

27th March,

8

Sir:-

No 107.

In reply to your letter of the 25th instant I beg to say that you may forward the balance of the accounts in connection with the Ice house, but I would ask you in future not to incur unauthorised expenditure without reference first to this office.

When it was found impossible to erect the building for the sum allowed it would have been better to have drawn attention to the fact and have asked for an increased amount before going on with the work.

I am, Sir,

Yours obediently,

Commissioner.

The Principal,

Industrial School,

Dunbow, Alta.,
