THE EVENING TIMES AND STAR, ST JOHN, N. B., WEDNESDAY, AUGUST 6, 1913

## THE PENALTY OF DRINKING

In Three Days the Gatlin Treatment Cures Liquor Craving, Restores the Nervous System, Repairs the Damage Done By Liquor (No Hypodermic Injections)

What would you give for strong, steady nerves? Would nerves that didn't continually require liquor to straighten them be a blessing to you? Think what it would mean to get out of bed in the morning with your nerves steady and calm, with no nerve demand. No physical demand. No craving for liquor. Think how it would feel to go through the entire day, and entire week, and entire year, to go through the balance of your life—with NO appetite for liquor—with a feeling of disgust for it.

## THE GATLIN 3 Day Liquor Treatment

The Gatlin is the modern method of treating liquor craving and liquor drinking, and that peculiar form of nervousness which nothing but liquor will relieve. Treatment covers a period of BUT THREE DAYS—is non-poisonous and harmless—no hypodermic injections—RESULTS GUARANTEED UNDER CONTRACT, to be satisfactory in each case. Come to the Gatlin Institute and remain three days. The accumulated poison of alcohol will be driven from your system and with it will go all craving, desire, and nerve demand for liquor. Any patient on leaving the Gatlin Institute may have the full fee paid refunded by stating that a satisfactory cure has not been effected.

For the Home Treatment a trained nurse will be sent to administer treatment if desired, within a reasonable radius of St. John, free of charge.

Write, call or telephone for Free Booklet and full information.

### TRYING AGAIN FOR WAR SCARE

(Continued from page 1.)  
 In the Pacific, but you must not count the enemies' ships for the purposes of calculation in home waters and count them again as prey on our trade in the Pacific or other seas. If there is any subtraction from an enemy's ships for that purpose, an equal subtraction must also be made from ours. There is, indeed, no additional peril for which no provision has been made.

The Daily Telegraph in its editorial comment upon the debate says:  
 "Are we to have the mere shadow of a fleet in the Mediterranean and a squadron which is not under imperial control in the other seas? We should have only six or seven ships on an average, or ten when the Canadian ships or their substitutes become available. What is to be the action of the dominions? They are no longer colonies, but nations. The mother country will next year, mainly be faced with estimates amounting to nearly fifty million pounds."

The Morning Post says: "We have already indicated our feeling in favor of the acceleration of the British programme by the laying down, at once, of five ships to compensate for the hypothetical Canadian Dreadnoughts. That would perhaps suffice were it not that there is every possibility of the three powers concerned, by their combined building, forcing the pace to such an extent that next year's programme must be greatly increased."

The Times advises that Unionists should insist that the three extra ships should be commenced next spring, inasmuch as the emergency has been clearly demonstrated by the memorandum addressed to Premier Borden by the first lord of the admiralty.

The Daily News (London) says that the Mediterranean position must be our concern only in view of probable emergencies, otherwise England will certainly go bankrupt over its building programme.
