HARVARD DEFEATED BY COLUMBIA

BOSTON, Mass., May 11.—Harvard was out-generaled and out-rowed by the Varsity eight from Columbia University of New York today on the Charles River, when the crew from Cambridge was defeated by three-quarters of a length over a course of one and seven-eighths miles. As on previous aquatic contests, Harvard started in too late for any hope of victory. Her start was made at the very end of the course, and although a considerable part of the lead which Columbia held was overcome, the distance to be covered in order to reach the finish flag first was too great to be negotiated. Columbia's official time was 9 minutes and 19 seconds, while that of Harvard was 9 minutes and 13 seconds.

YALE WINS THE ANNUAL TRACK MEET

PRINCETON, N. J., May 11.—With the standing in points tie at 48 and the last event, the pole vault, to be decided, Day, of Yale, cleared the bar at 11 ft. 3 in., beating out Vesin of Princeton, and winning the annual Yale-Princeton track meet here this afternoon the score was tied. Surprises were many, considering the annual contests, Harvard started in too late for any hope of victory. Her start was made at the very end of the course, and although a considerable part of the lead which Columbia held was overcome, the distance to be covered in order to reach the finish flag first was too great to be negotiated. Columbia's official time was 9 minutes and 19 seconds, while that of Harvard was 9 minutes and 13 seconds.

MIRACULOUS PIG FOUND IN ITALY
Superstitious Villagers Have Housed the Animal Sumptuously and Fed it on Choice Morsels.

ROME, May 11.—A fanatical hag in the village of San Giovanni, Province of Foggia, recently declared that she had had a vision, in which she saw a pig on the back of which was an image of the Sacred Heart. Her statement was believed by the superstitious villagers, who sought until they found a porker which seemed to fill the bill. The pig was found in a field, and which is now not only reported to be a miraculous animal and is worshipped as such, but housed sumptuously and fed on the choicest morsels. Its triumph, however, may be short-lived as the parish priest, who is outraged by the veneration paid to the beast, threatens to burn it. The villagers, however, pin their faith to the porker, and the priest, fearing for his own safety, has hitherto refrained from meddling.

BRIDE HAD CLOVEN FOOT.
Marriage of Young French Nobleman Broken Off—Youth's Mother Feared He Was Marrying Devil in Disguise.

PARIS, May 12.—At Lamareire, a man took to Sydney on route to embark on a nobleman, a son of a strict Catholic family of ancient descent but who had been converted to Protestantism by the daughter of a well-to-do local lawyer, a Jew. The marriage was broken off yesterday, but a few days ago a rumor reached the ears of the young nobleman's mother to the effect that her future daughter-in-law was afflicted with an infirmity, to wit, a cloven foot.

The pious woman, who had only consented to her son's engagement on account of his marrying into a moneyed family, suggested to him that his fiancée might be the devil in disguise if it were true that she had a cloven foot. The young man paid a visit to his fiancée's parents, and said he was bound, as a dutiful son, to honor his mother's wishes. He therefore asked young man's parents, and summarily dismissed him, with the result that the engagement was broken off.

THE NAVAL DEPOT AT ESQUIMALT WILL BE UNDER CANADIAN CONTROL

Marconi Wireless Station at North Sydney for Marine Department—Ottawa Man's Death

OTTAWA, Ont., May 12.—The British naval depot at Esquimalt will be placed under the control of Canada within a few weeks. At the time Halifax was transferred Canada was given to understand that the British government would not be averse to Canada taking control of the depot on the Pacific coast. However the admiralty authorities did not seem disposed to facilitate this and the transfer was not made. Hon. Mr. Borden, minister of marine, has recently written from England that he has had a conference with Lord Tweedmouth, head of the admiralty, and that they have agreed upon the details as to the transfer of the British naval station at Esquimalt to the custody of Canada. The transfer will be made immediately.

A Marconi wireless station is being erected at North Sydney by the department of marine. It will be in operation within a few days. It is being put up for the purpose, chiefly, of communicating with the mail steamers greeted by a very large audience. The Marathons are deserving of credit for having made it possible for the people here to get a glimpse of the mail steamer which has been in the harbor since the arrival of the steamer, whose name is a household word all over the country.
