spend all my energies in raising as quickly as possible another house. Among the things that pertaked with the house and which I particularly tegets, were a fine globe and a planetarium, the gift of the Old Cambridge Massachusetts Baptiet Sabbath School, connected with Dr. Proye's Church. All the nativa Christians except one old widow woman, lost their houses and everything they possessed in the same great fire. But it is delightful to observe that while their heather fellow sufferers are sunk in gloomy sorrow, they; the Christians, wear cheerful faces, and resignedly say—"It is the Lord, let him do as seemeth him good." Such is one of the blessed effects of the glorious Gospel, this holy religion in Burmah as in America. It soothes and emobles even in those very circumstances which serve only to harden those who have no part in Him.

Are all the members of your Society members of Christ F I hope so indeed, for how sad to be instrumental in leading the heathen to the Saviour and yet have no interest in Him ourselves.

Franciscos, March 26, 1861.

On Treeday morning Mr. McPhelin's Bill to abelish Judges Fees in the Supreme Court, was carried by a majority of one or two in Committee, but defeated on the question to eccept the Report of the Committee. One or two members, who had remained longer at their breakfasts than the other gentlesses present, happened to drop in at the tire the vote was taken, and teing opposed to the principle of the Bill, world it down. In this manner many important measures are carried or defeated—afact by no means creditable to our Legislators. Mr. McPhelin warmly and properly resented such treatment of his "pet."

A lengthy debate conserved on Mr. End's Bill, to provide for the Registration of granted Crown Lands. This Bill sequines books to be kept in each County Registry effect, on which shall be noted the particulers of every grant of land made by the Crown. Meny members favored the Bill as flasificating the issuestigation of titles, and a preventive of land apeculation—while others were of opinion flast these was already sufficient facilities in the Trovincial Secretary's office for hunting up titles, fic. After dinner, Hon. Mr Gray's Bill to provide for the Adjudication in Courts of Law of claims against the Government, was once more taken up. The Bill was supported by Messra. Mr. Gray, in closing the Debate, made a capital speech, and the injurious results of the Bill, (if passed,) were depicted with great force by the gentlemen who opposed it. As the Surveyor General remarked, "a great deal can be said on both aides." The vote was taken on this its postponament for three mouths; Kess: Smith, Connell, Watters, C. Hen Wir. fillies stated that the Government in-tended to send agents to Great Britain to facilitate Immigration, and that the Hon, James Brown, if the Government can secure his services, will be sent on this mission to his native country—Scot-land.
