as the Grand Trunk. After reaching Oakville it was proposed to take over the present Dominion Power transmission lines, now in operation, instead of duplicating it. The estimates include a reproduction of the cost of this line from Oakville to Burlington, but it was hoped the present line would be acquired. From Burlington a new line would be constructed into Hamilton, seven and one-half miles long, saving half an hour, as compared with the present beach-line entrance. The purchase of the beach line was not contemplated. The Hamilton terminal would be at James street, some 2,000 feet from the City Hall.

Would Parallel G. T. R. The line from Hamilton to St. Catharines would parallel the G. T. R. to Red Hill, and from there run near the present Beamsville radial on to St. Catharines. The present estimate, said Mr. Gaby, included the cost of right-of-way already purchased. These estimates include two-thirds of the cost of a terminal at Toronto. The estimated cost of the Toronto-Hamilton line was \$1,864,665, and the Hamilton and Niagara

division to St. Catharines \$3,533,132. W. S. Murray's report had made the total cost \$15,037,944. Further contingencies would bring the total cost to \$17,292,635.

Regarding the Toronto terminal of the Toronto-Guelph line, Mr. Gaby said it would connect with the Toronto to Hamilton line at Sunnyside and enter Toronto on its rails.

Regarding the existing Hamilton-Beamsville line, Mr. Gaby said it could continue to operate and would probably look after the local suburban traffic to Hamilton.

Mr. Gaby said that as he remembered it, the estimated cost of the Guelph line was \$1,000,000; the Weston-Woodbridge, \$500,000; and the total of all the Toronto suburban lines over \$2,000,000. These estimates were made at the time Sir Adam Beck, chairman of the Ontario Hydro-Electric Power Commission, was negotiating with the Mackenzie interests for the purchase of the Toronto suburban lines. Mr. Gaby said, bylaws in connection with the lines had not been submitted to the municipalities concerned.

L. F. Hellmuth, E.C., representing the Government, said the inquiry in this connection would have to wait until after the operation had been obtained.

Trustees for Municipalities. R. S. Robertson, counsel for the

SALTS FINE FOR ACHING KIDNEYS

We Eat Too Much Meat, Which Clogs Kidneys, Then Back Hurts.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days, and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless, inexpensive, makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

Big Shoe Values for Saturday and Monday

J. H. Chapman & Co., London

non-hydro municipalities, questioned Mr. Gaby as to the repeal of the radial railway act of 1913 and the passing of the act of 1914. He said that, by the first act the municipalities had power to build radial lines, but the new act took this power from them and gave it to the hydro-electric commission.

"In short," said he, "they left the municipalities the right to ask for radials and to pay for them."

The hydro-electric commission was trustees for the municipalities, was Mr. Gaby's reply to this.

Mr. Robertson asked how the Hydro-Radial Railway Association was appointed, if directly by the people. Mr. Gaby answered that they were not appointed directly by the people, but were chosen by the councils, and practically had no power.

"And the hydro-electric commission consulted that association?" Mr. Robertson asked.

"I would not care to go that far," replied Mr. Gaby. He said it was not the association that had advised the hydro-electric commission—it was the representatives of the municipalities that had contracts with the commission that had done so.

Protection on Lumber. The Mountain Lumber Manufacturers' Association, representing 450 miles with 10,000 employees, urged that lack of some protection on lumber is a far more serious thing for interior mills than for those on the coast which benefit by having other markets and a larger proportion of high-grade product.

The Central Farmers' Institute for West Kootenay asked for retention of the duties on fruit for protection of the British Columbia growers against dumping of United States fruit in Canada. In regard to the tariff generally, the principle of protection was favored where necessary for encouragement of young industries, provided that undue burdens are not laid on other industries that have to import machinery or raw material, or on the consumer at large. The commission will leave for Trail tomorrow and will hold a session in the afternoon, when representations will be made by mining industries.

WOMEN'S CANDIDATE. Calgary, Sept. 29.—Organizations of women of the city have decided to run at least one candidate in the civic elections, although the name has not yet been announced. Mrs. Gale, elected as alderman last year, has still another year to serve. She has refused to be entered in the majority contest. Registration for the provincial lists has been exceptionally heavy among the women voters.
