DEPARTMENTAL EXAM. RESULTS.

Willibe Handed to the Local|Prineipals and Afterwards Published in the Local
Papers.

The Education Department has made a somewhat important departure this year which will be of considerable interest to those taking part in the Departments examination. In years past the past 134 to those taking part in the Departments examination. In years past the past 134 to those taking part in the Departments as affecting the local schools.

The Department has come to the conclusion that this method of announcing the examination results is not without its unsatisfactory features, giving rise to comparisons which are often, from ignorance of local conditions, quite erroneous and in many cases injurious. So this year the pass list will not be handed to the Toronto papers, but there will instead be sent to the principal cf each High School or Collegiate Institute the list of successful candidates at his own school. It will ther rest with the brincipal to have the list published in the local press. rest with the principal to have the list published in the local press.

HANDSOME CARS.

The Grand Trunk car shops at Point St. Charles have just completed another lot of five, what are known in Grand Trunk par-lance as the 800 series coaches with many improvements over the last ones. These first-class coaches are models of modern nce and are the result of expert workmanship. These coaches are vestibuled with heavy steel platforms and an adjustwith newly scent platforms and an alpas-able cover over the steps, which can be let down, thus making an entirely closed vestibule and obviating any danger to able cover over the steps, which can be let down, thus making an entirely closed vestibule and obviating any danger to passengers when passing from car to car, and in addition, they are the means of excluding dust and smoke. The cars are 68 feet long with a seating capacity of 63 passengers, the body of the car holding 54 and the smoking room if people. As regards the smoking room, it certainly is a most somfortable and luxurious compartment, and far excels the old style smoking room. The seats in this part of the car are upholstered in crimson plush, are roomy and most comfortable. The floors are covered with linoleum, while the floor of the body of the cars are carpeted with heavy Brussels of handsome design. The interior of the cars are finished in quartered oak, with ceiling of white wood, decorated in green and gold and trimming are of chaste design is bronze. The seats in the body of the coaches are what are known as the Grand Trunk Standard Reversible Pattern, apholstered in crimson plush.
