Emigration is diminishing from Scotland is well as from England and Ireland. In he seven months ending the 31st ultimo he number of emigrants who set sail from the ports on the Clyde was 12,250, a gainst 17,500 in the same period as 1874. The falling off is mainly in the Canadian the Meriod States traffic, the sailings to New Zealand and Au tralia being very similar to those of last year.
