PROPOSED LANDING FOR RETAINING WALL

As Recommended by City Engineer-Will Firmly Secure Structure— Other Public Works.

The retaining wall has not moved in section. There is every reason to be lieve that these will form a barricade feet on either side of the centre line and ten feet from the face. The plan to be followed in the construction of the | Three Chinese May Be Charged With gineer in a report to the council on Monday evening last. He recommended that

fifty feet below. As he fell he cried piles are to be driven at five or six feet out. Fred Nichol was passing at the centres, the space between and outside time, and as Mitchell fell he stretched of the piles to be filled in with rock up out his arms and caught him. The force to the foundation level of the present of Mitchell's fa'l knocked Nichol to the ground, and his shoulder, right arm, solid concrete platform is to be erected to high water line, or on a level with Before the extra piles will be driven in concrete will be placed between those now thickly in position. This was start-

ed last night at low tide and will be continued to-night. The pile drivers will then resume their operations, driving the clusters of piles, not so closely, outside the bunch now fairly imbedded in the mud. Between these and for a considerable distance outside will be deposited loose rock, and on the whole foundation so formed the concrete platform will be laid. Its length will be altogether one hundred and sixty four feet, with a width ranging from fifteen to twenty-with national sixty four feet, with a width ranging from fifteen to twenty-with intimate friends. seven feet. This means that for sixty feet or thereabouts along the centre of the landing there will be a width of twenty-seven feet, while the remaining sections on either side will be fifteen feet wide. Including the quantity of loose

AT VILLAGE POINT

Divers Have Closed Scuttles and an Attempt May Be Made To-Day to Float Her.

(From Friday's Daily.) Rear-Admiral Bickford and staff, acompanied by W. F. Bullen, of the B. . Salvage Company, arrived on the noon was lying on the rocks with her bow high

from Vancouver this afternoon:

tide she was standing nearly on end with her smashed forefoot and forty feet of her bow high in the air and the after compartments and stell out of sight under water. He says the is apparently in no danger of breaking, as her back appears to be resting on a fairly even keel, which is badly damaged, and the for-ward compartment filled with water. If lieve that these will form a barricade will cost about six hundred dollars, but strong enough to hold the wall until the it is six hundred dollars well spent. Con- wreck. The party landed at Esquimalt around the stern. The vessel is being

back before she was floated. But unlike ficulty keeping the ship dry. It will take out of water, but further than to say the warship she carried a full cargo of all day to get out the rest of the coat

(From Saturday's Daily.)

the greatest interest prevails over the position of H. M. S. Flora on the rocks

THE FLORA ON THE ROCKS.

NO. 72. man Island, and working like beavers re- arrived late at night, and left early in moving the coal and stores into barges from Union Bay. The guns will also be unshipped and taken out. Pumps are now being placed to clear cut the water.

"The Grafton and Egeria are expected the color of the Flora. It is stated that around her bow there is a death of terms." hourly with wrecking apparatus and machinery. Out on the water a navailaunch ceaselessly patrols in order to prevent the approach of strangers, and it is with great difficulty that the facts of the situation are learned. The prevent the approach of strangers, and it is with great difficulty that the facts of the situation are learned. The admiral and party passed through this morning, driving straight from the boat to the train."

extent, and that, although she lies in a bad condition, she presents no insurmountable obstacles to floating. All holes will be patched up, and when this has been done pumps will clear the hold of water. The result will be the buoying Supplementing the above message the following special dispatch was received from Vancouver this afternoon:

"Captain Ritchie, of the Joan, who visited the Flora last night, says at low the wreck is contained in the following dispatch to the Times from its corre-

ndent at Nanaimo this morning: "Although the Flora lies in the same in a much better condition for floating than at any time since she went on. Several large pumps which were brought up clear of water. An examination has dis-closed many holes in the bottom, and a crossing, on Admira's road, and was stripped of guns and ammunition."

here met by a representative of the Times, who received confirmation of the news of the serious position of the Fora on Village point, Denman island. Rear-Admiral Bickford stated that the ship hung amidships on a rock and broke her was lying on the rocks with her bow high back before she was floated. But unlike that he had hopes that she would be floated he was not disposed at the time to discuss the wreck.

The party, as stated, left here on specificated on the outer extremity of the statement of the ship and supplies, which is expected that everything movable will be taken out of the ship and all the be taken out of the ship and all the holes patched up. Pontoons, scows and barges are alongside ready to be chained to the stern, and to-morrow the first at-tempt will be made to pull her off on a rising tide. The position of the vessel s about the same, but the list to port is great deal more noticeable. The stern oks higher, the result of being pumped out. It is confidently thought no difficulty will now be experienced in floating the vessel to-morrow evening. The damage done cannot be estimated now." Among the contingencies likely to arise from the wreck of the Flora is the detention of Rear-Admiral Bickford on this station for a longer period than was alculated. He and his leave for England on the in the event of a counavigating officer, captal the watch of the wreck sibility of the Flora wanting the dry dock before the Moana's repairs are

that the merchant vessel would have to Until the arrival of the Grafton at the wreck last night a number of the offi
